Mystflame 60-inch Electric Fireplace User Manual

Model: Mystflame 60 inch (778836756315)

1. IMPORTANT SAFETY INFORMATION

Please read and understand this entire owner's manual, including all safety information, before plugging in or using this product. Failure to do so could result in electric shock, fire, serious injury, or death.

- Always disconnect the fireplace from the power supply before cleaning, performing maintenance, or relocating the unit.
- Do not block air vents. Ensure proper clearance around the fireplace for adequate ventilation.
- The heater of this fireplace has a built-in overheat protection device that automatically cuts off power when overheating occurs. If this happens, unplug the unit and allow it to cool down before restarting.
- Do not operate the fireplace with a damaged cord or plug, or after the heater malfunctions or has been dropped or damaged in any manner.
- Keep combustible materials, such as furniture, pillows, bedding, papers, clothes, and curtains at least 3 feet (0.9 m) from the front of the fireplace.
- This fireplace is hot when in use. To avoid burns, do not let bare skin touch hot surfaces.

2. PACKAGE CONTENTS

6. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your electric fireplace.

- **Cleaning:** Ensure the unit is unplugged and cool before cleaning. Use a soft, damp cloth to wipe down the exterior surfaces. Do not use abrasive cleaners or sprays.
- **Air Vents:** Periodically check and clean the air inlet and outlet vents to prevent dust buildup, which can impede heating efficiency.
- **Storage:** If storing the fireplace for an extended period, unplug it and store it in a dry, dust-free location.

7. TROUBLESHOOTING

If you experience issues with your fireplace, refer to the following common troubleshooting steps:

- **No Power:** Check if the power cord is securely plugged into a working outlet. Verify the circuit breaker has not tripped.
- **No Heat:** Ensure the heater function is turned on via the remote or touch screen. Check if the temperature setting is higher than the ambient room temperature. The overheat protection device may have activated; unplug and allow the unit to cool.
- **Flame Effect Not Working:** Ensure the flame function is activated. Check if the LED lights are functioning.
- **Remote Control Not Responding:** Replace the batteries in the remote control. Ensure there are no obstructions between the remote and the fireplace's sensor.

If problems persist after attempting these steps, please contact customer support.
