› BestPet Dog Playpen Instruction Manual - 16 Panels, 40 Inch Heavy Duty Metal Pet Exercise Pen

## BestPet BestPet

# BestPet Dog Playpen Instruction Manual

Model: 16 Panels, 40 Inch Heavy Duty Metal Pet Exercise Pen

---

## 1. PRODUCT OVERVIEW

---

The BestPet Dog Playpen provides a secure and spacious area for pets to play, rest, and exercise. This heavy-duty metal playpen is designed for both indoor and outdoor use, offering a durable and safe environment. Its rust-resistant construction ensures longevity and stability. The modular design allows for various configurations, and setup is quick and tool-free, making it suitable for temporary or permanent use. Rubber pads enhance stability and protect floor surfaces.

## **2. SAFETY INFORMATION**

- Always supervise pets, especially puppies or young animals, when they are in the playpen.
- Ensure all panel connections are securely fastened before allowing pets into the enclosure.
- Place the playpen on a flat, stable surface to prevent tipping.
- Do not use the playpen as a primary containment solution for extended periods without regular interaction and exercise for your pet.
- Regularly inspect the playpen for any damage, loose parts, or sharp edges that could harm your pet.
- Keep small children away from the playpen during assembly and while pets are inside.

## STABLE & STURDY PET PLAYPEN

Easy to open & firm

### Safety Bolt X2

Make sure pets cannot open the door easily

### Iron Grid

Strong enough to avoid damage from dog hits and bites

### 3. COMPONENTS LIST

The BestPet Dog Playpen (16 panels, 40 inch) includes the following components:

- **Wall Panels:** 14 pieces (32" W x 40" H each)
- **Gate Panels:** 2 pieces (32" W x 40" H each, with integrated gate)
- **Steel Bars:** 16 pieces (approximately 31.7" L, used for connecting panels and securing to ground)

## PRODUCT SPECIFICATIONS

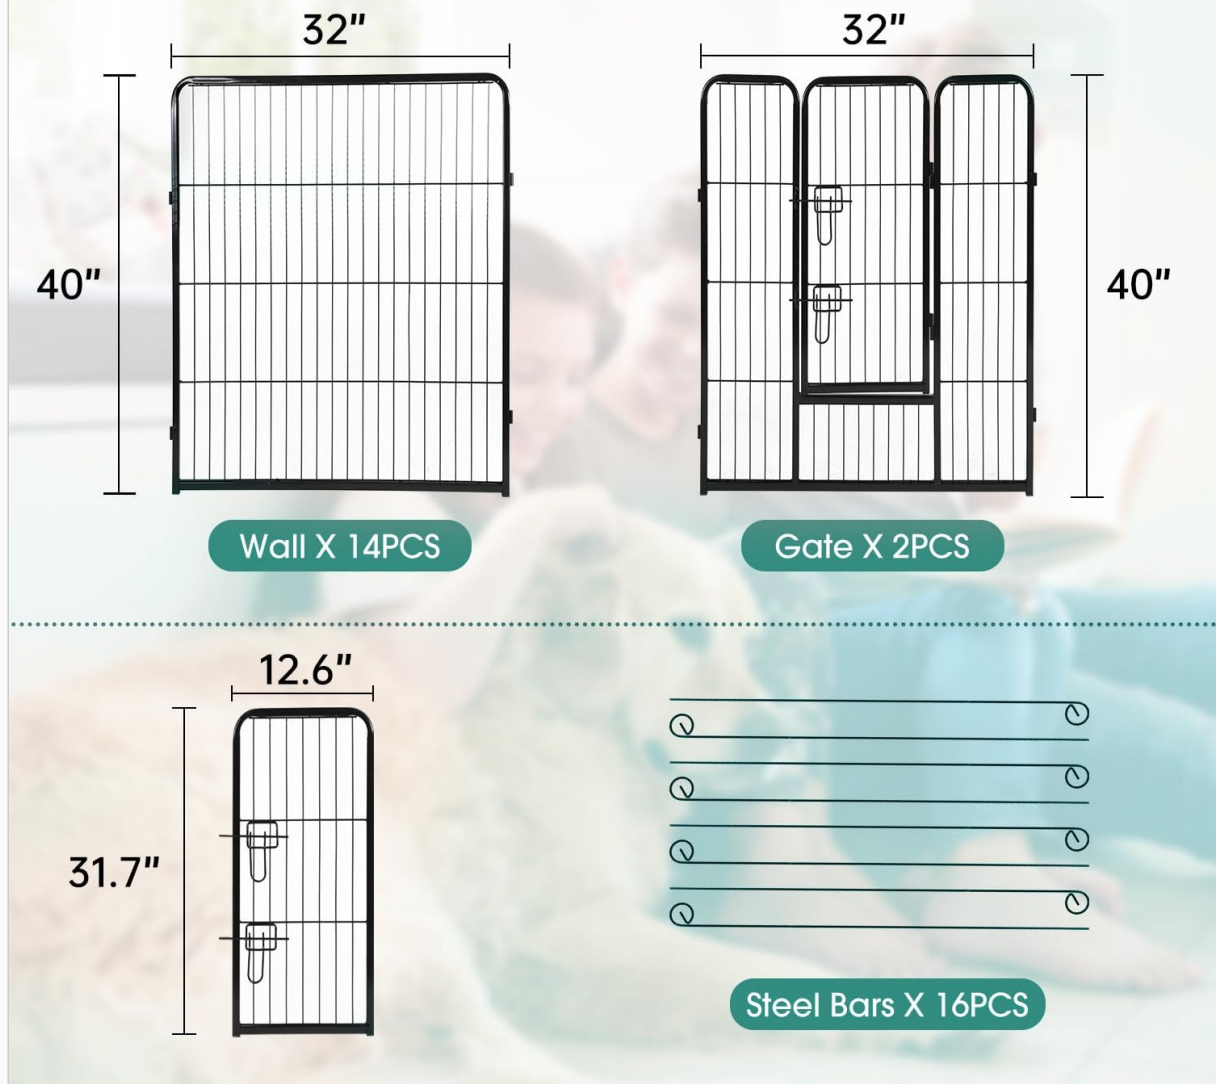

Image 3.1: Visual representation of the playpen components, detailing the dimensions of the wall panels, gate panels, and connecting steel bars.

### 4. SETUP INSTRUCTIONS

This dog playpen is designed for tool-free assembly and can be deployed quickly.

- 1. Unpack Components:** Carefully remove all panels and steel bars from the packaging.
- 2. Position First Panels:** Stand two panels upright. Align the connection points.
- 3. Insert Steel Bar:** Insert a steel bar through the connection holes of the two aligned panels, pushing it down into the ground if setting up outdoors.
- 4. Connect Additional Panels:** Continue adding panels one by one, inserting a steel bar at each connection point, until the desired shape and size are achieved.
- 5. Secure Gates:** Ensure any gate panels are positioned where desired and their safety bolts are functional.
- 6. Final Check:** Verify all connections are secure and the playpen is stable before introducing your pet.

## EASY TO SET UP

Step 01

Step 02

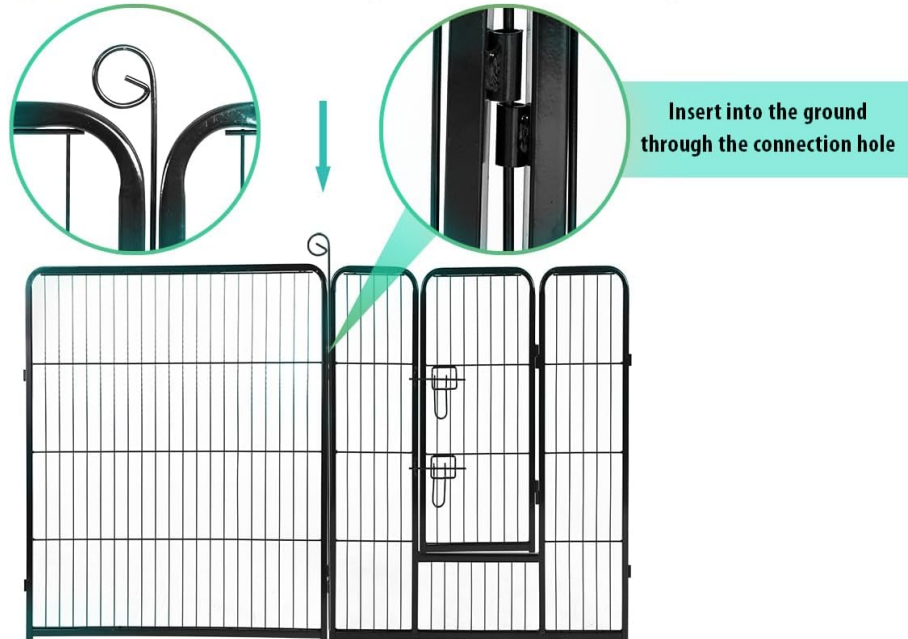

Image 4.1: Step-by-step guide demonstrating the simple process of connecting two playpen panels using a steel bar.

### 4.1 Custom Configurations

The modular design allows for various shapes to meet your needs:

- **Square:** Connect all panels to form a square enclosure.
- **Rectangle:** Arrange panels to create a rectangular shape.
- **Octagon/Polygon:** Use the flexibility of the panel connections to form an octagonal or other polygonal shape.
- **Irregular Shapes:** Adapt the panels to fit specific spaces or create unique layouts.

# EASY ASSEMBLE & DIY SHAPES

Dog playpen can be configured into any shapes to meet your needs, can be used as dog playpen, pet play yard, dog fence

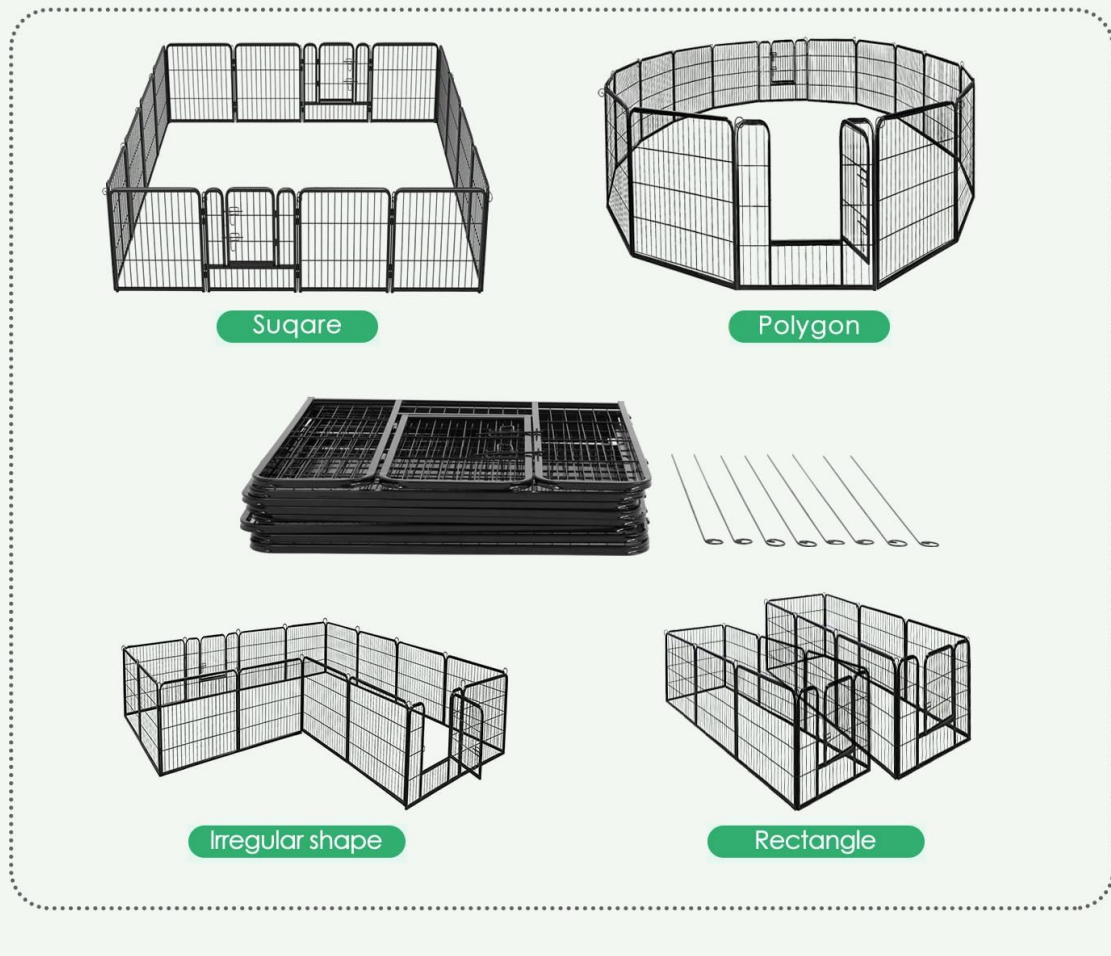

Image 4.2: Examples of different playpen configurations, including square, polygon, irregular, and rectangular shapes, demonstrating the product's versatility.

## 5. OPERATING INSTRUCTIONS

Once assembled, the playpen provides a secure area for your pet. To operate the gate, simply lift the safety bolt(s) and open the gate. Ensure the gate is securely latched when closed to prevent accidental escapes.

For outdoor use, the steel bars can be pushed into the ground to provide additional stability against movement or tipping. For indoor use, the integrated rubber pads on the bottom of the panels help prevent slipping and protect floor surfaces.

*Image 5.1: The BestPet playpen configured in an octagonal shape on a lawn, demonstrating its suitability for outdoor use.*

## 6. MAINTENANCE

- **Cleaning:** Wipe down panels with a damp cloth and mild soap as needed. Rinse thoroughly and dry to prevent rust. Avoid abrasive cleaners.
- **Inspection:** Periodically check all connections, hinges, and welds for wear or damage. Ensure the rust-resistant coating is intact.
- **Storage:** The playpen can be folded for easy storage. Disassemble panels by removing the steel bars, then stack them flat. Store in a dry place to prolong product life.

## Full Paint Protection

- Prevent sharp point to hurt your pet
- All iron, spray paint to avoid rust
- Hard metal, with long service life

## Rubber under pad

- Anti-skid, prevent movement
- Mute and protect the ground

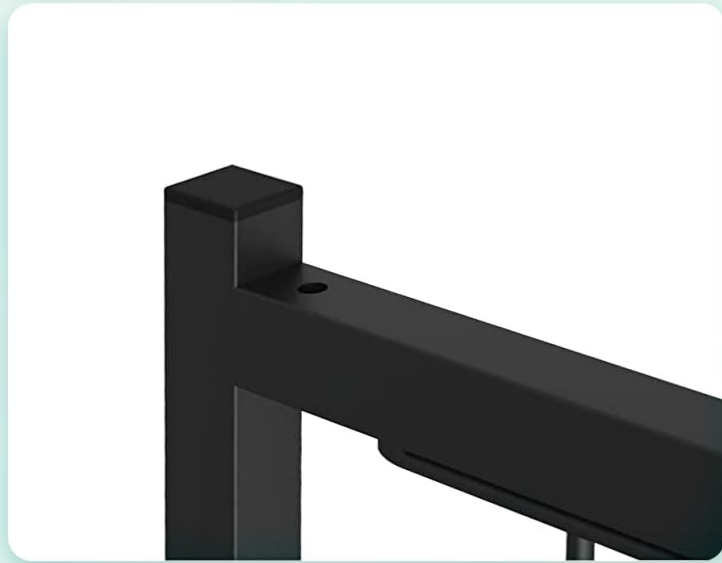

Image 6.1: Details highlighting the full paint protection for rust prevention and the anti-skid rubber pads designed to prevent movement and protect floors.

## 7. TROUBLESHOOTING

- **Playpen is unstable:** Ensure all steel bars are fully inserted through the connection holes and, if outdoors, pushed firmly into the ground. For indoor use, verify the rubber pads are intact and the playpen is on a level surface.
- **Panels not connecting easily:** Check for any debris in the connection holes. Ensure panels are aligned correctly before inserting the steel bars.
- **Gate not latching:** Inspect the safety bolts and the latch mechanism for obstructions or damage. Ensure the gate panel is properly aligned within the frame.
- **Rust appearing:** While rust-resistant, prolonged exposure to moisture or damage to the paint can lead to rust. Clean and dry the affected area, and consider applying a rust-inhibiting paint if necessary.

## 8. SPECIFICATIONS
