## 6.2 Cleaning the Unit

- Wipe the exterior of the air purifier with a soft, dry cloth.
- The washable pre-filter can be gently cleaned with a soft brush or vacuum cleaner to remove large dust and hair particles. Ensure it is completely dry before reinstallation.
- Do not use abrasive cleaners or solvents.

## 7. TROUBLESHOOTING

If you encounter issues with your AirMic4S Air Purifier, refer to the following table for common problems and solutions:

Problem	Possible Cause	Solution
Unit does not turn on.	Not plugged in; power outage; filter not installed correctly.	Ensure unit is securely plugged in. Check power supply. Verify filter is unwrapped and correctly seated, and bottom cover is secured.

Problem	Possible Cause	Solution
Airflow is weak or noisy.	Filter is dirty or clogged; air inlets/outlets blocked.	Clean or replace the filter. Ensure nothing is obstructing the air inlets or outlets.
Odor persists.	Filter needs replacement; strong external odor source.	Replace the filter, especially if using the Original filter for strong odors. Consider using an Odor Remover filter. Ensure the room is adequately ventilated.
Filter Reset light remains on after replacement.	Filter reset not performed correctly.	With the unit powered on, press and hold the Filter Reset button for 3-5 seconds until the light turns off.

If the problem persists after trying these solutions, please contact Okaysou customer support.
