Twelve South 12-1914

Twelve South AirFly Duo Bluetooth 5.0 Transmitter Instruction Manual

Model: 12-1914 | Brand: Twelve South

1. INTRODUCTION

The Twelve South AirFly Duo is a versatile Bluetooth 5.0 transmitter designed to wirelessly connect your AirPods, earbuds, or any wireless headphones to devices equipped with a 3.5mm audio jack. This allows for a seamless audio experience with in-flight entertainment systems, gym equipment, gaming devices, and more, eliminating the need for wired connections.

What's in the Box

- AirFly Duo Bluetooth Transmitter
- USB-C Charging Cable
- Travel Pouch
- Quick Start Guide

Flexible cable ensures that AirFly can work in any situation.

Unlike other products which have a fixed prong or foldable prongs, Airfly wont fall out if bumped.

The long bendable cable can work where the port is in an uneven surface or hard to reach location.

AirFly

The AirFly Duo package includes the transmitter, a USB-C charging cable, and a convenient travel pouch for portability.
2. SETUP AND PAIRING

Follow these steps to set up and pair your AirFly Duo with your wireless headphones:

1. **Turn on AirFly Duo:** Slide the ON/OFF switch on the side of the AirFly Duo to the ON position. The AirFly Duo will flash white and amber to indicate it's in pairing mode.

2. **Put Headphones in Pairing Mode:** Place your wireless headphones (e.g., AirPods) into pairing mode. For AirPods, open the charging case with the AirPods inside and press and hold the button on the back of the case until the status light flashes.

3. **Connect:** Once the light on AirFly Duo turns solid white, your headphones are connected. Plug the AirFly Duo into the 3.5mm headphone jack of your desired audio source.

4. **Connect a Second Pair of Headphones (Optional):** To pair a second set of headphones, repeat steps 1 and 2, then press the second pairing button on the AirFly Duo.

1 **Put AirFly Duo in Pairing Mode**

Switch AirFly Duo on, then press and hold
Button 1 for four seconds until AirFly Duo
rapidly blinks white and amber.

2 **Put Headphones in Pairing Mode**

Please refer to your owner's manual.
Once light on AirFly Duo turns solid white,
you are connected. Plug AirFly Duo into
the headphone jack.

3 **Connect another pair of Headphones**

To pair a second set of headphones, repeat
the steps above using button 2.

3. OPERATING THE AIRFLY DUO

The AirFly Duo allows you to enjoy audio wirelessly from any device with a 3.5mm audio jack. Its compact design and flexible cable ensure compatibility with various setups.

Key Features and Usage Scenarios

- **Wireless Freedom:** Connect your wireless headphones to in-flight entertainment, gym equipment, gaming

devices, TVs, or any device with a 3.5mm audio jack.

- **Dual Headphone Support:** Share audio with a friend or partner by connecting two pairs of wireless headphones simultaneously.
- **Superior Sound Quality:** Equipped with Bluetooth 5.0 and aptX Low Latency codecs for high-quality audio with minimal delay.
- **Long-Range Connectivity:** Enjoy audio up to 10 meters (33 feet) away from the source device.

4. MAINTENANCE AND CHARGING

To ensure optimal performance and longevity of your AirFly Duo, follow these maintenance guidelines:

- **Charging:** The AirFly Duo features a USB-C charging port. Use the provided USB-C cable to charge the device. It can be used while charging.
- **Battery Life:** Enjoy over 20 hours of uninterrupted audio on a single charge.
- **Cleaning:** Wipe the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the AirFly Duo in its travel pouch when not in use to protect it from dust and damage.

The AirFly Duo charges via a standard USB-C port.

5. TROUBLESHOOTING

If you encounter issues with your AirFly Duo, consider the following:

- **Audio Quality Issues:** If you experience anything less than high-quality audio, first check the audio source. Ensure your device supports Bluetooth 5.0 and aptX Low Latency codecs for optimal performance.
- **Connection Drops:** If the connection is lost, try turning the AirFly Duo off and then back on to re-establish the connection. Re-pairing your headphones may also resolve the issue.
- **Pairing Difficulties:** Ensure both the AirFly Duo and your headphones are in pairing mode. Refer to your headphone's manual for specific pairing instructions.
- **No Power:** Ensure the AirFly Duo is fully charged. Connect it to a power source using the USB-C cable.
