- Amazon Echo Auto Air Vent Mount
- Integrated Cable Clip

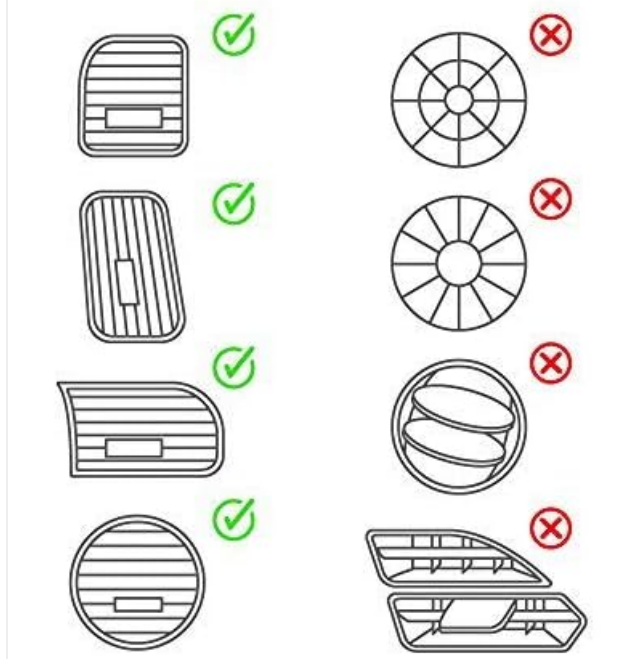

## SETUP

---

### 1. Attaching the Mount to Your Vehicle's Air Vent

Before installation, ensure your vehicle's air vent is compatible with the Echo Auto Air Vent Mount. This mount is designed for horizontal and vertical slat vents and does not support circular air vents.

### Echo Auto air vent mount compatibility

**Image Description:** A diagram illustrating various air vent types. Compatible vent types (horizontal, vertical, and angled slats) are marked with a green checkmark, while incompatible types (circular, deeply recessed, or complex shapes) are marked with a red 'X'. This image helps users identify suitable vent designs for installation.

1. Identify a suitable air vent in your vehicle. Refer to the compatibility diagram above.
2. Gently push the vent clip of the mount into one of the slats of your chosen air vent. Ensure the clip is securely seated.
3. Adjust the angle of the mount as needed for optimal viewing and access. The clip is designed to rotate to accommodate various vent styles.

**Image Description:** A rear view of the Echo Auto Air Vent Mount, highlighting the adjustable clip mechanism that attaches to the air vent slats. The image shows the textured pads designed to provide a secure grip on the vent.

## 2. Securing the Echo Auto Device

1. Once the vent mount is securely attached, align your Echo Auto device with the magnetic surface on the mount.
2. The Echo Auto will magnetically snap into place, holding it firmly on the mount.

### 3. Cable Management

The mount includes an integrated cable clip to help manage the power cable for your Echo Auto, preventing tangles and ensuring a tidy installation.

1. Route the Echo Auto's power cable through the designated cable clip on the mount.
2. Ensure the cable is positioned to avoid interference with vehicle controls or driver visibility.

**Image Description:** The Amazon Echo Auto device is shown securely attached to the air vent mount. The power cable is neatly routed through the integrated cable clip on the mount, demonstrating effective cable management.

### OPERATING YOUR ECHO AUTO AIR VENT MOUNT

The Echo Auto Air Vent Mount is designed for hands-free convenience. Once installed, your Echo Auto device will remain securely in place, allowing you to interact with Alexa while driving. The adjustable clip allows for minor repositioning to suit your preference without needing to remove the mount from the vent.

### MAINTENANCE

To maintain the condition of your Echo Auto Air Vent Mount:

- Periodically wipe the mount with a soft, dry cloth to remove dust and debris.
- Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.
- Ensure the vent clip remains free of obstructions for secure attachment.

### TROUBLESHOOTING

Issue	Possible Solution
Mount does not fit securely in the air vent.	Verify your air vent type against the compatibility diagram in the Setup section. The mount is not compatible with circular vents. Ensure the clip is fully inserted into a vent slat.

Issue	Possible Solution
Echo Auto device is not staying on the mount.	Ensure the Echo Auto is properly aligned with the magnetic surface of the mount. Check for any obstructions between the device and the mount's magnetic area.
Power cable is not staying in the cable clip.	Ensure the cable is correctly routed and fully seated within the integrated cable clip. Avoid pulling on the cable excessively.
