Tvilum 723590074949

Furniture To Go Shoe Cabinet User Manual

Model: 723590074949

Brand: Tvilum

1. Product Overview

The Tvilum Furniture To Go Shoe Cabinet is designed to provide an efficient and stylish storage solution for footwear in any home. Its sleek, minimal design allows for significant shoe storage without occupying excessive space, making it suitable for various modern interiors.

This cabinet features four tilting doors, providing easy access to two layers of storage within each compartment. Constructed from laminated engineered wood, it offers durability and resistance to scratches, moisture, and high temperatures. The white finish ensures it blends seamlessly with diverse decor styles.

Key Features:

- Efficient storage solution with easy-to-open tilting doors.
- Simple, minimal, and effective design suitable for modern interiors.
- Laminated board construction resistant to scratches, moisture, and high temperatures.
- Easy to clean surface with no visible fingerprints.
- White finish for versatile home decor integration.

2. Safety Information

Please read all safety instructions carefully before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- **Anti-Tip Device:** This shoe cabinet must be securely fastened to the wall using the provided anti-tip device to prevent it from tipping over. Tipping furniture can cause serious or fatal crushing injuries. Always use the anti-tip

device.

- **Weight Distribution:** Distribute the weight evenly within the cabinet. Avoid placing heavy items on top or in a way that could unbalance the unit.
- **Children Safety:** Keep children away from the assembly area. Do not allow children to climb on or play with the cabinet. Ensure all small parts are kept out of reach of children.
- **Assembly:** Assemble the product on a soft, clean surface to prevent scratches. Ensure all screws and fittings are tightened securely before use. Periodically check and re-tighten all connections.
- **Placement:** Place the cabinet on a level and stable surface. Avoid placing it near heat sources or in direct sunlight, which could damage the material.

3. Assembly Instructions

Assembly is required for this shoe cabinet. It is recommended that two people assemble the unit to ensure safety and ease of construction. Please ensure you have sufficient space and all components before beginning.

3.1. Package Contents:

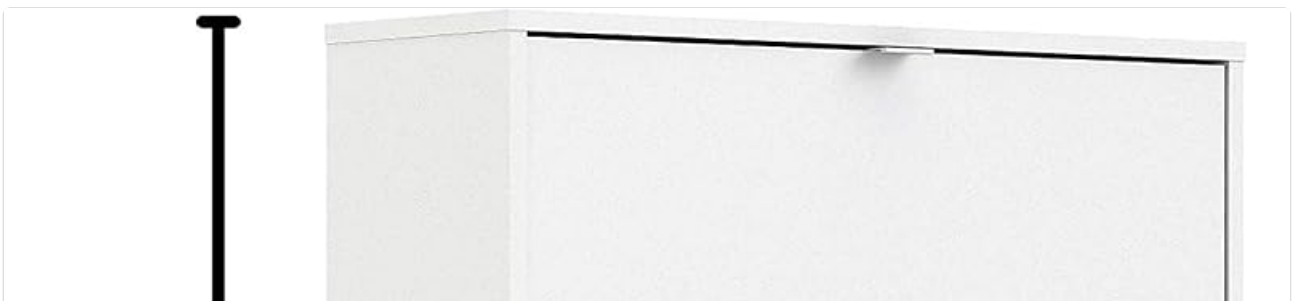

The package includes all necessary fixings and hinges for assembly. Please verify all parts are present against the parts list provided in the physical instruction manual.

3.2. Tools Required (Not Included):

- Phillips head screwdriver
- Hammer (for dowels, if applicable)
- Drill (for wall mounting anti-tip device)
- Spirit level

3.3. Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided diagrams in the physical manual.
2. **Assemble the Frame:** Follow the step-by-step diagrams to connect the side panels, top, and bottom panels using the provided screws and dowels. Ensure all connections are snug.
3. **Install Tilting Mechanisms:** Attach the tilting door mechanisms to the interior of the cabinet frame as indicated in the instructions.
4. **Attach Doors:** Carefully attach the four tilting doors to their respective mechanisms. Ensure they open and close smoothly.
5. **Install Back Panel:** Secure the back panel to the cabinet frame using the small nails or screws provided. This adds stability to the unit.
6. **Wall Mounting (Crucial):** Position the assembled cabinet in its desired location. Using a spirit level, mark the drilling points for the anti-tip device on the wall. Drill pilot holes and secure the anti-tip device to both the cabinet and the wall. This step is essential for safety.

4. Usage and Operation

The Tvilum Shoe Cabinet is designed for convenient and organized shoe storage.

4.1. Storing Shoes:

- To open a compartment, gently pull the handle of the tilting door outwards. The door will tilt forward, revealing the two internal layers for shoe placement.
- Place shoes neatly on each layer. The cabinet is designed to accommodate a large capacity of shoes.
- To close, push the door back into the cabinet until it is flush with the front.
- Avoid forcing the doors if they feel stiff. Check for any obstructions inside the compartment.

4.2. Recommended Use:

This cabinet is specifically recommended for storing shoes. While its design is robust, it is not intended for storing excessively heavy items or for use as a general storage cabinet for non-footwear items that might exceed its weight capacity or interfere with the tilting mechanism.

5. Maintenance and Care

Proper care will ensure the longevity and appearance of your Tvilum Shoe Cabinet.

- **Cleaning:** Wipe the surfaces with a dry cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent moisture damage. Avoid abrasive cleaners or harsh chemicals, as these can damage the laminated finish.
- **Scratch Resistance:** The laminated board is resistant to scratches, but avoid dragging sharp or heavy objects across its surface to maintain its pristine condition.
- **Moisture and Temperature:** The material is resistant to moisture and high temperatures, but it is best to avoid prolonged exposure to excessive moisture or direct heat sources.
- **Hardware Check:** Periodically check all screws, hinges, and fittings to ensure they remain tight. Re-tighten if necessary to maintain stability and proper door operation.

6. Troubleshooting

If you encounter any issues with your shoe cabinet, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Doors do not close properly or are stiff.	Obstruction inside the compartment. Hinges or mechanisms are loose or misaligned. Cabinet is not level.	Remove any items blocking the door's movement. Check and tighten all hinge screws. Adjust alignment if necessary. Ensure the cabinet is on a flat, level surface. Use shims if needed.

Problem	Possible Cause	Solution
Cabinet feels wobbly or unstable.	Screws or connections are loose. Not properly secured to the wall with the anti-tip device. Uneven floor surface.	Re-tighten all assembly screws. Ensure the anti-tip device is correctly installed and securely fastened to a wall stud or appropriate anchor. Move the cabinet to a level surface or use furniture levelers/shims.
Visible scratches or damage on the surface.	Impact from sharp objects. Improper cleaning agents used.	Minor scratches may be concealed with furniture repair pens or kits matching the white finish. Always use a dry or slightly damp cloth for cleaning. Avoid abrasive materials.

7. Product Specifications
