INSTALLATION INSTRUCTIONS

Replacing the SH30 heads is a straightforward process. For optimal results, we recommend watching the installation video provided below.

1. **Open the Shaving Unit:** Gently open the shaving unit of your electric shaver.
2. **Unlock the Retaining Ring:** Twist the retaining ring counter-clockwise to unlock it and remove the old blades.
3. **Remove Old Blades:** Carefully remove the old SH30 blades from their slots.
4. **Insert New Blades:** Place the new RF RollingFit SH30 replacement blades into the corresponding slots. Ensure they are seated correctly.
5. **Align and Lock:** Reinsert the retaining ring and twist it clockwise to lock the new blades securely in place.
6. **Close Shaving Unit:** Close the shaving unit until it clicks into position.

USAGE GUIDELINES

The RF RollingFit SH30 Replacement Heads are engineered for a protective and efficient shave, whether dry or wet.

Dry Shaving

For a comfortable dry shave, ensure your skin is clean and dry. Move the shaver in gentle, circular motions across your face. The rounded edges of the ComfortCut Blade System glide smoothly over your skin, minimizing irritation.

— *Dry Comfortable Shaving* —

Wet Shaving

For an even smoother shave, you can use the shaver with foam or gel. Apply your preferred shaving product to your face and then shave using circular motions. The blades are designed to work effectively in both wet and dry conditions.

— *Wet Comfortable Shaving* —

Image: A man applying shaving cream and using an electric shaver for a wet shave, highlighting the versatility of the replacement heads.

The 360-degree design ensures no dead ends, gently and cleanly removing hair while protecting your skin from scratches.

MAINTENANCE AND CARE

Regular cleaning and timely replacement of your shaver heads are crucial for maintaining optimal performance and hygiene.

Cleaning

The replacement heads are washable for easy cleaning. After each use, open the shaving unit and rinse the blades under running water to remove hair clippings and debris. Allow the heads to air dry completely before reassembling the shaver.

— Washable For Easy Cleaning —

Replacement Frequency

For the best shaving performance, it is recommended to replace your SH30 shaving heads every 3-6 months. This ensures the blades remain sharp and effective, preventing pulling or discomfort during shaving.
