

Newentor MT1-120

Newentor 2-in-1 Hardness Grade H2 & H3 Gel Mattress Pad User Manual

Model: MT1-120

INTRODUCTION

This manual provides essential information for the proper setup, operation, and maintenance of your Newentor 2-in-1 Hardness Grade H2 & H3 Gel Mattress Pad. Please read these instructions carefully to ensure optimal use and longevity of your product.

PRODUCT FEATURES

- **Dual Hardness Design:** Features two distinct layers for varied support. One side offers H2 (soft) Cloud Air Gel Foam, and the other provides H3 (firm) Support Core Foam, allowing users to choose their preferred firmness.
- **Ergonomic Spinal Support:** The visco-elastic material is designed to support the spine from head to pelvis, promoting ergonomic alignment and reducing pressure points for various sleeping positions.
- **Breathable and Hypoallergenic Cover:** The mattress pad includes a breathable, hypoallergenic cover that resists mites and bacteria. It is easily removable with a double-sided zipper and machine washable for hygiene.
- **Certified Materials:** Manufactured with materials certified by OEKO-TEX 100, ensuring all components are free from harmful substances and are environmentally friendly. Suitable for sensitive individuals.
- **Versatile Application:** Can be used on various sleeping surfaces including standard mattresses, elasticated beds, guest beds, caravans, and sofas.
- **Hygienic Properties:** Laboratory-tested to be 99% mite-free, 99% antibacterial, and mold-free, contributing to a clean sleeping environment.

SETUP INSTRUCTIONS

1. **Unpacking:** Carefully remove the mattress pad from its packaging. A cutter may be provided for safe opening.
2. **Expansion:** Allow the mattress pad to fully expand for approximately 24-48 hours in a well-ventilated area. Some initial odor is normal and will dissipate.

3. **Placement:** Place the mattress pad directly on top of your existing mattress or sleeping surface.
4. **Securing the Pad:** The mattress pad is equipped with adjustable straps at each corner and an anti-slip underside to prevent movement. Secure the straps around your mattress to ensure the topper remains in place.

This image shows the Newentor mattress pad installed on a bed. Note the corner straps (not explicitly visible in this specific image but a feature of the product) and the anti-slip base designed to keep the pad securely in position.

OPERATING INSTRUCTIONS

Your Newentor mattress pad offers two distinct firmness levels to cater to individual preferences. To select your desired firmness:

- **H2 (Soft) Side:** This side features Cloud Air Memory Foam, designed for a softer, body-conforming feel. It is generally recommended for individuals seeking plush comfort.
- **H3 (Firm) Side:** This side incorporates Support Core Foam, providing a firmer, more supportive surface. It is typically preferred by those who require greater spinal support.

Simply flip the mattress pad to the side that best suits your comfort and support needs. The firmness levels are designed to

accommodate individuals weighing between 80 kg and 100 kg for optimal performance.

This image visually explains the two distinct firmness levels: H2 (Cloud Air Memory Foam) for a softer feel and H3 (Support Core Foam) for firmer support, indicating the recommended weight range for optimal use.

CARE AND MAINTENANCE

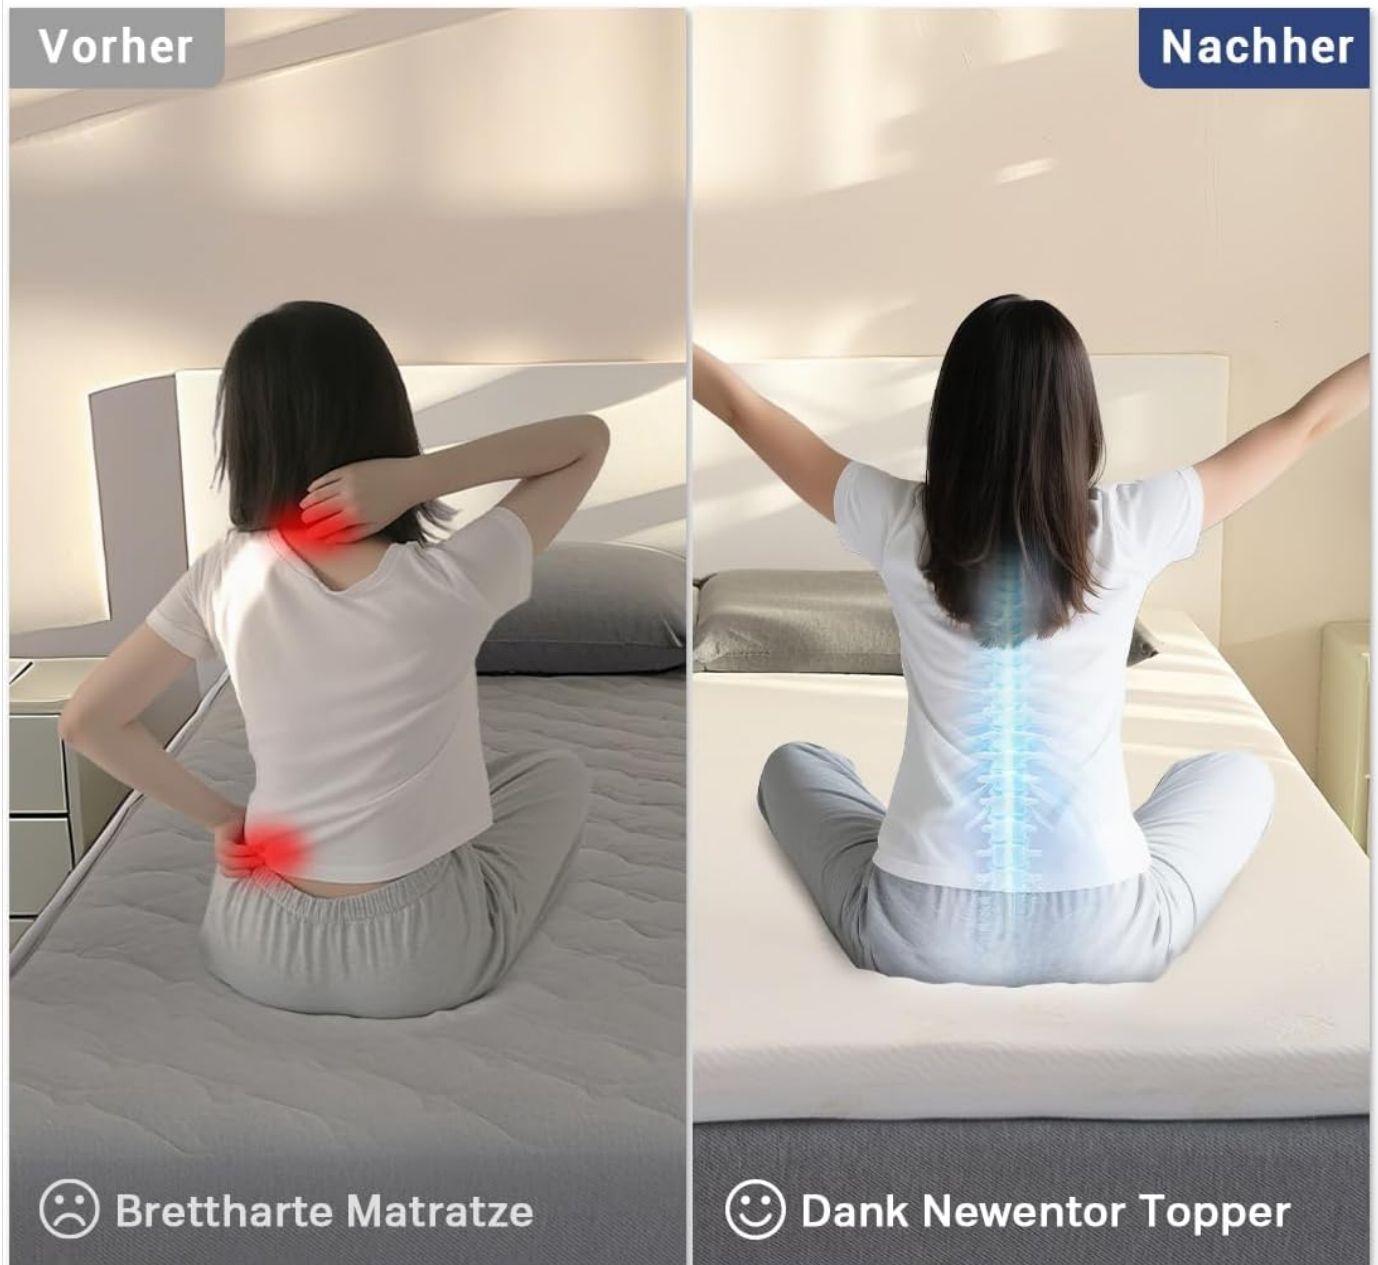

- **Cover Cleaning:** The mattress pad cover is removable via a double-sided zipper and is machine washable. Follow the care label instructions, typically a gentle cycle with cold water. Air dry or tumble dry on low heat. Do not bleach or iron.
- **Foam Core Care:** The internal foam core is not washable. If spills occur, spot clean with a mild detergent and allow to air dry completely before replacing the cover. Avoid direct sunlight.
- **Ventilation:** Regularly air out the mattress pad to maintain freshness and prevent moisture buildup.
- **Protection:** While the cover offers some protection, using an additional mattress protector can further extend the life and cleanliness of your Newentor mattress pad.

TROUBLESHOOTING

Issue	Possible Cause	Solution
-------	----------------	----------

Issue	Possible Cause	Solution
Initial Odor	"New product" smell from manufacturing and packaging.	Allow the mattress pad to air out in a well-ventilated room for 24-48 hours. The odor is harmless and will dissipate.
Mattress Pad Feels Too Soft/Firm	Incorrect side facing up for preference.	Flip the mattress pad to utilize the H2 (soft) or H3 (firm) side as desired. Allow a few nights to adjust to the new firmness.
Mattress Pad Slides	Straps not properly secured or anti-slip base not making full contact.	Ensure all four adjustable corner straps are securely fastened around your mattress. Verify the anti-slip underside is in direct contact with the mattress surface.
Cover Difficult to Zip	Fabric caught in zipper or cover not aligned correctly.	Gently pull the fabric taut and ensure it is not obstructing the zipper path. Align the cover evenly before zipping.

SPECIFICATIONS

- **Brand:** Newentor
- **Model:** MT1-120
- **Dimensions:** 200 x 120 x 7 cm (Length x Width x Height)
- **Weight:** 6.84 kg
