MAINTENANCE

Proper care will extend the life and appearance of your dining table.

- Stain Resistance:** The marble top is **not** stain resistant. Use coasters and placemats to protect the surface from food, drinks, and hot items.
- Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading or damage to the wood and marble.
- Humidity Control:** Maintain a stable humidity level in the room to prevent wood from warping or cracking.
- Periodic Check:** Periodically inspect all fasteners and re-tighten them if they have loosened over time.
