LMP LED Square Up and Down Outdoor Wall Light Instruction Manual

Model: ZY-B1046C | Brand: LMP

INTRODUCTION

Thank you for choosing the LMP LED Square Up and Down Outdoor Wall Light. This modern and energy-efficient lighting solution is designed to enhance the aesthetics and safety of your outdoor spaces. Crafted from durable aluminum with an IP65 waterproof rating, it offers excellent resistance to heat, impact, low temperatures, and chemicals, ensuring longevity and reliable performance in various weather conditions. This manual provides essential information for the safe installation, operation, and maintenance of your new wall light.

SAFETY INFORMATION

- Always cut off the power supply at the circuit breaker before installation, maintenance, or bulb replacement.
- Installation should be performed by a qualified electrician or in accordance with local electrical codes.
- Ensure all wiring connections are secure and properly insulated to prevent electrical hazards.
- Do not exceed the specified voltage (110V-240V) for this fixture.
- This product is designed for outdoor use and is IP65 waterproof. However, avoid submerging the fixture in water.
- Keep children and pets away from the installation area.

WHAT'S IN THE BOX

- LMP LED Square Up and Down Outdoor Wall Light (2 units)
- GU10 Bulbs (2 per unit, pre-installed or included)
- Mounting Hardware (screws, wire nuts, etc.)
- Instruction Manual

Material	Aluminum
Product Dimensions	4.25"L x 2.48"W x 9.64"H
Light Source Type	LED (GU10 bulbs)
Wattage	5 watts per bulb
Voltage	110V-240V
Light Color	3000K Warm Light
Brightness	700 Lumen
Water Resistance Level	IP65 Waterproof
Installation Type	Semi Flush Mount
Lifespan	Average 25,000 hours
Certifications	ETL Certified

Note: This specific model does NOT include a dusk-to-dawn sensor.

SETUP AND INSTALLATION

The LMP LED wall light is designed for easy installation. A small package with all necessary mounting hardware is provided. Please follow these steps carefully:

- Cut off Power:** Before starting, ensure the power supply to the installation area is completely turned off at the circuit breaker.
- Fix Bottom Plate:** Securely fix the mounting plate to the wall using the provided screws. Ensure it is level and stable.
- Connect Wires:** Connect the electrical wires from your wall to the fixture's wires using the provided wire nuts. Follow standard wiring color codes (e.g., black to black, white to white, ground to ground).
- Install GU10 Bulbs:** If not pre-installed, insert the GU10 bulbs into their sockets.
- Secure Fixture:** Align the wall light fixture with the mounting plate and secure it using the appropriate screws or fasteners.
- Restore Power:** Once the installation is complete and all connections are secure, restore power at the circuit breaker.

MAINTENANCE

The LMP LED wall light requires minimal maintenance due to its durable aluminum construction and IP65 waterproof rating. The LED GU10 bulbs have an average lifespan of 25,000 hours, significantly reducing the need for frequent replacements.

- **Cleaning:** Periodically wipe the fixture with a soft, damp cloth to remove dust and debris. Avoid using abrasive cleaners or solvents that could damage the finish or clear panels.
- **Bulb Replacement:** While long-lasting, if a bulb needs replacement, ensure the power is off. Carefully remove the old GU10 bulb and insert a new one. This fixture uses standard GU10 bulbs.
- **Inspection:** Annually inspect the wiring and mounting for any signs of wear, damage, or loose connections. Address any issues promptly to ensure continued safe operation.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Light does not turn on	No power to the fixture; Loose wiring; Faulty bulb.	Check circuit breaker; Verify all wire connections are secure; Replace bulb.
Light flickers	Loose wiring; Incompatible dimmer switch (if applicable); Faulty bulb.	Check wiring connections; Ensure dimmer switch is compatible with LED (if used); Replace bulb.

Water inside fixture	Improper sealing during installation; Damaged seal.	Ensure all seals are properly seated and screws are tightened; Inspect for damage and contact support if necessary.
