4. OPERATING INSTRUCTIONS

4.1. Remote Control

The included 15-channel timing remote allows for individual or group control of up to 15 smart curtains. It also supports setting a favorite position and scheduling operations.

5. MAINTENANCE

To maintain the quality and appearance of your Graywind shades, follow these cleaning instructions:

- **Spot Clean Only:** For minor spots, use a well-wrung cloth or sponge dipped in a solution of mild dish-washing detergent and lukewarm water. Gently blot the affected area.
- **Dust Removal:** Gently remove dust softly with a feather duster or softly glide a vacuum over the blinds using a brush attachment. Ensure the blind is fully extended when dusting.
- Avoid harsh detergents or violent treatment, as this may damage the fabric.

Video: Instructions on how to clean Graywind Window Shades and Blinds, including dusting and spot cleaning methods.

6. TROUBLESHOOTING

If you encounter any issues with your Graywind Motorized Shades, please refer to the following general advice:

- **Connectivity Issues:** Ensure your WiFi network (2.4G/5GHz) is stable and the shades are within range. Re-pair the device with the Graywind App if necessary.
- **Remote Control Not Responding:** Check the remote's battery. If using an Alexa-compatible motor, ensure initial setup with a remote was completed.
- **Motor Malfunction:** If the shade motor runs continuously or grinds, check the upper and lower limits. Resetting limits may resolve the issue.

For detailed troubleshooting or persistent problems, please contact Graywind customer support.

7. SPECIFICATIONS
