JIMACRO NexFan

JIMACRO NexFan Portable Air Cooler Instruction Manual

Model: NexFan | Brand: JIMACRO

Introduction

Thank you for choosing the JIMACRO NexFan Portable Air Cooler. This device is designed to provide personal cooling, humidification, and air purification, making your personal space more comfortable. It features a compact design, adjustable fan speeds, and a soothing night light function. Please read this manual carefully before use to ensure proper operation and maintenance.

Safety Information

To reduce the risk of fire, electric shock, or injury, please observe the following safety precautions:

- Always use the product on a stable, flat surface.
- Do not immerse the unit, power cord, or plug in water or other liquids.
- Keep out of reach of children and pets.
- Unplug the device before cleaning, refilling water, or when not in use for extended periods.
- Do not block the air inlets or outlets.
- Use only the provided USB cable and a compatible power source (5V, 2A).
- Do not attempt to repair or modify the device yourself. Contact customer support for assistance.
- Avoid placing the unit near heat sources or in direct sunlight.

Setup Instructions

Follow these steps for initial setup:

1. **Prepare the Filter:** Remove the filter drawer from the unit. For enhanced cooling, soak the filter in cold water or freeze it before reinserting.

Image: The filter drawer being removed from the air cooler.

2. **Add Water and Ice:** Open the water reservoir door or pour water directly into the top opening. For best cooling results, add cold water and ice cubes to the 500ml water tank.

Operating Instructions

The JIMACRO NexFan Portable Air Cooler features intuitive controls for fan speed, humidification, and lighting. The control buttons are located on the top of the unit.

Image: Close-up of the control panel, showing the LED Light Switch and Speed Control Switch.

Right Button: Fan Speed and Power

- **Power On/Off:** Long press the right button to turn the fan on or off.
- **Adjust Fan Speed:** Short press the right button to cycle through three fan speeds: Low, Medium, and High.

Left Button: Atomization and Night Light

- **Control Atomization (Humidification):** Double-click the left button rapidly. A white light indicates atomization is off, and a blue light indicates atomization is active.
- **Change Night Light Mode:** Short press the left button to cycle through seven different night light colors and a seven-color cycle mode.
- **Turn Off Night Light:** Long press the left button to turn off the night light function.

Adjusting Air Direction

The air outlet louvers can be manually adjusted up to 90 degrees to direct the airflow as desired.

Maintenance

Regular maintenance ensures optimal performance and longevity of your air cooler.

Filter Cleaning and Replacement

- The improved cotton filter is designed to be stain-resistant and reusable.
- To clean, remove the filter drawer (as shown in Setup instructions). Rinse the filter under running water.
- Allow the filter to air dry completely before reinserting it into the unit.
- For best air quality, consider replacing the filter periodically, especially if you notice reduced performance or odors.

Water Tank Cleaning

- Empty the water tank regularly, especially if the unit will not be used for a few days.
- Clean the water tank with a soft cloth and mild detergent if necessary. Rinse thoroughly to remove any residue.

General Cleaning

- Wipe the exterior of the unit with a soft, damp cloth.
- Do not use abrasive cleaners or solvents.

Troubleshooting

If you encounter issues with your JIMACRO NexFan Portable Air Cooler, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Unit does not power on.	No power supply or loose connection.	Ensure the USB cable is securely connected to both the unit and a working power source (5V, 2A). Try a different USB port or adapter.
No cool air or insufficient cooling.	Water tank empty; filter dry; ambient temperature too high; air inlets/outlets blocked.	Refill the water tank with cold water and ice. Ensure the filter is wet. Clear any obstructions from air inlets/outlets. Note that this is a personal cooler, not a room air conditioner.
Atomization (mist) not working.	Water tank empty; atomization function not activated.	Ensure the water tank has sufficient water. Double-click the left button to activate atomization (blue light).
Unusual noise during operation.	Unit not on a flat surface; foreign object in fan; water level too low.	Place the unit on a stable, flat surface. Check for any obstructions in the fan area (unplug first). Ensure adequate water level.

Specifications

Image: Dimensions and key features of the JIMACRO NexFan Portable Air Cooler.

Feature	Detail
Brand	JIMACRO

Feature	Detail
Model Name	NexFan
Material	Cotton (Filter)
Color	White
Dimensions (L x W x H)	16.1 cm x 14.4 cm x 15.88 cm (6.34 x 5.67 x 6.25 inches)
