ILIFE PX-F010

ILIFE Replacement Filters User Manual

Model: PX-F010 (Compatible with V5s plus/V2/V3s pro)

Product Overview

The ILIFE PX-F010 Replacement Filters are high-performance filters designed to maintain the optimal cleaning efficiency of your ILIFE robotic vacuum cleaner. This package includes 10 filters, essential for capturing dirt, debris, and pet hair, ensuring a clean environment. These filters are compatible with ILIFE V5s plus, V2, and V3s pro models. Regular replacement of filters is crucial for the longevity and performance of your vacuum.

This image displays the front of the ILIFE Replacement Filters PX-F010 packaging, showing the product name, quantity (10 pcs), and the ILIFE brand logo.

Installation

To ensure proper function and maintain cleaning performance, replace the filter regularly. The installation process is

straightforward and does not require any tools.

1. **Step 1: Access the Dustbin.** Open the top cover of your ILIFE robotic vacuum cleaner and remove the dustbin.
2. **Step 2: Remove the Old Filter.** Locate the filter compartment within the dustbin. Carefully remove the used filter.
3. **Step 3: Insert the New Filter.** Place a new ILIFE high-performance filter into the filter compartment. Ensure it snaps securely into place.
4. **Step 4: Reinstall the Dustbin.** Return the dustbin to its position in the vacuum cleaner and close the top cover.

Maintenance

To prolong the life of your filters and maintain optimal cleaning performance, it is recommended to clean them regularly.

- **Cleaning Frequency:** Filters should be cleaned after every few uses, depending on the amount of debris collected and the presence of pets.
- **Cleaning Method:** Gently tap the filter against a trash can to dislodge accumulated dirt and debris. A small brush

(often included with your vacuum or filter kit) can be used to brush away fine dust.

- **Washing:** These filters are reusable. If necessary, they can be rinsed with water. Ensure the filter is completely dry before reinserting it into the vacuum cleaner to prevent damage to the motor.

This image shows the ten individual high-performance replacement filters, demonstrating their design and quantity.

Troubleshooting

If you experience issues after replacing your filters, consider the following:

- **Reduced Suction Power:** Ensure the new filter is correctly seated and the dustbin is properly installed. A clogged filter, even a new one if the environment is very dusty, can reduce suction. Clean or replace if necessary.
- **Filter Not Fitting:** Verify that you have the correct filter model (PX-F010) for your specific ILIFE vacuum model (V5s plus/V2/V3s pro). Do not force the filter into place.
- **Unusual Noises:** Check if the filter is installed correctly and not obstructing any moving parts within the dustbin or vacuum.

Specifications

Attribute	Detail
Brand	ILIFE
Model Number	PX-F010
Compatible Devices	ILIFE V5s plus, ILIFE V2, ILIFE V3s pro
Part Number	HEPA Filters
Number of Pieces	10
Reusability	Reusable
Product Dimensions	6.97 x 3.35 x 1.81 inches
Item Weight	0.634 ounces
