Anker PowerConf Speakerphone User Manual

Model: A3301011

Brand: Anker

PRODUCT OVERVIEW

The Anker PowerConf Speakerphone is designed to provide high-quality audio for conference calls and meetings, whether in a personal workspace or a small conference room. It features advanced audio technologies to ensure clear communication for all participants.

- **360° Coverage:** Equipped with 6 microphones that pick up voices from all directions.
- **Smart Voice Enhancement:** Utilizes a custom DSP algorithm to optimize voice and reduce background noise.
- **Optimized Clarity and Volume:** Automatically balances voice levels for consistent audio quality.
- **Versatile Connectivity:** Connects via Bluetooth or USB-C.
- **Extended Call Time:** Built-in 6,700mAh battery provides up to 24 hours of call time.

SETUP GUIDE

Follow these steps to set up your Anker PowerConf Speakerphone for optimal use.

Package Contents

- Anker PowerConf Speakerphone
- USB-C Cable
- Travel Case

Charging the Speakerphone

Before first use, fully charge the speakerphone using the provided USB-C cable. The battery indicator lights will show charging progress.

Connecting to Devices

AUTOMATIC VOICE ENHANCEMENT

The Anker PowerConf Speakerphone offers instant setup via USB-C for computers and Bluetooth for mobile devices.

The central control panel includes buttons for call management, volume, and mute.

Bluetooth Connection

1. Press and hold the Bluetooth button on the PowerConf for 2 seconds until the blue indicator light flashes.
2. On your device (smartphone, tablet), enable Bluetooth and select “Anker PowerConf” from the list of available devices.
3. Once connected, the blue indicator light will turn solid.

USB-C Connection

1. Connect the PowerConf to your computer using the provided USB-C cable.
2. The device will be recognized automatically, and no drivers are typically required.

OPERATING INSTRUCTIONS

Understand the functions of your Anker PowerConf Speakerphone for effective communication.

Control Buttons

Button	Function
Power Button	Press to turn on/off.
Bluetooth Button	Press to enter Bluetooth pairing mode.
Volume + / -	Adjust speaker volume.
Mute Microphone	Toggle microphone mute on/off.
Call Button	Answer/End calls.
Play/Pause Button	Play or pause audio playback.

Voice Enhancement Features

The speakerphone actively reduces background noise to ensure clear voice pickup.

INSTANT SETUP

Connect to your PC
without installing drivers

Connect to your phone
via Bluetooth 5.0

Automatic voice enhancement ensures that all voices are clear and balanced, regardless of distance.

The PowerConf speakerphone is equipped with 6 microphones arranged in a 360° array, allowing it to pick up voices from all directions. Its smart voice enhancement technology uses a custom Digital Signal Processing (DSP) algorithm to optimize your voice in real-time and effectively reduce ambient background noises, ensuring your voice is heard clearly.

Battery Life and Charging Other Devices

24-HOUR CALL TIME

A 6,700mAh battery powers meetings in wireless mode.

Enjoy up to 24 hours of continuous call time with the powerful built-in battery.

GRAB AND GO

Lightweight and compact size is perfect for taking on business trips.

The compact and lightweight design makes it easy to transport for meetings on the go.

The PowerConf features a built-in 6,700mAh battery, providing up to 24 hours of continuous call time. It also includes Anker PowerIQ technology, allowing you to charge other devices, such as your smartphone, directly through the PowerConf at optimized speeds.

MAINTENANCE

To ensure the longevity and optimal performance of your Anker PowerConf Speakerphone, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the speakerphone. Avoid using abrasive cleaners, solvents, or strong chemicals, as these may damage the finish or internal components.
- **Storage:** When not in use, store the speakerphone in a cool, dry place, away from direct sunlight and extreme temperatures. Use the provided travel case for protection during transport or storage.
- **Avoid Liquids:** Do not expose the speakerphone to water or other liquids. It is not waterproof.
- **Handle with Care:** Avoid dropping or subjecting the device to strong impacts, which could damage internal components.

TROUBLESHOOTING

If you encounter issues with your Anker PowerConf Speakerphone, refer to the following common problems and solutions:

No Power / Device Not Turning On

- Ensure the speakerphone is fully charged. Connect it to a power source using the USB-C cable and allow it to charge for a period.
- Press and hold the power button for a few seconds to ensure it's not just a brief press.

Cannot Connect via Bluetooth

- Make sure the PowerConf is in Bluetooth pairing mode (blue indicator light flashing).
- Ensure Bluetooth is enabled on your device and it is within range (up to 20 meters).
- Forget the device from your device's Bluetooth settings and try pairing again.
- Restart both the PowerConf and your connecting device.

Poor Audio Quality / Participants Cannot Hear Me Clearly

- Ensure the speakerphone is placed centrally in the meeting area and not obstructed.
- Check that the microphone is not muted (mute button indicator should not be red).
- Adjust the volume on both the PowerConf and your connected device/conferencing software.
- Ensure there are no excessive background noises that might overwhelm the noise reduction feature.
- If connected via USB-C, try a different USB port or cable.
- For PC connections, ensure the PowerConf is selected as the default input/output device in your operating system's sound settings and your conferencing application.

Audio Lag / Synchronization Issues

- Ensure a stable connection. If using Bluetooth, try moving closer to the device or connecting via USB-C.
- Close other applications that might be consuming significant system resources on your computer.
- Update your computer's audio drivers.

If problems persist, consult the official Anker support resources or the full user manual PDF.
