6. MAINTENANCE

6.1 Cleaning the Device

- Regularly wipe the device with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials that could damage the finish.
- Rinse the device with fresh water after exposure to chlorine, salt water, sunscreen, cosmetics, alcohol, or other harsh chemicals.

6.2 Band Care

The watch comes with a silicone band. Clean the band regularly with water and mild soap. Allow it to air dry completely before wearing. Avoid prolonged exposure to direct sunlight or extreme temperatures.

6.3 Water Resistance

The device is designed to withstand pressures equivalent to a depth of 50 meters. It is suitable for swimming and showering. Avoid pressing buttons underwater.

6.4 Battery Care

To maximize battery life, avoid exposing the device to extreme temperatures. Charge the device regularly and avoid letting the battery completely drain for extended periods.

7. TROUBLESHOOTING

7.1 Device Not Turning On

- Ensure the device is fully charged. Connect it to the charging cable and a power source for at least 30 minutes.
- Perform a soft reset by holding down the power button for 15 seconds.

7.2 Connectivity Issues (Bluetooth)

- Ensure Bluetooth is enabled on both your smartwatch and smartphone.
- Move your smartphone closer to the smartwatch.
- Restart both your smartwatch and smartphone.
- If issues persist, unpair the device from your smartphone's Bluetooth settings and re-pair it through the Garmin Connect app.

7.3 Inaccurate Activity Data

- Ensure the watch is worn snugly on your wrist, above the wrist bone.
- Calibrate GPS by performing an outdoor activity with a clear view of the sky.
- Ensure your personal profile settings (height, weight) in the Garmin Connect app are accurate.
