4. SETUP AND CONNECTION

4.1 Initial Charging

Before first use, fully charge your VOYEE Wireless Controller. Connect the provided USB charging cable to the controller's charging port and the other end to a PlayStation 3 console or a compatible USB power adapter. The controller's indicator lights will show charging status. A full charge typically takes approximately 2 hours.

4.2 Wireless Connection (Pairing)

To connect your controller to the PlayStation 3 console:

1. Ensure your PlayStation 3 console is powered on.
2. Connect the VOYEE Wireless Controller to the PS3 console using the provided USB charging cable.
3. Press the **P3 button** (located in the center of the controller). The controller will automatically pair with the console.
4. Once paired, you can disconnect the USB cable for wireless play. For subsequent uses, simply press the **P3 button** to connect wirelessly.

The wireless range is approximately 33 feet (10 meters).

5. OPERATING INSTRUCTIONS

5.1 Basic Controls

The VOYEE Wireless Controller features a standard PlayStation 3 button layout:

- **Directional Pad (D-pad):** For precise directional input.
- **Action Buttons (X, O, Triangle, Square):** For in-game actions.
- **Analog Sticks:** Two analog sticks for 360-degree movement and camera control.
- **Shoulder Buttons (L1, R1, L2, R2):** For various in-game functions.
- **SELECT and START Buttons:** For menu navigation and pausing games.
- **P3 Button:** Powers on the controller, accesses the PS3 XMB menu, and initiates pairing.

5.2 Motion Control

The controller includes motion-sensing technology. In compatible games, tilt, shake, or rotate the controller to interact with the game environment.

5.3 Vibration Feedback (Double Shock)

The built-in dual motors provide vibration feedback during gameplay, enhancing immersion by reacting to in-game events such as collisions, explosions, or specific actions.

6. CHARGING AND BATTERY

The VOYEE Wireless Controller is equipped with a rechargeable battery. To charge, connect the controller to your PS3 console or a USB power source using the provided cable. The controller will automatically enter sleep mode after 5 minutes of inactivity to conserve battery life. Press the P3 button to wake it up.

- **Working Time:** 5-10 hours
- **Charging Time:** Approximately 2 hours
- **Standby Time:** Up to 7 days
