# Peak Design Everyday Sling 10L Instruction Manual

Model: BEDS-10-AS-2

[Introduction](#) [Setup](#) [Operation](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

## 1. INTRODUCTION

The Peak Design Everyday Sling 10L is a versatile and durable bag designed for carrying camera gear, tech, or daily essentials. Its thoughtful design allows for comfortable wear in multiple configurations, ensuring your items are secure and easily accessible. This manual provides detailed instructions for setting up, operating, maintaining, and troubleshooting your Everyday Sling.

## 2. SETUP

---

### 2.1 Adjusting the Shoulder Strap

The Everyday Sling features a padded, adjustable shoulder strap for comfortable wear. The strap can be quickly adjusted for crossbody or waist carry using the Cord Hook system.

1. **To Lengthen:** Pull the strap away from the buckle to extend its length.
2. **To Shorten:** Pull the loose end of the strap through the buckle to tighten.
3. **To Swap/Remove:** The strap can be detached from the bag's anchor points for alternative carry methods or storage.

Detail of the strap adjustment buckle, allowing for quick and secure length changes.

A user demonstrating the ease of adjusting the sling's shoulder strap while worn.

## 2.2 Configuring FlexFold Dividers

The bag includes two FlexFold dividers that allow for customizable internal organization. These dividers can be folded and positioned to create compartments tailored to your gear.

- **Installation:** Insert the rigid edges of the dividers into the internal slots of the bag.
- **Customization:** Fold the dividers to create shelves or partitions, adapting the space for cameras, lenses, or other items.
- **Removal:** Gently pull the dividers out of their slots to reconfigure or remove them entirely.

## 3. OPERATION

### 3.1 Carrying Configurations

The Everyday Sling 10L can be worn in several ways to suit your activity and comfort:

- **Crossbody:** Worn across the chest or back, ideal for active use and quick access.
- **Waist Carry (Fanny Pack):** Worn around the waist, suitable for lighter loads or when a lower profile is desired.
- **Shoulder Carry:** Worn over one shoulder, providing a classic bag feel.

The Everyday Sling 10L comfortably worn in a crossbody configuration.

### 3.2 Utilizing Storage Compartments

The sling offers various compartments for organized storage:

- **Main Compartment:** Accessed via the main zipper, this area is customizable with FlexFold dividers for larger items like cameras and lenses.
- **Tablet Sleeve:** A dedicated padded sleeve within the main compartment accommodates tablets up to 11 inches.
- **Stretchy Pockets:** Internal stretchy pockets are ideal for small accessories, cables, and batteries.
- **External Carry Straps:** Integrated external straps allow for securing additional gear outside the bag, such as a tripod or jacket.

Demonstration of the tablet sleeve accommodating a device within the main compartment.

### 4. MAINTENANCE

Proper care will extend the life of your Peak Design Everyday Sling 10L.

- **Cleaning:** For general cleaning, wipe the exterior with a damp cloth and mild soap. Avoid harsh detergents or abrasive cleaners.
- **Spot Cleaning:** For stubborn spots, use a soft brush with a small amount of mild soap and water, then rinse thoroughly with a damp cloth.
- **Drying:** Air dry the bag completely in a well-ventilated area, away from direct sunlight or heat. Do not machine wash or tumble dry.
- **Zipper Care:** Keep UltraZips free of dirt and debris. If zippers become stiff, a silicone-based lubricant can be applied sparingly.
- **Storage:** Store the bag in a cool, dry place when not in use.

The bag features a weatherproof 100% recycled 400D nylon canvas shell. While highly water-resistant, it is not fully submersible.

## 5. TROUBLESHOOTING

Issue	Possible Cause	Solution
Strap feels uncomfortable or slips	Incorrect adjustment; heavy load	Adjust the strap length using the Cord Hook system for a snug fit. Distribute weight evenly.
Difficulty closing main zipper	Overpacked bag; debris in zipper teeth	Reduce contents if overpacked. Inspect zipper for debris and clean if necessary. Apply a zipper lubricant.
Internal organization is messy	Dividers not optimally configured	Reconfigure FlexFold dividers to better suit your gear. Utilize stretchy pockets for smaller items.
Bag appears dirty or stained	Accumulated dirt or spills	Follow the cleaning instructions in the Maintenance section.

## 6. SPECIFICATIONS
