Somfy Charger for V2 Wirefree Motors Instruction Manual

Model: #9025166

Brand: Somfy

INTRODUCTION

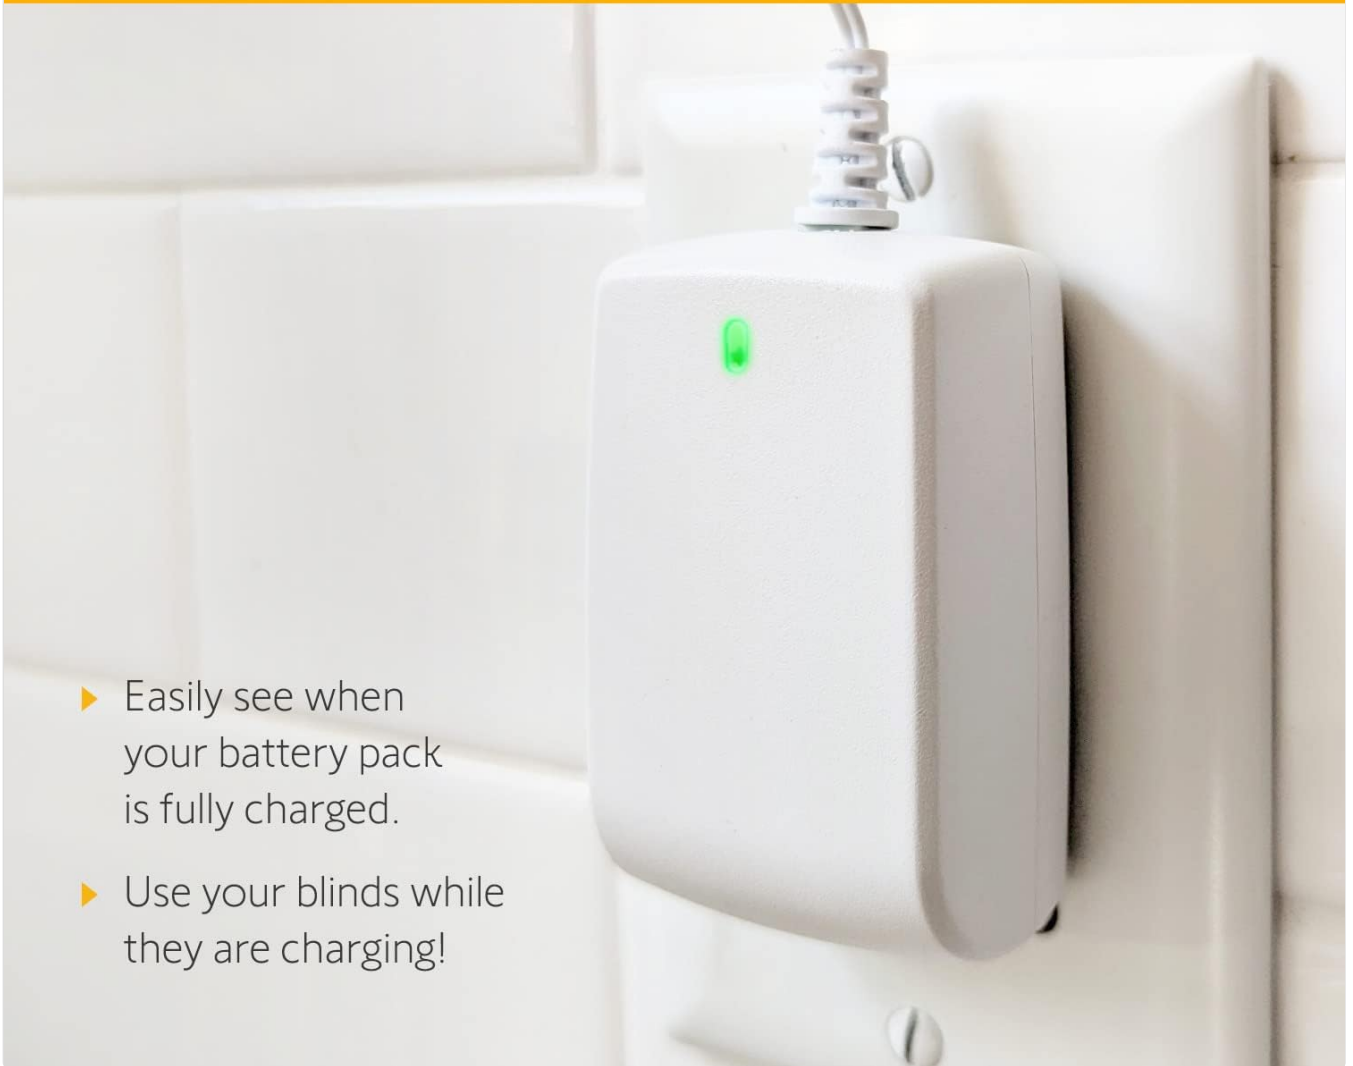

This manual provides detailed instructions for the safe and efficient use of your Somfy Charger for V2 Wirefree Motors. This charger is designed to power external lithium-ion battery packs used with Somfy motorized shades, including Sonesse 30/40 and Altus 28 series. It features a 3-pin connector and an LED indicator for charging status. Please read this manual thoroughly before operating the device.

3. **Plug into Power Outlet:** Plug the charger's power adapter into a standard wall outlet (120V AC).
4. **Observe LED Indicator:** The charger features an LED indicator.
 - A **red** light indicates that the battery pack is currently charging.
 - A **green** light indicates that the battery pack is fully charged.

LED Status Indicator

- ▶ Easily see when your battery pack is fully charged.
- ▶ Use your blinds while they are charging!

OPERATING THE CHARGER

The Somfy charger is designed for convenient and efficient recharging of your motorized shade's battery pack.

- **Charging Frequency:** Due to the power efficiency of lithium-ion batteries, most users will only need to charge their battery pack approximately once a year. This frequency may vary based on usage.
- **Operation During Charging:** Your motorized shades can still be operated normally while the battery pack is connected to the charger.
- **Power Efficiency:** Utilizing rechargeable battery packs and this charger contributes to a more sustainable and cost-effective solution compared to disposable batteries.

MAINTENANCE

Proper care ensures the longevity and safe operation of your Somfy charger.

- **Cleaning:** Wipe the charger with a dry, soft cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- **Genuine Product:** Always use a genuine Somfy charger. Using non-genuine or imitation chargers may damage your battery pack and void any warranties.

Genuine Somfy Charger

Don't risk damaging your Somfy battery pack with an imitation charger.

TROUBLESHOOTING

If you encounter issues with your Somfy charger, refer to the following common problems and solutions:

- **Charger LED is Off:**
 - Ensure the charger is securely plugged into a working wall outlet.
 - Verify the 3-pin connector is fully inserted into the battery pack.
 - Test the wall outlet with another device to confirm it has power.

- **Battery Pack Not Charging (LED remains red or off):**

- Confirm that the battery pack is compatible with this V2 charger (model #9025166). Refer to the compatibility table in the Specifications section.
- Check for any visible damage to the charger cable or connector.
- If the battery pack has not been used for a very long time, it might require a longer initial charge.

- **Shade Not Responding After Charging:**

- Ensure the battery pack is fully charged (green LED).
- Verify the battery pack is properly connected to the shade motor.
- Consult your shade's specific instruction manual for motor reset procedures if necessary.

If problems persist, contact Somfy customer support for further assistance.
