Tribest SB-130W-B

Tribest Soyabella SB-130 Deluxe Automatic Nut and Soy Milk Maker User Manual

Model: SB-130W-B

1. Introduction and Overview

The Tribest Soyabella SB-130 Deluxe is a versatile appliance designed to create fresh plant-based milks and grind dry ingredients. This machine allows you to prepare delicious soy milk, nut milk, rice milk, and other bean-based beverages quickly and easily. It also functions as a grinder for coffee beans, flax seeds, and spices, and can be used to make soups and porridges.

The Soyabella features a hidden stainless steel heating element for enhanced safety and easier cleaning. Its advanced safety features prevent overflows, dry heating, and overheating, ensuring reliable operation.

2. Important Safety Precautions

Please read all safety instructions carefully before operating the appliance. Failure to follow these instructions may result in injury or damage to the product.

- **Electrical Compatibility:** Ensure the appliance's voltage (120 Volts) is compatible with your local power supply before plugging it in. Using an incompatible voltage may damage the unit and void the warranty.
- **Water Levels:** Do not overfill the carafe. Always adhere to the maximum fill line to prevent overflow during operation.
- **Dry Heating Protection:** The Soyabella is equipped with sensors to prevent dry heating. Do not operate the machine without sufficient liquid.
- **Overheating Protection:** The appliance has an automatic shut-off feature to prevent overheating. If the unit stops unexpectedly, allow it to cool down before attempting to restart.
- **BPA-Free Materials:** The stainless steel carafe, screens, and grinding blade, along with the BPA-free motor head,

ensure that your beverages do not come into contact with harmful chemicals.

- **Hidden Heating Element:** The heating element is safely enclosed within the stainless steel boiling chamber, reducing the risk of burns and making cleaning easier.
- **Children and Pets:** Keep the appliance out of reach of children and pets. Do not allow them to operate or play with the machine.
- **Cleaning:** Always unplug the appliance before cleaning. Do not immerse the motor head in water.

3. Product Components

The Tribest Soyabella SB-130 Deluxe comes with several components designed for various functions. Familiarize yourself with each part before use.

Image 3.1: All included components of the Soyabella SB-130 Deluxe.

- **Motor Head with Grinding Blade:** Contains the motor and the patented helical grinding blade for processing ingredients.
- **Stainless Steel Carafe:** The main container for heating and blending liquids.
- **Fine Screen:** Used for making smoother milks, such as soy milk.
- **Coarse Screen:** Used for milks requiring less filtration or for making thicker preparations.
- **Grinding Cup:** An accessory for dry grinding coffee beans, spices, and other ingredients.
- **Measuring Cup:** For accurately measuring ingredients.
- **Cleaning Pad:** Helps in scrubbing the screens and carafe.
- **Cleaning Brush:** Useful for reaching small areas and cleaning the screens.
- **Power Cord:** To connect the appliance to an electrical outlet.
- **User Manual:** This instruction guide.

4. Setup

Before first use, wash all removable parts (carafe, screens, grinding cup, measuring cup, blade) with warm, soapy water. Rinse thoroughly and dry. The motor head should only be wiped clean with a damp cloth.

Assembly for Milk Making:

1. Place the desired screen (fine or coarse) into the carafe.
2. Attach the motor head to the top of the screen, ensuring it clicks securely into place.
3. Add your pre-soaked (if required) ingredients into the screen.
4. Fill the carafe with water up to the indicated fill line.
5. Ensure the motor head is properly seated on the carafe.

5. Operating Instructions

The Soyabella offers various program settings to control temperature and grinding time with a single touch.

5.1. Making Plant-Based Milks

The control panel features 'HOT' and 'RAW' settings for different types of beverages.

Image 5.1: The control panel with 'HOT' and 'RAW' options.

1. **For Hot Milks (Soy, Rice, other beans):** After assembly and adding ingredients, press the **HOT** button. The machine will heat and blend, typically taking about 15 minutes.
2. **For Raw Milks (Nuts, Seeds):** After assembly and adding ingredients, press the **RAW** button. This process is quicker, often completing in 30 seconds to 1 minute, as it does not involve heating.
3. The machine will indicate completion, usually with a change in light status or an audible signal.

5.2. Grinding Dry Ingredients

The Soyabella's versatile grinding function allows you to process coffee beans, flax seeds, spices, and other dry ingredients.

Image 5.2: The patented helical grinding blade for efficient processing.

1. Remove the screen and attach the grinding cup to the motor head.
2. Add your dry ingredients to the grinding cup. Do not overfill.
3. Place the motor head with the grinding cup onto the carafe (ensure the carafe is empty and clean).
4. Select the appropriate grinding setting or pulse as needed until the desired consistency is achieved. The serrated edge of the blade ensures a smooth and light texture.

6. Cleaning and Maintenance

Regular cleaning ensures the longevity and hygienic operation of your Soyabella. The design, featuring a hidden heating element and stainless steel components, simplifies the cleaning process.

Facile da pulire

L'elemento riscaldante di Soyabella è racchiuso all'interno della sua caraffa in acciaio inossidabile per una maggiore sicurezza e una pulizia più facile. Le funzioni di sicurezza integrate prevengono i disordini che possono essere causati da traboccamenti, riscaldamento a secco o surriscaldamento.

Image 6.1: Food-grade stainless steel components for easy cleaning.

1. **Unplug First:** Always unplug the appliance from the power outlet before cleaning.
2. **Carafe and Screens:** Wash the stainless steel carafe and screens with warm, soapy water immediately after use to prevent residue from drying. Use the included cleaning pad and brush to remove any stubborn particles from the screens.
3. **Motor Head:** Wipe the motor head with a damp cloth.**Do not immerse the motor head in water or rinse it under running water.**
4. **Grinding Blade:** Carefully clean the grinding blade with the brush. Be cautious of sharp edges.
5. **Drying:** Ensure all components are thoroughly dry before reassembling or storing the appliance.

7. Troubleshooting

If you encounter issues with your Tribest Soyabella, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outlet issue; safety feature activated.	Ensure the power cord is securely plugged into a working outlet. Check if the motor head is properly seated. If a safety feature (e.g., overheating) was activated, allow the unit to cool down.
Lights on control panel do not change or indicate completion.	Sensor malfunction; incorrect program selection; unit not properly assembled.	Ensure all components are correctly assembled. Verify the selected program matches your desired function. If the issue persists, contact customer support.
Milk consistency is too thin or thick.	Incorrect ingredient-to-water ratio; wrong screen used.	Adjust the amount of ingredients or water. Experiment with the fine or coarse screen to achieve desired consistency. Ensure ingredients are properly pre-soaked if required.
Overflow during operation.	Carafe overfilled.	Always fill water only up to the maximum fill line indicated on the carafe.

8. Specifications

Technical details for the Tribest Soyabella SB-130 Deluxe:

Image 8.1: Approximate dimensions of the Soyabella SB-130 Deluxe.

- **Model Number:** SB-130W-B
- **Brand:** Tribest
- **Color:** White/Stainless Steel
- **Material:** Stainless Steel
- **Item Weight:** 1 Pound (approx. 0.45 kg)
- **Capacity:** 1.3 Liters
- **Wattage:** 200 Watts
- **Voltage:** 120 Volts
- **Power Source:** Corded Electric
- **UPC:** 009375801199
- **Recommended Use:** Home Use
- **Specific Uses:** Milk Making, Grinding
