Aokeo AO-505+stand+filter

Aokeo Professional Studio Recording Microphone Isolation Shield User Manual

Model: AO-505+stand+filter

1. PRODUCT OVERVIEW

The Aokeo Professional Studio Recording Microphone Isolation Shield is designed to enhance recording quality by minimizing unwanted sound reflections and external noise. It features a multi-layer design with absorbent foam to filter vocal and instrument sounds, ensuring clarity during recording sessions. This kit includes the isolation shield, an adjustable stand, and necessary adapters for various microphones.

2. PACKAGE CONTENTS

Please verify that all components are present in your package:

- Microphone Isolation Shield x 1
- Metal Thread Adapter x 2 (compatible with most microphones)
- Adjustable Stand x 1
- Warranty Card and Instruction Manual

Note: Microphone is NOT included.

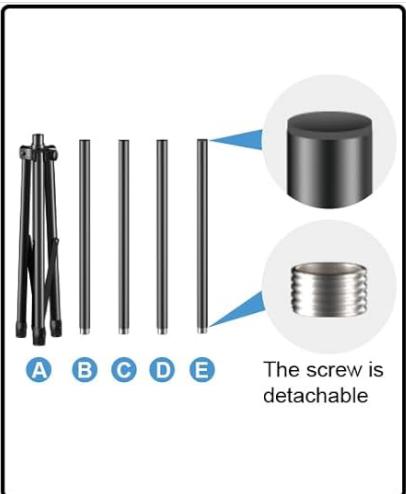

Image: All components included in the Aokeo Microphone Isolation Shield package, including the shield, stand, adapters, and pop filter.

3. SETUP INSTRUCTIONS

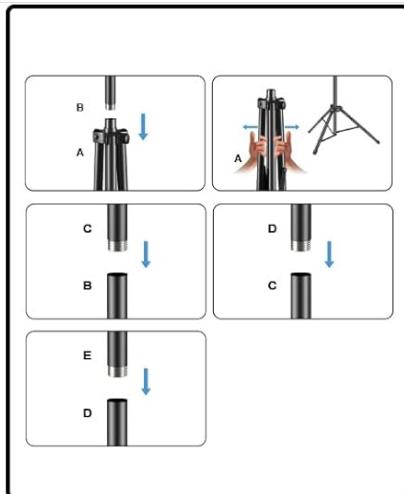

Follow these steps to assemble your Aokeo Microphone Isolation Shield:

- 1. Unpack Components:** Carefully remove all stand accessories from the packaging.
- 2. Assemble the Stand:** Follow the diagram to connect the stand poles and base securely. Ensure all connections are tightened for stability.
- 3. Attach Isolation Shield:** Screw the Microphone Isolation Shield directly onto the top of the assembled stand. Use the isolation shield's backclip to fix it firmly to the floor stand.
- 4. Install Accessories:** Take out the isolation shield accessories and install them according to the provided figure. This includes any additional brackets or trays.
- 5. Mount Microphone and Pop Filter:** Bring your own microphone and mount it onto the adapter. Then, install the pop filter and storage tray (if included) onto the stand. The pop filter should be positioned in front of the microphone.

6. **Adjust Height:** Adjust the height of the tripod microphone stand to your desired level. The isolation shield stand can be adjusted between 52.5 inches and 70.5 inches.

1. Take out stand accessories.

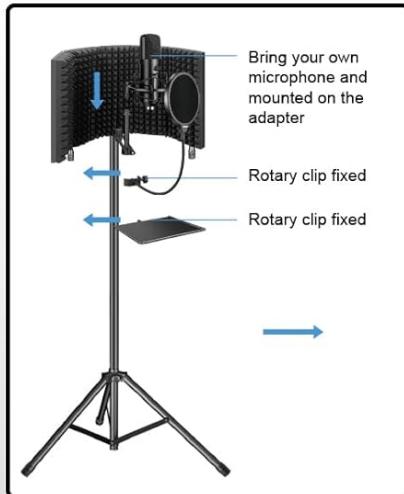

2. Follow the steps below to install the floor stand.

3. Ready the stand and isolation shield, use the isolation shield's backclip to fixed on floor stand.

4. Take out the isolation shield accessories and install the isolation shield according to the following figure.

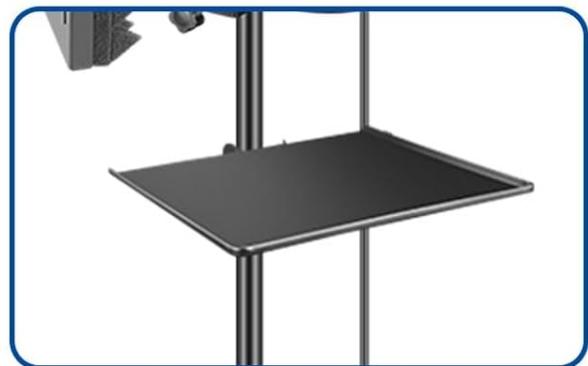

5. Finally, install the pop filter and storage tray (the microphone is not included in the product).

6. Finish!

4. OPERATING INSTRUCTIONS

The Aokeo Microphone Isolation Shield is designed to optimize your recording environment by reducing unwanted sound reflections and external noise.

4.1 Noise Suppression and Sound Clarity

The interior of the microphone cover is constructed with absorbent cotton material, which effectively filters vocal and instrument sounds. This design helps to eliminate interference from audio waves and the external environment, ensuring a clear and crisp recording.

PORTABLE AND FOLDABLE

Flexibility and convenience: allow angle adjustment,
Folding makes it comfortable for you to wear

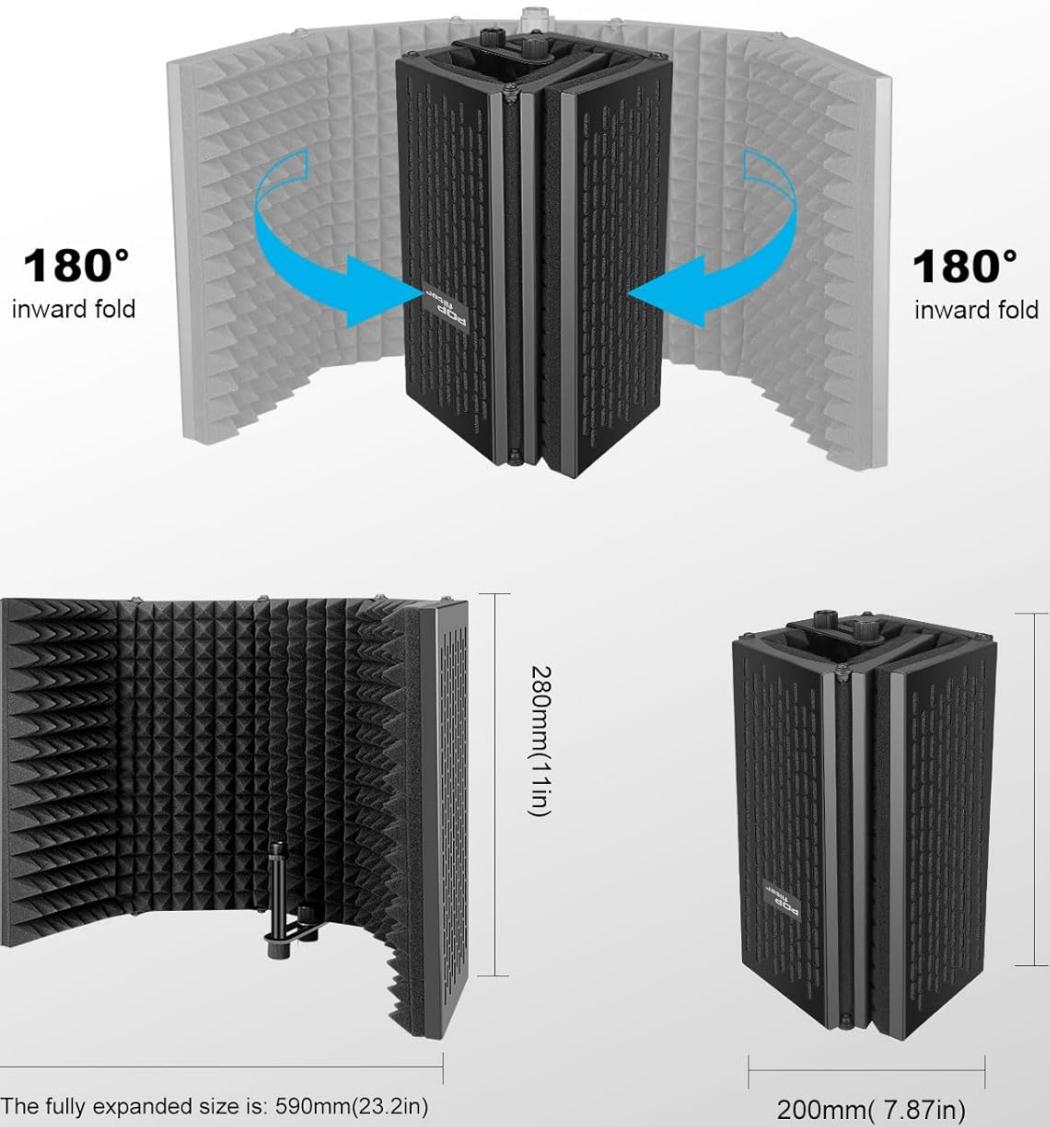

Image: Illustration of the multi-layer filtration system, showing absorber, filter, and reflective layers working together to reduce external noise reflection.

4.2 Optimal Placement for Recording

Position the isolation shield around your microphone to create a focused acoustic space. This is particularly effective for capturing clear vocals and instruments, as demonstrated in the image below.

RECORD CLEAR SOUND

4.4 Multi-Scenario Use

This microphone isolation shield and stand kit is versatile and can be used in various settings, including:

- Studio recording
- Recording rooms
- Broadcasting stations
- Radio stations
- Home studios
- Podcast setups

5. MAINTENANCE

To ensure the longevity and optimal performance of your Aoeko Microphone Isolation Shield, follow these maintenance

guidelines:

- **Cleaning:** Wipe the metal surfaces with a soft, dry cloth. For the sponge material, gently dust or use a soft brush to remove any debris. Avoid using harsh chemicals or abrasive cleaners, as they may damage the materials.
- **Storage:** When not in use, fold the isolation shield for compact storage. Store it in a dry, cool place away from direct sunlight and extreme temperatures to prevent material degradation.
- **Inspection:** Periodically check all screws and connections on the stand and shield to ensure they are tight and secure. Re-tighten if necessary.

6. TROUBLESHOOTING

If you encounter any issues with your Aoeko Microphone Isolation Shield, please refer to the following common solutions:

- **Unstable Stand:**

Solution: Ensure all sections of the adjustable stand are fully extended and locked into place. Verify that the tripod legs are spread wide and stable on a flat surface. Check that the isolation shield is securely screwed onto the stand and its backclip is engaged.

- **Poor Sound Isolation:**

Solution: Confirm that the microphone is positioned correctly within the isolation shield, centered and facing the absorbent foam. Ensure the shield is fully expanded and positioned close enough to the microphone to effectively block reflections. Check for any gaps or misalignments in the shield panels.

- **Difficulty Attaching Microphone:**

Solution: Ensure you are using the correct metal thread adapter for your microphone. The kit includes two adapters to fit most standard microphones. If the microphone still doesn't fit, consult your microphone's manual for thread size.

If the problem persists after attempting these solutions, please contact Aoeko customer support for further assistance.

7. SPECIFICATIONS

Brand	Aoeko
Model	AO-505+stand+filter
Microphone Form Factor	Table Array
Item Dimensions (L x W x H)	31 x 7.5 x 42.2 Centimetres
Product Dimensions	30.99 x 7.49 x 42.16 cm; 3.6 kg
Material	Metal+sponge
Frequency Response	15 KHz
Special Feature	Prevent noise from entering your microphone
Polar Pattern	Unidirectional
Manufacturer	Aoeko
Date First Available	Nov. 17 2019

8. WARRANTY AND SUPPORT

8.1 Warranty Information

Aokeo provides one year's after-sales service free of charge for this product. This warranty covers manufacturing defects and ensures the quality of your purchase. Please retain your proof of purchase for warranty claims.

8.2 Customer Support

For any questions, technical assistance, or warranty inquiries, please contact Aokeo customer support. We are committed to providing quality products and services.
