## 5. MAINTENANCE

---

Proper maintenance can extend the lifespan of your Ajazz AK325 keyboard and ensure optimal performance.

### Cleaning Instructions:

- **Disconnect First:** Always unplug the keyboard from your computer before cleaning.
- **Dust Removal:** Use a can of compressed air to blow away dust and debris from between the keycaps. Hold the can upright to prevent propellant discharge.
- **Surface Cleaning:** Gently wipe the surface of the keycaps and the keyboard body with a soft, lint-free cloth slightly dampened with water or a mild, non-abrasive cleaning solution. Avoid excessive moisture.
- **Avoid Harsh Chemicals:** Do not use strong solvents, alcohol, or abrasive cleaners, as these can damage the keycaps or the keyboard finish.
- **Drying:** Ensure the keyboard is completely dry before plugging it back into your computer.

## Storage:

When not in use for extended periods, store the keyboard in a clean, dry place away from direct sunlight and extreme temperatures.

## 6. TROUBLESHOOTING

---

If you encounter issues with your Ajazz AK325 keyboard, refer to the following common troubleshooting steps:

### Common Issues and Solutions:

- **Keyboard Not Responding:**
  - Ensure the USB cable is securely plugged into a working USB port on your computer.
  - Try plugging the keyboard into a different USB port.
  - Restart your computer.
  - Test the keyboard on another computer to determine if the issue is with the keyboard or the computer.
- **Backlight Not Working or Dim:**
  - Press **Fn + ↑** to increase backlight intensity.
  - Press **Fn + TAB** to cycle through different backlight modes, as some modes might appear dim or off.
  - Ensure the keyboard is receiving sufficient power from the USB port. Try a different port or a powered USB hub if available.
- **Keys Not Registering or Sticking:**
  - Clean the keyboard as described in the Maintenance section to remove any debris under the keycaps.
  - If specific keys are consistently failing, the keyboard may require service.
