AILKIN PT-WC-24

AILKIN 4-Port USB Wall Charger

MODEL: PT-WC-24

Introduction

Thank you for choosing the AILKIN 4-Port USB Wall Charger. This device is designed to efficiently charge up to four mobile devices simultaneously, providing a convenient and reliable power source for your electronic gadgets. This manual provides essential information for the safe and effective use of your charger.

Safety Information

- Ensure the wall outlet voltage is within the specified range (100-240V).
- Do not expose the charger to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the charger to strong impacts.
- Do not attempt to disassemble, repair, or modify the charger. Contact qualified personnel for service.
- Unplug the charger from the wall outlet when not in use or during electrical storms.
- Keep out of reach of children.
- Use only with compatible USB charging cables.

Package Contents

- 1 x AILKIN 4-Port USB Wall Charger (Model PT-WC-24)

Product Features

Image: Front view of the AILKIN 4-Port USB Wall Charger, showcasing its compact design and four USB ports.

- **4-Port USB Output:** Equipped with four USB ports, allowing simultaneous charging of multiple devices.
- **High-Speed Charging:** Delivers a total current of 5V/4.8A for efficient charging.
- **Universal Voltage Input:** Supports 100-240V input, suitable for international travel (adapter may be required for different plug types).
- **Advanced Safety Protection:** Integrated protection system guards against overcharging, over-current, and overheating, ensuring device safety.
- **Automatic Charging Stop:** The charger automatically ceases charging once a device's battery is full, protecting the device from overcharge.
- **Compact and Portable Design:** Lightweight and small form factor, ideal for home, office, or travel use.
- **Wide Compatibility:** Compatible with a broad range of USB-powered devices, including smartphones, tablets, headphones, cameras, and more.

EASY TO STORE

Compact, lightweight, portable, stylish and perfect for travel

SMART CHARGING

Recognize your devices up to maximum speed

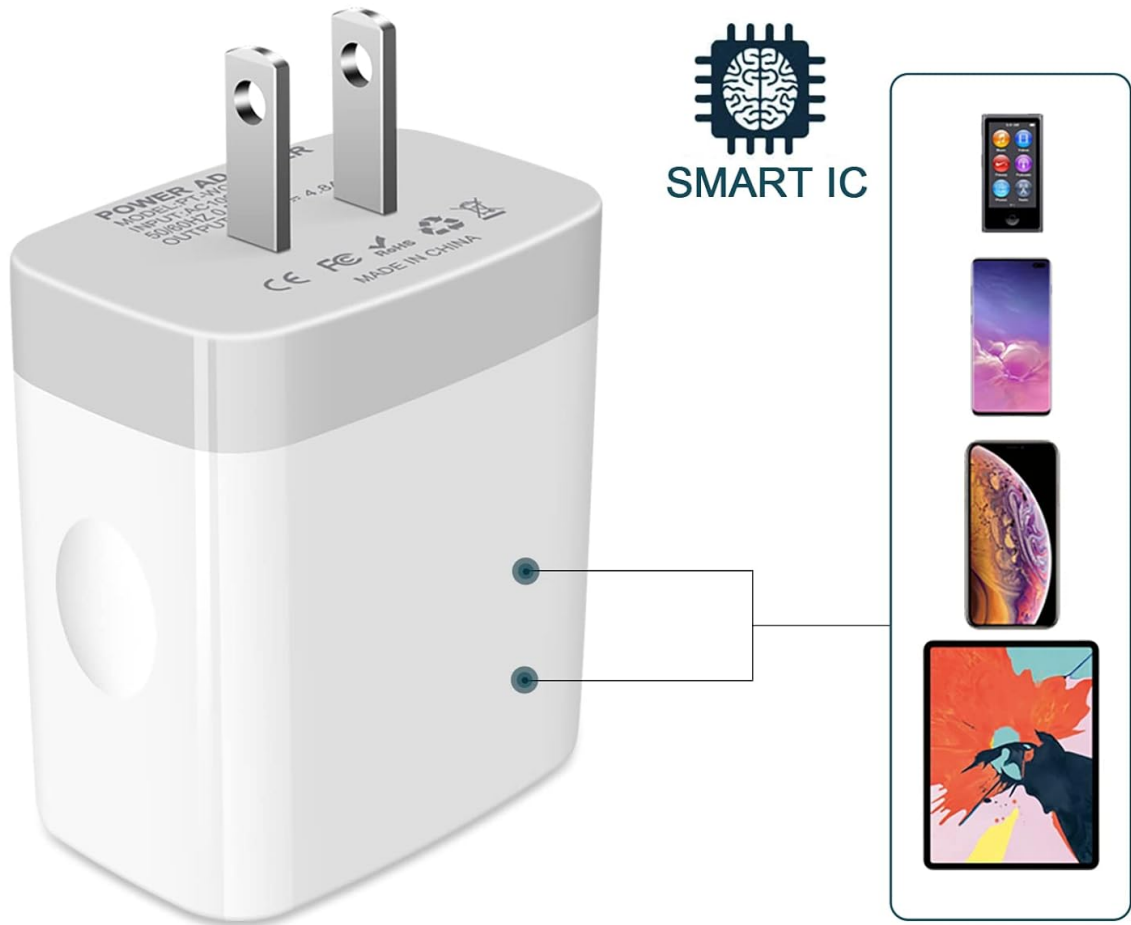

Image: Illustration of the smart IC technology within the AILKIN charger, indicating its ability to recognize devices for optimal charging speed.

Setup

1. **Unpack:** Carefully remove the AILKIN 4-Port USB Wall Charger from its packaging.
2. **Inspect:** Check the charger for any visible damage. Do not use if damaged.
3. **Plug In:** Insert the charger into a standard wall power outlet (100-240V).

FOUR USB PORT

FOUR USB design could charge 4 devices simultaneously at full speed

Image: The AILKIN 4-Port USB Wall Charger plugged into a wall outlet with multiple devices connected and charging.

Operating Instructions

1. **Connect Devices:** Use appropriate USB charging cables (not included) to connect your devices to any of the four USB ports on the charger.
2. **Begin Charging:** Once connected, your devices will automatically begin charging. The charger's smart IC technology will detect your device's power requirements to deliver optimal charging speed.
3. **Simultaneous Charging:** You can charge up to four devices concurrently. The total output is shared among the connected devices.
4. **Charging Completion:** The charger will automatically stop providing power to a device once it reaches full charge, preventing overcharging.
5. **Disconnect:** Once charging is complete, disconnect your devices and then unplug the charger from the wall outlet.

WIDELY COMPATIBILITY

Support all USB charging cords or USB port devices: iPhone, iPad, Samsung, Other Phones, Tablets, E-book readers, Nintendo Switch, Pod, PSP, Digital Camera, Bluetooth Speakers, MP3/MP4 Players, Power Banks and more

Maintenance

- **Cleaning:** Disconnect the charger from the power outlet before cleaning. Use a soft, dry cloth to wipe the surface. Do not use liquid cleaners or aerosols.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the charger with care to avoid physical damage.

Troubleshooting

Problem	Possible Cause	Solution
Device not charging.	<ul style="list-style-type: none">◦ Charger not properly plugged in.◦ Faulty USB cable.◦ Device issue.◦ Power outlet issue.	<ul style="list-style-type: none">◦ Ensure the charger is securely plugged into a live wall outlet.◦ Try a different USB cable.◦ Test the device with another charger.◦ Test the outlet with another appliance.

Problem	Possible Cause	Solution
Slow charging speed.	<ul style="list-style-type: none"> Using a non-optimal USB cable. Device's charging input limit. Multiple devices drawing power simultaneously. 	<ul style="list-style-type: none"> Use a high-quality USB cable designed for fast charging. Some devices have lower maximum charging rates. Charging fewer devices simultaneously may increase speed for individual devices.
Charger feels warm.	<ul style="list-style-type: none"> Normal operation during charging. Overload or poor ventilation. 	<ul style="list-style-type: none"> Slight warmth is normal. If it becomes excessively hot, disconnect immediately. Ensure adequate ventilation around the charger. Avoid covering it.

Specifications

Model Number	PT-WC-24
Input Voltage	AC 100-240V
Output	5V/4.8A (Total)
Number of USB Ports	4
Product Dimensions	1.97 x 1.97 x 1.97 inches
Item Weight	0.352 ounces
Color	White
Manufacturer	Shenzhen Putuo Technology Co.,Ltd
Special Features	4 USB Ports, AC Power Adapter, Fast Charging, Multi Devices Charging, Travel US Standard

Warranty and Support
