Synvy Q1258420

Synvy Tempered Glass Screen Protector User Manual

Compatible with JAEGER-LECOULTRE Q1258420 Smartwatches

1. INTRODUCTION AND PRODUCT OVERVIEW

The Synvy Tempered Glass Screen Protector is engineered to provide superior protection for your JAEGER-LECOULTRE Q1258420 smartwatch. Crafted from high-quality tempered glass, it offers exceptional durability, clarity, and touch sensitivity, safeguarding your device's screen from scratches, scuffs, and impacts.

Synvy is committed to delivering premium protection solutions. This screen protector is designed with user convenience in mind, ensuring an easy, bubble-free installation process and maintaining the original aesthetic and functionality of your smartwatch.

This image displays the Synvy Tempered Glass Screen Protector applied to a smartwatch, emphasizing its transparent glass construction. The protector is designed to fit specific smartwatch models; please refer to the product title for compatibility.

2. PRODUCT FEATURES

- **High Transparency:** Provides high-definition clear viewing, preserving the original display quality.
- **Optimal Thickness:** At 0.26mm, it maintains original response sensitivity for a seamless touch experience.
- **Superior Protection:** Effectively protects your watch from unwanted scuffs, scratches, and impacts.
- **Bubble-Free Installation:** Features bubble-free adhesive for easy and smooth application.

- **Hydrophobic & Oleophobic Coating:** Repels sweat and oil residue, reducing fingerprints and smudges for a cleaner screen.

※Please only refer to the title to confirm your desired model.

9H Hardness can effectively ease the impact force and protect screen from scratch of sharp objects, scratches, wear, blast.

This image illustrates the application of the Synvy screen protector onto a smartwatch. The protector boasts 9H hardness, providing robust protection against scratches, impacts, and daily wear from sharp objects.

3. PACKAGE CONTENTS

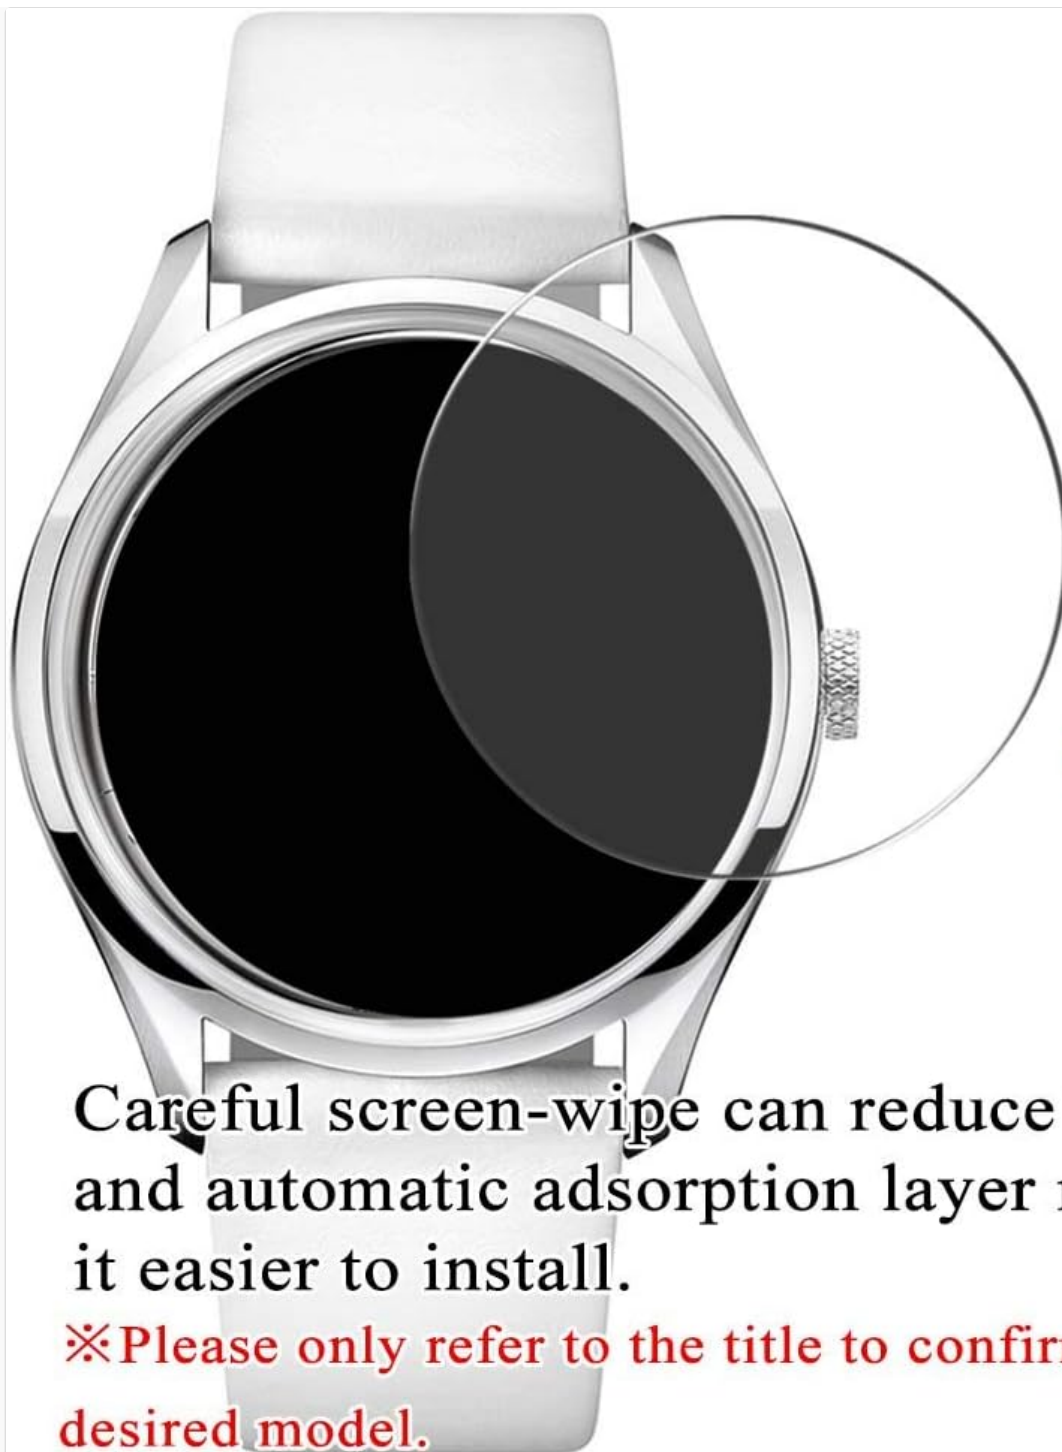

Each Synvy Tempered Glass Screen Protector package includes the following items:

- 3 x Synvy Tempered Glass Screen Protectors
- 1 x Installation Guide
- 1 x Guide Sticker & Dust-absorber
- 1 x Microfiber Cleaning Cloth
- 1 x Alcohol Prep Pad

4. SETUP AND INSTALLATION GUIDE

Follow these steps for a smooth and bubble-free installation of your Synvy screen protector:

1. **Clean the Screen:** Use the included alcohol prep pad to thoroughly clean your smartwatch screen. Ensure all dirt, oil, and smudges are removed.
2. **Dry the Screen:** Use the microfiber cleaning cloth to dry the screen completely. Make sure no lint or dust particles remain.
3. **Remove Dust:** Use the dust-absorber sticker to gently dab the screen and remove any remaining dust particles.
4. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the screen protector. Align the protector precisely with your smartwatch screen, ensuring it matches the edges and cutouts.
5. **Apply the Protector:** Gently lower the screen protector onto the smartwatch screen. The electrostatic adsorption technology will allow it to automatically adhere.
6. **Remove Bubbles:** If any small bubbles appear, gently push them towards the edges of the screen using the microfiber cloth or a soft card. The bubble-free adhesive design minimizes bubble formation.

VacFun

No bubbles

Careful screen-wipe can reduce bubbles and automatic adsorption layer makes it easier to install.

※Please only refer to the title to confirm your desired model.

This image depicts the electrostatic adsorption technology of the Synvy screen protector, which simplifies the installation process. The protector adheres automatically without bubbles, and the package includes a complete installation kit with wet/dry wipes, a user manual, and dust removal guide stickers.

The oleophobic hydrophobic coating maximally reduces smudges and fingerprint.

※Please only refer to the title to confirm your desired model.

This image emphasizes the bubble-free installation of the Synvy screen protector. A careful screen-wiping process combined with the automatic adsorption layer ensures a smooth application without air bubbles, resulting in a clear and pristine display. The screen protector can be re-positioned and removed during installation until you are satisfied with the placement.

5. OPERATING INSTRUCTIONS

Once installed, the Synvy Tempered Glass Screen Protector operates seamlessly with your smartwatch. Its high responsiveness and sensitivity ensure that your device's touch functions perform as intended, providing a natural viewing and smooth playing experience.

Smooth edges provide excellent touch and maximum protection.

※Please only refer to the title to confirm your desired model.

The image highlights the 2.5D smooth edges of the Synvy screen protector once applied to a smartwatch. These refined edges ensure a comfortable touch experience and contribute to maximum protection by seamlessly integrating with the device's design.

6. MAINTENANCE

To maintain the clarity and effectiveness of your Synvy screen protector, follow these simple maintenance tips:

- **Regular Cleaning:** Use the included microfiber cloth to gently wipe the screen protector daily to remove dust and light smudges.
- **Deep Cleaning:** For more stubborn smudges or fingerprints, lightly dampen the microfiber cloth with water or a screen-safe cleaner and wipe the surface. The oleophobic and hydrophobic coating helps repel oils and makes cleaning easier.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or harsh chemicals on the screen protector, as these can damage the coating.

※Please only refer to the title to confirm your desired model.

The electrostatic adsorption technology let your installation is easier than ever! Including an installation kit with wet/dry wipes, user manual, and dust removal guide stickers.

The image shows the oleophobic and hydrophobic coating of the Synvy screen protector. This advanced coating significantly reduces smudges, fingerprints, and oil residue, making the screen easy to clean and maintain its high-definition clarity.

7. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

- **Bubbles After Installation:** Small bubbles can often be pushed out to the edges using a soft cloth or a credit card wrapped in a cloth. For persistent bubbles, lift the nearest corner of the protector slightly and reapply slowly, ensuring no dust is trapped underneath.
- **Dust Underneath:** If dust particles are trapped, carefully lift the protector from the nearest corner using a piece of tape. Use another piece of tape to gently lift the dust particle from the screen or the adhesive side of the protector.

Reapply the protector.

- **Reduced Touch Sensitivity:** Ensure the screen protector is properly aligned and free of air bubbles or debris. The 0.26mm thickness is designed to maintain original sensitivity, so if issues persist, re-installation might be necessary.
- **Protector Not Sticking:** Ensure the screen was thoroughly cleaned and dry before application. Any oil, dust, or moisture can prevent proper adhesion.

8. SPECIFICATIONS

- **Brand:** Synvy
- **Compatible Devices:** Watch (specifically JAEGER-LECOULTRE Q1258420)
- **Material:** Tempered Glass
- **Item Hardness:** 9H
- **Screen Surface Description:** Smooth
- **Thickness:** 0.26mm
- **Manufacturer:** Synvy film works with JAEGER-LECOULTRE Q1258420
- **ASIN:** B0813NV56K
- **Date First Available:** November 6, 2019

9. WARRANTY AND SUPPORT

Your Synvy Tempered Glass Screen Protector comes with a return policy that allows for refund or replacement within 30 days of purchase. For any questions, concerns, or assistance with installation or product performance, please refer to the seller's contact information on the platform where the product was purchased.

Please retain your proof of purchase for any warranty or support claims.
