ZEBRONICS Zeb-Fighter

Zebronics Zeb-Fighter Gaming Keyboard and Mouse Combo User Manual

Model: Zeb-Fighter

INTRODUCTION

Thank you for choosing the Zebronics Zeb-Fighter Gaming Keyboard and Mouse Combo. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your new gaming peripherals. Please read these instructions carefully before use to ensure optimal performance and longevity of your product.

Setup Instructions

1. **Unpacking:** Carefully remove the keyboard and mouse from their packaging. Ensure all components are present: one keyboard and one mouse.

2. **Connection:** Both the keyboard and mouse connect via USB. Locate an available USB port on your computer.

3. **Keyboard Connection:** Plug the keyboard's USB connector into a USB port on your computer.

4. **Mouse Connection:** Plug the mouse's USB connector into another available USB port on your computer.

5. **Driver Installation:** The Zeb-Fighter combo is plug-and-play. Your operating system should automatically detect and install the necessary drivers. No additional software installation is typically required.

6. **Verification:** Once connected, the multi-color LED lights on both the keyboard and mouse should illuminate, indicating they are powered on and ready for use.

OPERATING INSTRUCTIONS

Keyboard Features

- **Multi-Color LED Lights:** The keyboard features integrated multi-color LED lighting. These lights are automatically active upon connection.

- **Integrated Media Control Keys:** Access media functions directly from the keyboard. These keys are typically located in the F-row (F1-F12) and can be activated by pressing the 'Fn' key in combination with the respective F-key. Functions include volume control, play/pause, and track navigation.

- **Rupee Key:** A dedicated key for the Indian Rupee symbol is integrated into the keyboard layout.

- **Window Key Enable/Disable:** The Windows key can be enabled or disabled to prevent accidental presses during gaming sessions. Refer to the keyboard's specific key combination (often Fn + Win key) for this function.

Image: Close-up view of the keyboard, specifically pointing out the Rupee key and the Windows key with its enable/disable function.

Mouse Features

- **Compact & Ergonomic Design:** The mouse is designed for comfortable use over extended periods, reducing strain during gaming or work.

- **High Precision Sensor:** Equipped with a high-precision sensor for accurate tracking and responsiveness.

- **DPI Button:** A dedicated DPI (Dots Per Inch) button allows for on-the-fly adjustment of mouse sensitivity. Press this button to cycle through different DPI settings to match your preference or game requirements. The mouse supports up to 2000 DPI.

- **Braided Cable:** The mouse features a durable braided cable for enhanced longevity and resistance to tangling.

- **Gold-Plated USB:** The USB connector is gold-plated for improved signal integrity and corrosion resistance.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to wipe down the surfaces of the keyboard and mouse. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the devices.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage. The braided cables are designed for durability but can still be damaged by improper handling.
- **Storage:** When not in use, store the combo in a clean, dry environment away from direct sunlight and extreme temperatures.
- **Avoid Liquids:** Do not expose the keyboard or mouse to liquids. Spills can cause permanent damage.

TROUBLESHOOTING

- **Keyboard/Mouse Not Responding:**
  - Ensure the USB connectors are securely plugged into your computer's USB ports.
  - Try plugging the devices into different USB ports.

- Restart your computer.
- Test the devices on another computer to determine if the issue is with the peripherals or your system.

- **LED Lights Not Working:**

    - Verify that the devices are properly connected and receiving power.
    - Check if there's a dedicated LED control key or function on the keyboard (e.g., Fn + Scroll Lock, or similar combination, if available).

- **Mouse Tracking Issues:**

    - Ensure the mouse sensor is clean and free from dust or debris.
    - Use the mouse on a suitable surface, preferably a mouse pad.
    - Adjust the DPI setting using the DPI button on the mouse.

SPECIFICATIONS

Feature	Detail
Model Number	Zeb-Fighter
Brand	ZEBRONICS
Keyboard Interface	USB
Mouse Interface	USB
