JOVISION JVS-FLWIFI-2PACK

JVS-FLWIFI Floodlight Bulb WiFi Camera User Manual

Model: JVS-FLWIFI-2PACK | Brand: JOVISION

INTRODUCTION

The JOVISION JVS-FLWIFI Floodlight Bulb WiFi Camera is an integrated security solution combining a bright 900 lumens floodlight with a 1080P Full HD Wi-Fi security camera. Designed for outdoor use, this system offers wireless connectivity, remote access, and night vision capabilities, providing comprehensive surveillance for your property. It features internal 16GB storage, eliminating the need for recurring cloud storage fees.
This product is protected by a patent approved by the United States Patent Office.

PRODUCT OVERVIEW

Figure 1: The JVS-FLWIFI Floodlight Bulb WiFi Camera, showcasing its integrated camera and LED floodlight ring. This unit combines illumination with surveillance capabilities.

Figure 2: An example of the JVS-FLWIFI Floodlight Camera installed on an outdoor ceiling fixture. The adjustable head allows for optimal camera positioning.

SETUP AND INSTALLATION

The JVS-FLWIFI Floodlight Camera is designed for simple installation. Follow these steps to set up your device:

1. **Download the Mobile Application:** Download the free mobile application compatible with your device. Refer to the product packaging or manufacturer's website for the correct app name.

2. **Install the Floodlight:** Twist the floodlight bulb into any standard E26 light socket. Ensure the socket is powered off before installation.

3. **Power On and Connect to Camera's Wi-Fi:** Turn on the power to the light socket. The camera will power on. On your mobile device, go to your Wi-Fi settings and connect to the camera's temporary Wi-Fi network.

4. **Configure Network Settings:** Open the mobile application and follow the on-screen prompts to connect the camera to your home Wi-Fi network. This will enable remote access and control.

No wires to run and no holes to drill are typically required for installation into an existing E26 socket. The camera features a 360° adjustable rotating head for optimal angle adjustment.

OPERATING INSTRUCTIONS

Floodlight Operation

- The 900 lumens floodlight can be controlled via your normal light switch or through the mobile application.
- **Power Modes:** The device supports three power modes:

- **Day Mode:** Camera operates in color. Floodlight typically off unless manually activated.
- **Night/IR Mode:** Camera uses infrared (IR) for black and white night vision. Floodlight off.
- **Night/Color Mode:** Floodlight LED's are turned on at night, allowing the camera to stream/record in full color.

Camera Functionality

- **Live Video Streaming:** Access brilliant 1080P HD quality live video remotely from your phone, mobile device, or PC.

- **Recorded Video Access:** Recorded videos are stored on the internal 16GB storage and can be accessed remotely.

- **Motion Detection:** The camera sends mobile alerts when motion is detected within its field of view.

- **Night Vision:** The camera provides clear surveillance 24/7. During the day, it records in true color. At night, it switches to black/white IR night vision, or full color if the floodlight is activated.

Figure 3: A daytime view captured by the JVS-FLWIFI camera, demonstrating clear image quality in natural light conditions.

Figure 4: A nighttime view captured by the JVS-FLWIFI camera with the floodlight activated, illustrating full-color visibility in low-light environments.

Figure 5: The mobile application interface displaying live video feed from the JVS-FLWIFI camera, with options for screenshot, recording, and remote playback.

MAINTENANCE

- **Cleaning:** Periodically wipe the camera lens and floodlight surface with a soft, damp cloth to remove dust and debris. Avoid abrasive cleaners.
- **Firmware Updates:** Check the mobile application regularly for firmware updates to ensure optimal performance and security.

- **Network Stability:** Ensure your Wi-Fi network is stable and strong in the area where the camera is installed for consistent performance.

TROUBLESHOOTING

- **Camera Not Connecting to Wi-Fi:**

  - Ensure the camera is within range of your Wi-Fi router.
  - Verify that you have entered the correct Wi-Fi password.
  - Restart your Wi-Fi router and the camera.

- **Poor Video Quality:**

  - Check your internet connection speed.
  - Clean the camera lens.
  - Ensure adequate lighting, especially at night.

- **Motion Alerts Not Received:**

  - Verify motion detection settings are enabled in the app.
  - Check app notification settings on your mobile device.
  - Ensure the camera has a stable internet connection.

- **Floodlight Not Turning On:**

  - Check the light switch controlling the socket.
  - Verify floodlight settings in the mobile application.
  - Ensure the bulb is properly screwed into the socket.

SPECIFICATIONS

Feature	Detail
Model Number	JVS-FLWIFI-2PACK
Video Capture Resolution	1080p
Connectivity Technology	Wireless (Wi-Fi)
Internal Storage	16GB
Floodlight Brightness	900 Lumens
Light Source Type	LED
Night Vision	IR Night Vision, Full Color Night Vision (with floodlight)
Motion Sensor	Yes (Mobile Alerts)
Indoor/Outdoor Usage	Outdoor
Water Resistance Level	Waterproof (IP66)

Feature	Detail
Mounting Type	Wall Mount (E26 Socket)
Power Consumption	3 watts
Compatible Devices	Desktop, Smartphone (Android)
Item Weight	1 pounds
Package Dimensions	8 x 8 x 6 inches
UPC	744702988173

WARRANTY AND SUPPORT

JOVISION provides free lifetime technical support for the JVS-FLWIFI Floodlight Bulb WiFi Camera. Support is available via talk, text, or email, with nearly 24/7 availability from United States-based technical support.
For assistance, please refer to the contact information provided with your product packaging or visit the official JOVISION website.
