Compatibility

These #9033P plastic bobbins are compatible with a broad selection of PFAFF brand sewing machine models. Please refer to the following lists to confirm compatibility with your specific machine.

Compatible PFAFF Models by Group:

- **Group A:** hobby 303, hobby 307, hobby 309, varimatic 6085, varimatic 6086, varimatic 6087
- **Group C:** expression 2014, Select 150, select 2.0, select 2.2, select 1520, select 1526, select 1528, tiptronic 2010, tiptronic 2020, tiptronic 6110, tiptronic 6112
- **Group D:** freestyle 1522, freestyle 1527, select 3.0, select 3.2, select 4.0, select 4.2, select 1530, select 1536, select 1538, select 1540, select 1546, select 1548, stretch & jeans 6091, tiptronic 6120, tiptronic 6122, tiptronic 6150, tiptronic 6152, tiptronic 6230, tiptronic 6232, tiptronic 6250, tiptronic 6270
- **Group E:** creative 2124, classicstyle 2023, classicstyle 2025, classicstyle 2027, classicstyle 2029, expression 2024, expression 2026, expression 2028, expression 2034, expression 2036, quilt expression 2042, quilt expression 2044, quilt expression 2046, tiptronic 2010, tiptronic 2020, tiptronic 2030, tiptronic 2040
- **Group F:** creative 7560
- **Group G:** creative 2134, creative 2140, creative 2144, creative 2170, creative 7530, creative 7550, creative 7562,

creative 7570, Expression 2038, Performance 2054, Performance 2056, Performance 2058, Quilt Expression 2048

Compatible Ungrouped PFAFF Models:

- 1000, 1006, 1011, 1013, 1014, 1015, 1018, 1019, 1027, 1029, 1035, 1037, 1047, 1050, 1051, 1067, 1069, 1071, 1100, 1147, 1150, 1151, 1171, 1196, 1197, 1199 Compact, 1209, 1211, 1212, 1213, 1214, 1216, 1217, 1221, 1222, 1222E, 1222SE, 1229, 130, 1371, 138, 1465, 1467, 1469, 1471, 1472, 1473, 1475, 1475CD, 1523, 1524, 1525, 1529, 1532, 1534, 1542, 1911, 2012, 2022, 2032, 2134 Creative, 229, 230, 234, 238, 259, 260, 261, 262, 280, 284, 285, 285-1, 290, 294, 295, 295-1, 296, 296-1, 297, 297-1, 300E Smart, 331, 332, 333, 335, 360, 362, 368, 437, 438, 439, 463, 480, 6091 Varimatic, 6120, 6150 Tipmatic, 6250 Selectronic, 6252, 7510, 801, 803, 806, 807, 809, 875, 876, 899, 90, 900, 904, 905, 906, 9063, 907 Hobbymatic, 91, 916, 917 Hobbymatic, 919 Hobbymatic, 919-1, 92, 927 Hobbymatic, 93, 933, 935, 939, 94, 946, 947, 95, 953, 955, 96, 97, 975

Important: Not Suitable For These PFAFF Models:

These bobbins are **not** suitable for the following PFAFF sewing machine models:

- creative 2.0, creative 3.0, creative 4.0, creative 4.5, creative 5.0
- expression 150, expression 2.0, expression 3.0, expression 3.2, expression 3.5, Expression 710
- performance 5.0, performance 5.2
- quilt expression 4.0, quilt expression 4.2, Quilt Expression 720

These specific models typically use bobbin #820921096, not #9033P.

Setup and Installation

Proper setup of the bobbin is crucial for optimal sewing machine performance. Follow these steps to prepare and install your new #9033P plastic bobbins.

1. Winding the Bobbin:

1. Place an empty #9033P bobbin onto the bobbin winder spindle of your sewing machine.
2. Thread the machine for bobbin winding according to your sewing machine's specific instructions. This usually involves guiding the thread through a tension disc and then around the bobbin.
3. Start winding the thread onto the bobbin. Ensure the thread winds evenly and smoothly. Do not overfill the bobbin, as this can cause tension issues or jamming.
4. Once the bobbin is full, cut the thread and remove the wound bobbin from the spindle.

Notice:
Not suitable PFAFF creative 2.0, creative 3.0, creative 4.0, creative 4.5, creative 5.0, expression 150, expression 2.0, expression 3.0, expression 3.2, expression 3.5, Expression 710, performance 5.0, performance 5.2, quilt expression 4.0, quilt expression 4.2, Quilt Expression 720 Sewing Machine Models.**These models are use #820921096 bobbin not 9033P!!**

Image: Detailed dimensions of the #9033P bobbin, showing its height (8.83mm) and diameter (21.87mm), with an inner hole diameter of 6.23mm. These precise measurements ensure proper fit in compatible machines.

2. Inserting the Bobbin:

1. Turn off your sewing machine and unplug it for safety.
2. Open the bobbin case area of your sewing machine. The location varies by model (e.g., front-loading, top-loading).
3. Insert the wound #9033P bobbin into the bobbin case or bobbin compartment, ensuring the thread unwinds in the correct direction as specified by your machine's manual.
4. Guide the bobbin thread through any tension springs or guides within the bobbin case or compartment.
5. Close the bobbin case cover securely.

Operating Instructions

Once the bobbin is correctly installed, you can proceed with your sewing tasks. The #9033P bobbins are designed to work seamlessly with your compatible PFAFF machine.

1. Ensure the upper thread is correctly threaded through the machine and needle.

2. Lower the presser foot.
3. Turn the handwheel towards you to lower the needle into the fabric and then raise it. This action will bring the bobbin thread up through the needle plate.
4. Pull both the upper and bobbin threads to the back of the machine, under the presser foot.
5. Begin sewing. Monitor the stitch quality to ensure proper tension between the upper and bobbin threads.

Maintenance and Storage

To ensure the longevity and optimal performance of your #9033P plastic bobbins, follow these simple maintenance and storage guidelines.

- **Cleaning:** Periodically inspect bobbins for any lint or thread residue. Clean them gently with a soft brush or cloth. Avoid using harsh chemicals.
- **Storage:** Store bobbins in a clean, dry place away from direct sunlight and extreme temperatures. The included plastic storage box is ideal for keeping them organized and protected from dust and damage.
- **Inspection:** Before each use, quickly inspect the bobbin for any cracks, deformities, or rough edges that could snag thread or affect stitch quality. Discard any damaged bobbins.

Image: The #9033P bobbins neatly stored in their transparent plastic case, demonstrating convenient and protective storage.

Troubleshooting

If you encounter issues while using your #9033P bobbins, consider the following common troubleshooting tips:

- **Bobbin Thread Snapping:**
  - Ensure the bobbin is wound evenly and not overfilled.
  - Check that the bobbin is inserted correctly and the thread is properly seated in the bobbin case tension spring.
  - Verify that the bobbin is compatible with your machine model (refer to the Compatibility section).
- **Uneven Stitching or Looping:**
  - Re-thread both the upper and bobbin threads, ensuring they are correctly seated in all guides and tension discs.
  - Clean the bobbin case area of any lint or debris that might be affecting thread tension.
  - Adjust the upper thread tension on your machine if necessary.
- **Bobbin Not Fitting:**
  - Double-check your sewing machine model against the compatibility list. These bobbins are specifically designed for certain PFAFF models and may not fit others.
  - Ensure you are using the correct bobbin type (plastic vs. metal) as specified by your machine's manufacturer.

Specifications

Model Number	#9033P
Material	Plastic
Quantity	50 Pieces
Package Dimensions	4.09 x 2.99 x 1.3 inches
Item Weight	2.46 ounces
Manufacturer	CKPSMS
Batteries Required	No
