IMPERIAL DB 6 S HD User Manual

Model: 77-563-00

INTRODUCTION

The IMPERIAL DB 6 S HD is a compact HDTV satellite and multimedia receiver designed for high-quality DVB-S/S2 program reception. It offers a range of features including EPI program information, automatic software updates, and child safety functions. Its USB port allows for digital media playback in various formats. The receiver's 12V DC external power supply makes it suitable for both home and mobile use, such as camping.

SAFETY INFORMATION

- Ensure the receiver is placed on a stable, flat surface.
- Do not expose the device to rain or moisture to prevent fire or electric shock.
- Avoid blocking ventilation openings. Proper ventilation is crucial to prevent overheating.
- Use only the provided power adapter. Using unauthorized adapters may damage the device and void the warranty.
- Do not attempt to open or repair the device yourself. Refer all servicing to qualified personnel.
- Keep the device away from direct sunlight, heat sources, and strong magnetic fields.
- Unplug the device during lightning storms or when unused for long periods.

PACKAGE CONTENTS

Please check that all items are present in the package:

- IMPERIAL DB 6 S HD Receiver
- Remote Control
- Power Adapter (12V DC)
- User Manual (this document)
- 2 AAA Batteries (for remote control)

PRODUCT OVERVIEW

Familiarize yourself with the components and ports of your IMPERIAL DB 6 S HD receiver.

Figure 1: Front View of the Receiver. This image shows the sleek black design of the IMPERIAL DB 6 S HD receiver from the front. The "HDTV" logo is visible on the left, and "IMPERIAL DB 6 S HD" is printed on the right. A small green indicator light is visible in the center, indicating power status.

Figure 2: Rear View of the Receiver. This image displays the rear panel of the receiver, highlighting its connectivity options. From left to right, you can see the LNB IN (satellite input) port, two USB 2.0 ports, an HDMI output port, and the 12V DC power input. The HDMI logo is also visible on the right side of the panel.

Figure 3: Remote Control. This image shows the black remote control for the IMPERIAL DB 6 S HD receiver. It features standard navigation buttons (up, down, left, right, OK), number keys, volume and channel controls, and dedicated buttons for functions like Menu, Timer, Audio, Zoom, Record, Text, Still, HDMI, EPI, Exit, Info, and TV/Radio mode.

SETUP

Follow these steps for the initial setup of your IMPERIAL DB 6 S HD receiver.

Figure 4: Connection Diagram. This diagram illustrates how to connect the IMPERIAL DB 6 S HD receiver. A digital satellite antenna (SAT-Antenne) is shown connected to the "SAT-Eingang" (SAT Input) port on the receiver. The receiver's HDMI output is connected to a TV (TV-Gerät). The diagram also labels the USB port and the HDMI port on the receiver for clarity.

- 1. Connect the Satellite Antenna:** Connect your satellite dish cable to the "LNB IN" port on the rear of the receiver (refer to Figure 2 and Figure 4).
- 2. Connect to TV:** Use an HDMI cable (not included) to connect the "HDMI" port on the receiver to an HDMI input on your television (refer to Figure 2 and Figure 4).
- 3. Connect Power:** Plug the provided 12V DC power adapter into the "DC 12V" port on the receiver, then plug the adapter into a wall outlet.
- 4. Insert Batteries into Remote:** Open the battery compartment on the back of the remote control (Figure 3) and insert the two AAA batteries, ensuring correct polarity.
- 5. Power On:** Turn on your TV and select the correct HDMI input. The receiver should power on automatically or can be powered on using the remote control.
- 6. Initial Scan:** Follow the on-screen instructions to perform an initial channel scan. This process will detect and store available satellite channels.

OPERATING INSTRUCTIONS

Basic Operation

- Power On/Off:** Press the **Power** button on the remote control (Figure 3).
- Channel Selection:** Use the **P+/-** buttons or the number keys on the remote to change channels.
- Volume Control:** Use the **+/** buttons (next to NAV) to adjust the volume.
- Menu Navigation:** Press the **MENU** button to access the main menu. Use the arrow keys (**▲ ▼ ▲ ▼**) to navigate and **OK** to confirm. Press **Exit** to return to live TV.
- Program Information (EPI):** Press the **EPI** button to view program information.

Multimedia Playback

The receiver supports multimedia playback via its USB 2.0 ports.

1. Insert a USB storage device (e.g., USB flash drive) into one of the USB ports on the rear of the receiver (Figure 2).

2. Navigate to the "Multimedia" or "Media Player" section in the main menu.
3. Select the type of media you wish to play (e.g., Video, Music, Photo).
4. Browse your USB device for the desired file and press **OK** to play.

Note: Supported file formats may vary. Ensure your media files are compatible for optimal playback.

MAINTENANCE

- Cleaning:** Disconnect the power before cleaning. Use a soft, dry cloth to wipe the exterior of the receiver. Do not use liquid cleaners or aerosol sprays.
- Ventilation:** Ensure that the ventilation slots on the receiver are not blocked by dust or other objects. Regularly check and clean if necessary.
- Software Updates:** The receiver supports automatic software updates. Check the system settings menu for options to update the firmware, which can improve performance and add new features.

TROUBLESHOOTING

Problem	Possible Cause / Solution
No picture or sound.	<p>Ensure the power adapter is securely connected and the receiver is powered on.</p> <p>Check the HDMI cable connection between the receiver and the TV.</p> <p>Verify that your TV is set to the correct HDMI input source.</p>
"No Signal" message on screen.	<p>Check the satellite antenna cable connection to the "LNB IN" port.</p> <p>Ensure your satellite dish is properly aligned.</p> <p>Perform a channel scan from the receiver's menu.</p>
Remote control not working.	<p>Check if the batteries are inserted correctly and are not depleted. Replace if necessary.</p> <p>Ensure there are no obstructions between the remote and the receiver's IR sensor.</p>
USB media not playing.	<p>Ensure the USB device is properly inserted.</p> <p>Check if the media file format is supported by the receiver.</p> <p>Try another USB device or file to rule out corruption.</p>

SPECIFICATIONS

Brand	Imperial
Model Number	77-563-00
Color	Black
Connectivity Technology	Audio-Video-Chinch, HDMI

Total USB Ports	2
Total HDMI Ports	1
Voltage	12 Volts
Video Output Ports	1
Image Format	16:9
Power Source	External 12V DC Adapter
DVB Standard	DVB-S/S2
Media Player	USB multimedia player for various formats
Special Features	EPI program info, automatic software update, child safety, SCR compatible (DIN EN 50494 and 50607)

WARRANTY AND SUPPORT

For warranty information, please refer to the warranty card included with your product or contact your local retailer. Keep your proof of purchase for any warranty claims.

For technical support or further assistance, please visit the manufacturer's official website or contact their customer service department. Contact details are typically provided in the product packaging or on the manufacturer's website.
