- **Storage:** Store the mug with the lid slightly ajar to allow air circulation.
- **Freezer Use:** The mug is freezer safe. Ensure liquids are not filled to the very top if freezing, as liquids expand when frozen.

6. TROUBLESHOOTING

Issue	Possible Cause	Solution
Mug is leaking.	Lid not securely fastened, or silicone seal is dislodged/damaged.	Ensure the lid is twisted on tightly. Check the silicone seal for proper placement and any signs of wear or damage. Replace if necessary.
Beverage not staying hot/cold.	Lid not fully closed, or mug not pre-warmed/chilled.	Confirm the drinking spout is closed. Pre-warm with hot water for hot drinks or pre-chill with cold water/ice for cold drinks before filling.
Difficulty cleaning.	Residue buildup from prolonged use without thorough cleaning.	Disassemble the lid components if possible and clean all parts with a brush. Use a mixture of baking soda and water for stubborn stains or odors.
