

Baby Brezza BRZ0057

Baby Brezza Instant Warmer BRZ0057 Instruction Manual

Instantly Dispenses Warm Water for Baby Bottles

1. INTRODUCTION

The Baby Brezza Instant Warmer is designed to provide warm water instantly for preparing baby formula bottles. This device eliminates the need for traditional bottle warmers, offering convenience and speed by maintaining water at a desired temperature 24/7. It features multiple temperature settings to suit your baby's needs.

2. IMPORTANT SAFETY INFORMATION

Please read all instructions before using the Instant Warmer. Failure to follow these safety instructions may result in fire, electric shock, serious injury, or property damage.

- Always place the unit on a flat, stable, heat-resistant surface.
- Do not immerse the power cord, plug, or the appliance in water or other liquids.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- Close supervision is necessary when any appliance is used by or near children.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Do not use appliance for other than intended use.

3. PARTS LIST

The Baby Brezza Instant Warmer consists of the following main components:

- Main Warmer Unit
- Water Tank (50 oz / 1.5 L capacity)

- Dispensing Lever
- Temperature Setting Buttons (with indicator lights)
- Removable Drip Tray

4. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean Before First Use:** Wash the water tank and lid with warm soapy water, then rinse thoroughly. Wipe the main unit with a damp cloth. Ensure all parts are completely dry before assembly.
3. **Assemble:** Place the water tank onto the main unit, ensuring it is securely seated.
4. **Fill Water Tank:** Fill the water tank with distilled or purified water up to the 'MAX' line. Do not use hot water.
5. **Plug In:** Plug the power cord into a suitable electrical outlet. The power indicator light will illuminate.

5. OPERATING INSTRUCTIONS

The Instant Warmer is designed for simple, one-step operation.

1. **Select Temperature:** Press the 'TEMP' button to cycle through the three temperature settings:
 - **Blue Light:** Room Temperature (approximately 72°F / 22°C)
 - **Yellow Light:** Body Temperature (approximately 98°F / 37°C)
 - **Red Light:** Warmer than Body Temperature (approximately 104°F / 40°C)

Image: Close-up of the temperature selection buttons and their corresponding indicator lights (blue, yellow, red).

2. **Wait for Heating:** Once a temperature is selected, the unit will begin heating the water. The indicator light will blink while heating and become solid when the desired temperature is reached. The unit will maintain this temperature continuously.
3. **Dispense Water:** Place a baby bottle under the dispensing spout. Press and hold the dispensing lever to release warm water into the bottle. Release the lever to stop dispensing.

Dispenses
warm water
on demand
24/7

4. **Prepare Formula:** Add the appropriate amount of formula powder to the dispensed warm water according to formula manufacturer instructions. Shake well to mix.
5. **Test Temperature:** Always test the temperature of the formula on your wrist before feeding your baby.

The Instant Warmer is compatible with all bottle shapes and sizes.

Customize With 3 Temperatures

6. MAINTENANCE AND CLEANING

Regular cleaning ensures optimal performance and hygiene.

- Daily Cleaning:** Unplug the unit and allow it to cool completely. Remove the water tank and lid, wash with warm soapy water, and rinse thoroughly. Wipe the dispensing area and drip tray with a damp cloth. Dry all parts completely before reassembling.
- Descaling (Monthly or as needed):** Over time, mineral deposits (scale) can build up. To descale:
 - Empty the water tank.
 - Fill the tank with a mixture of 50% white vinegar and 50% water.
 - Let the solution sit in the tank for 4 hours or overnight.
 - Empty the tank and rinse thoroughly several times with clean water.
 - Fill the tank with clean water and run a full cycle to flush out any remaining vinegar.

7. TROUBLESHOOTING

If you encounter issues with your Instant Warmer, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|----------------------|---|---|
| Unit not turning on | Not plugged in; Power outlet issue | Ensure unit is securely plugged into a working outlet. |
| Water not heating | Temperature not selected; Heating element malfunction | Press the 'TEMP' button to select a temperature. If issue persists, contact customer support. |
| Water not dispensing | Dispensing lever not fully pressed; Water tank empty | Ensure the lever is fully pressed. Check water level and refill if necessary. |
| Slow dispensing | Mineral buildup | Perform descaling procedure as described in Maintenance section. |

8. SPECIFICATIONS
