2. PACKAGE CONTENTS

- 1 x ASHATA 22-Key Wireless Numeric Keypad
- 1 x USB Receiver
- 1 x USB Cable (for charging, if applicable, or for wired connection)
- 1 x User Manual (this document)

3. SETUP INSTRUCTIONS

3.1 Battery Installation and USB Receiver Placement

The numeric keypad requires batteries for wireless operation. Locate the battery compartment on the back of the keypad. Open the cover, insert the required batteries (typically AAA, not always included), and then close the cover. The USB receiver is usually stored within this compartment for convenience during transport.

3.2 Connecting the Keypad

1. Remove the USB receiver from its storage compartment on the back of the keypad.
2. Plug the USB receiver into an available USB port on your computer or compatible device.
3. Turn on the keypad using the power switch, typically located near the battery compartment.
4. The device should automatically connect. No additional drivers are usually required for most operating systems.

4. OPERATING INSTRUCTIONS

4.1 Basic Operation

Once connected, the numeric keypad functions as a standard 22-key input device. Simply press the desired keys to input numbers, mathematical operators, or special functions like Num Lock, Tab, Esc, Backspace, Home, End, PgUp, PgDn, Ins, and Del.

4.2 System Compatibility

The keypad is designed for broad compatibility, supporting various operating systems including Android, Windows XP/Vista/7/8/10, and Mac OS systems. Ensure your device has an available USB port for the receiver.

Multi-system compatible

Supports Windows XP
/Linux/Mac/Vista/7/8/10

5. MAINTENANCE

5.1 Cleaning

To clean the keypad, use a soft, dry cloth. For stubborn dirt, a slightly damp cloth with mild soap can be used, ensuring no liquid enters the device. Avoid abrasive cleaners or solvents.

5.2 Battery Life

The keypad offers approximately 80 hours of continuous use. To conserve battery life, turn off the keypad when not in use for extended periods. Replace batteries when performance degrades.

6. TROUBLESHOOTING

- **Keypad not responding:**
 - Ensure the keypad is turned on.
 - Check if the batteries are correctly installed and have sufficient charge. Replace if necessary.
 - Verify the USB receiver is securely plugged into a working USB port. Try a different USB port.
 - Ensure the keypad is within the effective wireless range of the receiver.
- **Keys typing incorrectly or multiple characters:**
 - This could indicate low battery. Replace the batteries.
 - Ensure there are no obstructions under the keys.
- **Interference:**
 - Move the keypad and receiver away from other wireless devices that might cause interference.

If you continue to experience issues, please refer to the Warranty and Support section for assistance.

7. SPECIFICATIONS

Feature	Detail
Model Number	ASHATA85vu12br0o-13
Keys	22 Keys
Connectivity	Wireless (USB Receiver)
Compatible Devices	Computers, Laptops
Operating Systems	Android, Windows XP/Vista/7/8/10, Mac OS
Key Structure	Scissor-foot
Use Time	Approx. 80 hours
