

Pellon SF101

Pellon SF101 Shape-Flex Cotton Woven Fusible Interfacing User Manual

Brand: Pellon | Model: SF101

1. PRODUCT OVERVIEW

The Pellon SF101 Shape-Flex is an all-purpose, woven, fusible interfacing designed to provide crisp support and permanent stability for various sewing and craft projects. It is made from 100% cotton and is suitable for use with light to medium-weight woven and knit fabrics.

Image 1.1: A roll of Pellon SF101 Shape-Flex Cotton Woven Fusible Interfacing, white in color, showing the product label.

2. KEY FEATURES

- **Material:** 100% Cotton.
- **Type:** Woven, fusible interfacing.
- **Support:** Provides crisp support for collars, cuffs, yokes, pockets, facings, and other detailed garment areas.
- **Stability:** Adds body and permanent stability when used as a backing for needlework and punch embroidery.

- **Fabric Compatibility:** Intended for light to medium woven and knit fabrics, including oxford cloth, chambray, gingham, madras, tattersall, pincord, flannel, and polyester/cotton blends.
- **Dimensions:** 20 inches wide x 10 yards long.

3. PREPARATION

1. **Pre-test:** Always pre-test with a swatch of your fabric prior to use to ensure compatibility with the fusible interfacing.
2. **Pre-wash Fabric:** It is recommended to pre-wash all fabrics to remove any coatings that might interfere with the fusible bond. Do not use fabric softener.
3. **Cutting:** Pin the pattern piece to the Shape-Flex, following the grainline arrows. Trim seam allowances to 1/8 inch.

4. APPLICATION INSTRUCTIONS

Follow these steps to properly apply Pellon SF101 Shape-Flex to your fabric:

1. **Placement:** Place the fusible (rough) side of the Shape-Flex onto the wrong side of the fabric.
2. **Cover:** Cover the Shape-Flex and fabric with a thin, damp pressing cloth.
3. **Ironing:** Using a wool/steam setting on your iron, press firmly for 10-15 seconds. Ensure the iron is moved slowly and evenly over the entire surface to create a strong bond.
4. **Cooling:** Allow the fabric to cool completely before handling to ensure the bond is set.

5. CARE AND MAINTENANCE

Proper care will help maintain the integrity of your projects:

- **Washing:** Machine wash warm or gentle cycle.
- **Drying:** Tumble dry medium or low.
- **Ironing:** Iron at a wool/steam setting if needed.
- **Dry Cleaning:** This product is also suitable for dry cleaning.

6. SAFETY INFORMATION

When using heat-activated products, always exercise caution:

- Always use an iron or heat press according to its manufacturer's instructions.
- Keep hot appliances away from children and pets.

- Ensure adequate ventilation when using steam.
- Do not leave hot appliances unattended.

7. SPECIFICATIONS

Attribute	Detail
Brand	Pellon
