Ibergrif M20802

Ibergrif M20802 Shower Bar Instruction Manual

Model: M20802

1. INTRODUCTION

Thank you for choosing the Ibergrif M20802 Shower Bar. This manual provides essential information for the safe and efficient installation, operation, and maintenance of your new shower bar. Please read these instructions carefully before installation and retain them for future reference.

1.1 Package Contents

Verify that all components are present before beginning installation:

- 1 x Shower Bar (56-58 cm)
- 1 x Soap Dish
- 1 x Shower Holder
- 1 x Installation Screw Set (including wall plugs)
- 1 x Instruction Manual

2. SAFETY INFORMATION

Please observe the following safety precautions:

- Ensure the installation surface is suitable and can support the weight of the shower bar and any attached accessories.
- Use appropriate tools for installation. If unsure, consult a qualified professional.
- Keep small parts out of reach of children to prevent choking hazards.
- Do not hang excessive weight on the shower bar or soap dish.
- Avoid using abrasive cleaners or harsh chemicals that may damage the finish of the product.

3. PRODUCT OVERVIEW AND FEATURES

The Ibergrif M20802 Shower Bar is designed for durability and user convenience, featuring high-quality materials and an adjustable design.

3.1 Key Features

- **Premium Materials:** Constructed from high-quality stainless steel and durable ABS plastic, offering exceptional resistance to rust and corrosion in humid environments.
- **Heavy Load Support:** Designed for secure wall-mounted installation using professional drilling, ensuring stability and superior load-bearing capacity compared to adhesive alternatives.
- **One-Touch Height Adjustment:** Features a smart locking button for smooth height adjustment of the shower holder. Press to adjust, release to lock in place.
- **Convenient Soap Dish:** An included chrome-plated ABS soap dish can be flexibly positioned along the rail. Drainage holes prevent water accumulation, keeping soap dry and promoting hygiene.

4. SETUP AND INSTALLATION

The Ibergrif M20802 Shower Bar is designed for wall-mounted installation. A power drill is required for this process.

1. **Prepare the Installation Area:** Choose a suitable location on your shower wall. Ensure there are no hidden pipes or electrical wires behind the drilling points.
2. **Mark Drilling Points:** Hold the shower bar against the wall at the desired height and use a pencil to mark the positions for the mounting screws. Ensure the bar is level.
3. **Drill Holes:** Using a power drill with an appropriate drill bit for your wall type (e.g., masonry bit for tiles/concrete), drill holes at the marked positions. The depth should match the length of the wall plugs.
4. **Insert Wall Plugs:** Insert the provided wall plugs into the drilled holes. Tap them gently with a hammer until they are flush with the wall surface.
5. **Mount the Shower Bar:** Align the shower bar's mounting brackets with the drilled holes. Insert the screws through the brackets and into the wall plugs. Tighten the screws firmly to secure the bar to the wall. Do not overtighten.
6. **Attach Shower Holder and Soap Dish:** Slide the shower holder and soap dish onto the shower bar. Position them as desired. The soap dish can be adjusted by loosening and tightening its attachment point.

For detailed visual instructions, please refer to the included PDF manual or the installation diagram below.

5. OPERATING INSTRUCTIONS

5.1 Adjusting Shower Holder Height

The shower holder features a convenient one-touch adjustment mechanism:

- To adjust the height, simply press the button located on the shower holder.
- Slide the holder up or down the shower bar to your desired position.
- Release the button to lock the shower holder securely in place.

5.2 Positioning the Soap Dish

The soap dish can be moved along the shower bar to suit your preference:

- Gently loosen the screw or locking mechanism on the back of the soap dish.
- Slide the soap dish to the desired position on the bar.
- Tighten the screw or locking mechanism to secure the soap dish.

6. MAINTENANCE

To ensure the longevity and appearance of your Ibergrif M20802 Shower Bar, follow these maintenance guidelines:

- **Cleaning:** Clean regularly with a soft cloth and mild soap or a non-abrasive bathroom cleaner. Rinse thoroughly with water and dry with a soft cloth to prevent water spots.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, scouring pads, ammonia-based products, or bleach, as these can damage the chrome finish and plastic components.
- **Check Fastenings:** Periodically check the mounting screws to ensure they remain tight. Retighten if necessary to maintain stability.
- **Soap Dish Drainage:** Ensure the drainage holes in the soap dish remain clear to prevent water buildup and maintain hygiene.

7. TROUBLESHOOTING

If you encounter any issues with your shower bar, consider the following:

- **Shower Bar Feels Loose:** Check the wall mounting screws. If they are loose, carefully tighten them. Ensure the wall plugs are securely seated in the wall.
- **Shower Holder Slips:** Ensure the adjustment button is fully released after positioning. If it still slips, check for any debris or damage to the internal locking mechanism.
- **Soap Dish Does Not Stay in Place:** Verify that the locking screw or mechanism on the soap dish is tightened sufficiently after adjustment.
- **Corrosion/Discoloration:** Ensure you are using only mild, non-abrasive cleaners. Harsh chemicals can cause damage. Regular drying after use can also prevent mineral buildup.

If problems persist, please contact Ibergrif customer support.

8. SPECIFICATIONS

Feature	Detail
Brand	Ibergrif
Model Number	M20802
Style	Shower Bar
