## Ibergrif M14450

# Ibergrif M14450 Kitchen Sink Mixer Tap User Manual

Brand: Ibergrif | Model: M14450

## 1. INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Ibergrif M14450 Kitchen Sink Mixer Tap. Please read this manual carefully before installation and retain it for future reference. Proper installation and care will ensure optimal performance and longevity of your product.

## 2. PRODUCT FEATURES

- **Easy Installation:** Designed for straightforward DIY installation with all necessary fixings included.
- **Single-Lever Control:** A single metal lever handle provides precise control over water flow and temperature.
- **Durable Finish:** High-gloss chrome plating resists corrosion and tarnishing from daily use.
- **Ceramic Disc Cartridge:** Equipped with a superior ceramic disc cartridge to minimize leaks and drips, extending the tap's lifespan.
- **360° Swivel Spout:** The spout can rotate 360 degrees, offering flexibility and convenience for various sink tasks.

- **Quality Material:** Constructed from durable brass for reliability and longevity.
- **Water-Saving Aerator:** Integrated aerator designed to optimize water flow while reducing consumption.

### 3. PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- 1 x Kitchen Faucet
- 1 x Installation Kit (includes mounting hardware, seals, and wrench)
- 2 x 40 cm G3/8 inch Flexible Hose Pipes (for hot and cold water connection)

Figure 2: Included Components

### 4. INSTALLATION INSTRUCTIONS

Before starting, ensure the main water supply is turned off. It is recommended to have a qualified plumber perform the installation if you are unsure.

1. **Prepare the Sink Hole:** Ensure your sink has a single mounting hole with a diameter of approximately  $\Phi 35\text{mm}$ .

2. **Connect Hoses:** Screw the hot and cold flexible hose pipes into the base of the faucet. Ensure they are hand-tightened, then use a wrench for a final quarter turn.
3. **Insert Faucet:** Place the faucet into the sink hole, ensuring the rubber seal is correctly positioned between the faucet base and the sink surface.
4. **Secure Faucet:** From underneath the sink, slide the plastic washer, metal washer, and then the fixing nut onto the threaded rod. Tighten the fixing nut securely using the provided wrench. **Important:** Ensure the plastic base/washer is correctly oriented and seated to provide stable support for the tap. Incorrect positioning can lead to instability.
5. **Connect Water Supply:** Connect the flexible hose pipes to your hot and cold water supply lines. The hot water line is typically on the left, and the cold water line on the right.
6. **Check for Leaks:** Slowly turn on the main water supply and check all connections for leaks. Operate the faucet to ensure proper function.

Figure 3: Installation Steps Overview

## 5. OPERATION

The Ibergrif M14450 features a single-lever design for ease of use.

- **Water Flow Control:** Lift the lever upwards to increase water flow. Push it downwards to decrease or

stop the flow.

- **Temperature Control:** Move the lever to the left for hot water and to the right for cold water. Adjust the position to achieve the desired temperature.
- **Spout Swivel:** The spout can be rotated 360 degrees to direct water flow as needed, making it convenient for washing large items or using multiple sink bowls.

## 6. MAINTENANCE AND CARE

To maintain the appearance and functionality of your Ibergrif M14450 tap, follow these care guidelines:

- **Cleaning:** Clean the tap regularly with a soft cloth and mild soap or a non-abrasive liquid cleaner. Rinse thoroughly with water and dry with a soft cloth to prevent water spots.
- **Avoid Harsh Cleaners:** Do not use abrasive cleaners, scouring pads, ammonia-based cleaners, or any products containing bleach, acids, or alcohol, as these can damage the chrome finish.
- **Aerator Maintenance:** Periodically unscrew the aerator from the spout and clean any accumulated debris or mineral deposits to maintain optimal water flow.
- **Cartridge Longevity:** The ceramic disc cartridge is designed for long-term, drip-free performance. Avoid excessive force when operating the lever.

## 7. TROUBLESHOOTING

If you encounter issues with your tap, refer to the following common problems and solutions:

- **Low Water Flow:**
  - Check if the aerator is clogged with debris. Clean it as described in the Maintenance section.
  - Ensure water supply valves are fully open.
- **Leaking from Spout:**
  - A persistent drip usually indicates a worn-out ceramic cartridge. Contact customer support for a replacement.
- **Tap is Loose/Wobbly:**
  - Tighten the fixing nut underneath the sink. Ensure the plastic washer/base is correctly seated and providing stable support.
- **No Hot/Cold Water:**
  - Verify that the hot/cold water supply lines are correctly connected and their respective shut-off valves are open.

For issues not listed here, please contact Ibergrif customer support.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	M14450
Manufacturer	Ibergrif Griferias S.L
Product Dimensions (L x W x H)	29 x 12 x 7.3 cm
Weight	1.03 kilograms
Material	Brass Metal

Feature	Detail
Finish	Chrome
Style	Sink Mixer
Color	Standard (No Pull-out Spray)
Installation Method	Single Hole
Number of Handles	1
Handle Material	Brass
Spout Height	124 Millimeters
Spout Depth	40 Centimeters
Hose Length	40 Centimeters
Special Feature	Lightweight Design
