## TROUBLESHOOTING

---

If you encounter any issues with your accent chair, please refer to the following common solutions:

- **Chair feels wobbly:** Ensure all four tapered legs are screwed in tightly and evenly. If the floor is uneven, consider using furniture pads to stabilize.
- **Cushion slides:** The seat cushion is designed with hook & loop fasteners to keep it in place. Ensure these

fasteners are properly aligned and engaged.

- **Fabric appears flattened:** Velvet fabric may show pressure marks over time. Gently brush the fabric in the opposite direction of the pile to restore its appearance.
