BAGAIL AB-122

BAGAIL 6-Piece Half Mesh Compression Packing Cubes Instruction Manual

Model: AB-122

1. PRODUCT OVERVIEW

The BAGAIL 6-Piece Half Mesh Compression Packing Cubes are designed to help organize and compress clothing and other items within your luggage, maximizing space and keeping contents tidy during travel. This set includes various sizes to accommodate different types of garments and accessories.

Image 1.1: The complete set of BAGAIL 6-Piece Half Mesh Compression Packing Cubes.

Package Contents:

- 1 x Extra Large Compression Cube
- 1 x Large Compression Cube
- 1 x Medium Compression Cube
- 1 x Small Compression Cube
- 1 x Slim Compression Cube
- 1 x Shoe Bag

Product Dimensions:

PRODUCT DIMENSIONS

Medium
13.75*9.5*4.5in

Shoe Bag
16.5*10.25*4in

Slim
13.5*4.75
*4.5in

Extra Large
17.25*12.5*4.5in

Small
11*6.75*4.5in

Large
13.75*12.75*4.5in

Extra Large	Large	Medium	Small	Slim	Shoe Bag
					
coat×2 or Sweaters×5	Hoodies×3 or Shirts×5	Pants×5 or eans×5	T-Shirts×3 or Shorts×2	Underwears×5 or Socks× 8	Shoe×1

Image 1.2: Detailed dimensions and suggested clothing capacity for each cube.

Approximate Cube Dimensions and Capacity

Cube Size	Dimensions (L x W x H)	Suggested Capacity
Extra Large	17.25" x 12.5" x 4.5"	2 coats or sweaters
Large	13.75" x 12.75" x 4.5"	3 hoodies or jeans
Medium	13.75" x 9.5" x 4.5"	5 pants or shirts
Small	11" x 6.75" x 4.5"	5 T-shirts or shorts
Slim	13.5" x 4.75" x 4.5"	5 underwear or socks
Shoe Bag	16.5" x 10.25" x 4"	1 pair of shoes

2. SETUP AND INITIAL USE

Before first use, inspect all cubes for any manufacturing defects. The cubes are ready for use directly out of the packaging.

Preparing for Packing:

1. **Select the Right Size:** Choose a cube size appropriate for the items you intend to pack.
2. **Fold Clothes Neatly:** For optimal compression and wrinkle prevention, fold your clothes as flat and uniformly as possible. Rolling clothes can also be effective.

3. OPERATING INSTRUCTIONS

Follow these steps to effectively pack and compress your items using the BAGAIL packing cubes:

1 Put your clothes inside

2 Zip up and close the cube

3 Use the middle zipper to compress

4 Get ready to enjoy your trip

✓ Practical Tip

Precautions 1
During compression, place a finger behind the zipper slider and pull along the zipper's direction to prevent the fabric from getting caught.

Precautions 2
If the zipper gets stuck on the fabric, stop pulling it forcefully. Gently reverse the zipper while pulling the trapped fabric outward.

Image 3.1: Step-by-step guide for packing and compressing the cubes.

1. **Fill the Cube:** Place your folded or rolled clothes inside the cube. Ensure the items are evenly distributed.
2. **Close the Main Zipper:** Zip up the primary zipper that encloses the contents of the cube. Do not overfill; the cube should not be packed more than two-thirds full for effective compression.

3. **Compress the Cube:** Locate the external compression zipper. Begin to zip it closed. As you zip, place a finger behind the zipper slider in the space between the zipper and the fabric. This helps prevent the fabric from getting caught in the zipper teeth.
4. **Final Check:** Once compressed, the cube will be more compact, saving space in your luggage.

Space-Saving Benefits:

Compression packing cubes can reduce the volume of your packed items, potentially saving 30-40% more space compared to regular packing methods. This allows for more efficient use of luggage space.

SPACE-SAVING

The compression packing cubes can save **30%-40%** space than regular cubes. Please do not fill the cube more than **2/3** space

Image 3.2: Visual representation of space saved after compression.

Organizing Your Luggage:

These cubes facilitate organized packing by separating different types of clothing or items. This makes it easier to locate specific garments without disturbing the entire suitcase contents.

FIT DIFFERENT SUITCASE

Image 3.3: Example of how packing cubes fit into different suitcase sizes.

4. MAINTENANCE AND CARE

Proper care ensures the longevity and performance of your compression packing cubes.

Washing Instructions:

Image 4.1: Recommended washing instructions for the packing cubes.

- **Hand Wash Recommended:** For best results and to extend product life, hand wash with warm water and a mild detergent.
- **Machine Wash (Gentle Cycle):** If machine washing, use a gentle cycle with cold water.
- **Air Dry:** Always hang to air dry. Do not use a dryer or apply high heat, as this can damage the fabric and zippers.

Zipper Care:

The cubes feature durable double-way zippers. To maintain smooth operation, avoid forcing zippers if they encounter resistance. Ensure no fabric is caught before zipping.

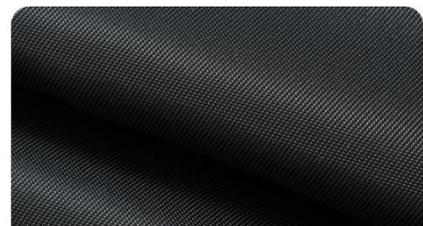

PRODUCT DETAILS

See-through mesh

Portable Handle

Double Zipper

320D is known for durability, tear resistance, structured texture and long life. Thanks to its high density and weight, it's heavier than lightweight fabrics, yet balances strength and weight well.

Image 4.2: Details of the cube's construction, including the mesh, handle, and zipper.

5. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Zipper Getting Stuck:

- **Prevention:** When compressing, always place a finger behind the zipper slider to guide it and prevent fabric from getting caught.
- **Resolution:** If the zipper gets stuck, do not pull forcefully. Gently reverse the zipper while pulling the trapped fabric outward to free it.

Cubes Not Compressing Effectively or Bulging:

PRECAUTIONS OF USE

- Compression packing cubes can not work like vacuum bags, they can not be flattened after compression, they will bulge in the middle part.
- Compression packing cubes can save **30%-40%** space than regular cubes.
- Please do not fill the cubes more than **2/3** space of bag!
- **The more filling, the worse compression. Overloaded packing can save 10% space at most.**
- **Overfilling may overload the zipper, causing teeth damage and misalignment that leads to jamming**

Image 5.1: Important precautions regarding overfilling and compression.

- **Overfilling:** Compression packing cubes are not vacuum bags. They will bulge in the middle if overfilled. Do not fill the cubes more than two-thirds of their capacity. Overloaded packing may save only 10% space at most.
- **Zipper Damage:** Overfilling can overload the zipper, causing teeth damage and misalignment, which leads to jamming. Ensure the cube is not excessively full before attempting to compress.

6. SPECIFICATIONS

Feature	Detail
Brand	BAGAIL
Model Number	AB-122
Material	320D Fabric
Color	Black (Half Mesh)

Feature	Detail
Item Weight	1.54 pounds (for the set)
Closure Type	Zipper
Special Feature	Lightweight, Compression Function
Recommended Uses	Camping, Clothing, Electronic Device, Footwear organization
