1. Locate the charging port on the neckband's control module.
2. Connect the provided charging cable to the neckband's charging port.
3. Connect the other end of the charging cable to a USB power source (e.g., computer USB port, USB wall adapter).
4. The LED indicator will typically show red while charging and turn blue or off when fully charged.

2. Pairing with a Bluetooth Device

To use your neckband wirelessly, you must pair it with a Bluetooth-enabled device such as a smartphone, tablet, or computer.

1. Ensure the neckband is charged and turned off.
2. Press and hold the Multi-function button (often the power button) on the neckband for approximately 5-7 seconds until the LED indicator flashes red and blue alternately. This indicates pairing mode.
