ZACO V85 Robot Vacuum and Mop 2-in-1 User Manual

Model: V85 | Brand: ZACO

Introduction Safety Instructions Package Contents Product Overview Setup Operating Maintenance Troubleshooting Specifications Warranty & Support

1. Introduction

The ZACO V85 is an advanced 2-in-1 robot vacuum and mop designed to simplify your home cleaning. It efficiently vacuums and mops hard floors and carpets, featuring intelligent navigation, app control, and voice assistant compatibility for a truly automated cleaning experience. This manual provides essential information for the safe operation, setup, maintenance, and troubleshooting of your ZACO V85 robot.

2. Important Safety Instructions

Please read these safety instructions carefully before using your ZACO V85 robot and keep them for future reference. Failure to follow these instructions may result in electric shock, fire, or serious injury.

- This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.
- Children should be supervised to ensure that they do not play with the appliance.
- Cleaning and user maintenance shall not be made by children without supervision.
- Do not allow the robot to pick up large objects, sharp objects, or liquids.
- Use only the original charging station and power adapter provided by ZACO.
- Do not operate the robot if it is damaged or malfunctioning. Contact customer support.
- Keep the robot away from open flames and heat sources.
- Ensure all cables, curtains, and fragile items are cleared from the cleaning path to prevent entanglement or damage.

Key Components:

- **Main Body:** Houses the motor, dustbin, water tank, and control electronics.
- **Control Panel:** Buttons for starting/pausing, returning to dock, and mode selection.
- **Dustbin (750ml):** Collects dust and debris during vacuuming.
- **Water Tank (300ml):** Holds water for mopping function.
- **Side Brushes:** Sweep debris into the robot's path.
- **Driving Wheels:** Allow the robot to move across various surfaces.
- **Sensors:** Anti-collision, anti-drop, and i-Move navigation sensors for intelligent movement.
- **Charging Contacts:** Connects with the charging station for automatic recharging.

5. Setup Guide

5.1 Initial Charging

1. Place the charging station against a wall in an open area, ensuring there are no obstacles within 1 meter to the sides and 2 meters in front.
2. Connect the power adapter to the charging station and plug it into a wall outlet.
3. Place the ZACO V85 robot onto the charging station, ensuring the charging contacts align. The robot will begin charging automatically. Allow it to fully charge before first use (approximately 4-5 hours).

5.2 App Connection (ZACO HOME)

For full control and scheduling features, download the ZACO HOME app.

1. Download the "ZACO HOME" app from your smartphone's app store (Android or iOS).
2. Register an account and log in.
3. Ensure your Wi-Fi network is **2.4GHz**. The ZACO V85 does not support 5GHz networks. If your router broadcasts both, ensure your phone is connected to the 2.4GHz network during setup.
4. Follow the in-app instructions to add your ZACO V85 robot. This typically involves pressing a button on the robot to enter pairing mode.

Image: The ZACO HOME smartphone app interface, showing scheduling options for automated cleaning.

5.3 InvisibleWall Setup

The InvisibleWall sensor creates a virtual barrier to restrict the robot's cleaning area.

- Insert the included batteries into the InvisibleWall sensor.
- Place the InvisibleWall sensor on the floor at the entrance of the area you want to block. Ensure the sensor's infrared beam is facing the direction you want to restrict.
- The robot will detect this invisible barrier and avoid crossing it.

Image: The ZACO V85 robot approaching an InvisibleWall sensor, demonstrating how the virtual barrier prevents it from entering a restricted area.

6. Operating Your ZACO V85

6.1 Cleaning Modes

The ZACO V85 offers four unique cleaning modes:

- **Auto Cleaning:** The robot automatically cleans the entire floor area.
- **Spot Cleaning:** The robot focuses on a specific dirty area, cleaning in a spiral pattern.
- **Edge Cleaning:** The robot cleans along walls and furniture edges.
- **Scheduled Cleaning:** Set a cleaning schedule via the app for automated daily cleaning.

6.2 Vacuuming Function

The robot is equipped with a 750ml XXL dustbin for efficient dry cleaning.

- Ensure the dustbin is properly installed before vacuuming.
- The robot will automatically adjust suction power based on floor type (hard floor or carpet).

6.3 Mopping Function

For wet cleaning, attach the mopping module with the microfiber cloth.

1. Remove the dustbin and insert the 300ml water tank with the attached microfiber cloth.
2. Fill the water tank with clean water. You can adjust the water flow level (three levels available) via the app or remote control.
3. The robot will automatically mop hard floors. Avoid using the mopping function on carpets.

Image: Visual representation of the ZACO V85's dual vacuuming and mopping capabilities.

6.4 Control Options

- **App Control:** Use the ZACO HOME app for comprehensive control, including mode selection, scheduling, and monitoring.
- **Voice Control:** Compatible with Alexa and Google Assistant. Enable the ZACO skill/action in your voice assistant app and link your account. Example commands: "Alexa, tell ZACO to start cleaning."

- **Remote Control:** Use the included remote for basic functions like starting/stopping, changing modes, and returning to the charging station.
- **On-Robot Buttons:** Press the buttons on the robot's top panel for quick start/stop and return to dock.

Image: The ZACO V85 robot operating in a room with an Amazon Alexa device, illustrating its voice control compatibility.

6.5 i-Move Navigation

The ZACO V85 utilizes i-Move infrared navigation to efficiently map and clean your home. It detects obstacles and stairs, ensuring thorough coverage while avoiding collisions and falls.

Image: The ZACO V85 robot demonstrating its i-Move navigation pattern while cleaning a living room area.

7. Maintenance

Regular maintenance ensures optimal performance and extends the lifespan of your ZACO V85 robot.

7.1 Dustbin and Filter Cleaning

- **Empty Dustbin:** After each cleaning cycle, press the release button to remove the dustbin and empty its contents.
- **Clean Filter:** Tap the fine particle filter to remove dust. For thorough cleaning, rinse the filter under running water (only if specified as washable in your specific model's detailed instructions) and allow it to air dry completely before reinserting. Replace the filter every 3-6 months depending on usage.

Image: Replacement fine particle filters for the ZACO V85, essential for maintaining suction efficiency.

7.2 Water Tank and Mopping Cloth Cleaning

- **Empty Water Tank:** After each mopping session, empty any remaining water from the tank.
- **Clean Mopping Cloth:** Remove the microfiber cloth from the mopping module and wash it by hand or machine. Allow it to air dry completely before reattaching.

7.3 Side Brush Cleaning

- Regularly check the side brushes for tangled hair or debris. Use the included cleaning tool to cut and remove any tangled hair.
- If brushes are worn or damaged, replace them with new ones.

Image: Replacement side brushes for the ZACO V85, ensuring effective debris collection.

7.4 Sensor Cleaning

- Wipe the anti-drop sensors (located on the bottom of the robot) and anti-collision sensors (located on the bumper) with a clean, dry cloth. Dirty sensors can affect navigation.

8. Troubleshooting

If your ZACO V85 encounters an issue, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Robot does not turn on or charge.	Battery low; charging contacts dirty; power adapter not connected.	Place robot on charging station; clean charging contacts; ensure power adapter is securely plugged in.
Robot cannot connect to Wi-Fi.	Incorrect Wi-Fi band (5GHz); wrong password; robot too far from router.	Ensure your Wi-Fi is 2.4GHz; re-enter password carefully; move robot closer to router.
Poor cleaning performance.	Dustbin full; filter clogged; brushes tangled or worn.	Empty dustbin; clean/replace filter; clean/replace side brushes.

Problem	Possible Cause	Solution
Robot gets stuck frequently.	Obstacles (cables, rugs); dirty sensors.	Clear cleaning area of obstacles; clean all sensors.
Mopping function leaves too much/too little water.	Water flow setting; clogged water nozzle; dirty mopping cloth.	Adjust water flow level in app; clean water nozzle; wash/replace mopping cloth.

ZACO mit vielen Neuheiten.

Neben den beiden neuen Modellen V5x und V85, die beide per App sowie Amazon Alexa steuerbar sind, gibt es noch eine Neuerung: Für noch mehr Freude verlängert ZACO die Garantiezeit ab sofort auf drei Jahre – saubere Sache!

Alle guten Dinge sind drei: Verlängerung der Garantie

Ab dem 1. März 2020 wird die Garantie aller Saug- und Wischroboter auf satte drei Jahre verlängert. ZACO legt höchsten Wert auf Qualität: Bevor ein Roboter ins Sortiment aufgenommen wird, wird er auf Herz und Nieren geprüft. Das Vertrauen in die eigenen Produkte möchte der Distributor an seine Kunden weitergeben – und verlängert daher kurzerhand die Garantie.

Der V5x – der smarte Einsteiger

Der V5x ist die konsequente Weiterentwicklung des Erfolgsmodells V5sPro und kommt im angesagten Glossy Look in der Farbe „Luxury Gold" angeflitzt. Er lässt sich easy per App von überall aus steuern. Hiermit ist es auch möglich, einen Timer für die autoreinigung einzustellen und einen Überblick darüber zu behalten, wann die Zubehörteile ausgetauscht werden sollten. Zudem lässt sich der V5x easy per Sprachsteuerung über Amazon Alexa starten. Und er ist mit allen features ausgestattet, die die tägliche Reinigung erleichtern: Ein intelligenter Wischtank, der mittels modernster i-Dropping Technologie den Zufluss des Wischwassers regulliert und sobald der Roboter stehen bleibt, stoppt auch die Wasserzufuhr, um selbst empfindliches Parkett zu schützen. Da der clevere Helfer mit jeder Menge Infrarot-Sensoren ausgestattet ist, unerfährt er Objekte – auch solche, die während eines Reinigungsvorgangs hinzukommen – und schützt sie somit vor Kratzspuren. Und dank des hocheffizienten Akkus kann er dabei bis zu 120 Minuten durchpowern!

Erhältlich ist der V5x bereits für 229,99 €.

Der V85 – das smarte Arbeitstier im Industrial-Look

Auch der V85 ist eine Weiterentwicklung des unerschütterlichen V80 und passt mit seiner gebürsteten Aluminiumoberfläche in Steel Anthracite perfekt zum modernen Industrial-Look. Auch dieser Alleskönner lässt sich bequem per App und Smartfriend steuern. Im Wischmodus ist er nicht nur mit der intelligenten i-Dropping Technologie ausgestattet, sondern die Wasserzufuhr lässt sich sogar in drei Intensitätsstufen regulieren – so wird jede Bodenart optimal gereinigt. Mit der i-Move Zonennavigation wird die Reinigung noch effizienter: Der V85 teilt die Flächen in Zonen ein, um diese nacheinander zu reinigen.
