Newskill NS-KB-SUIKO-IVORY-RED

Newskill Suiko Ivory Mechanical Gaming Keyboard User Manual

Model: NS-KB-SUIKO-IVORY-RED with Kailh Red Switches

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, maintenance, and troubleshooting of your Newskill Suiko Ivory Mechanical Gaming Keyboard. Please read this manual thoroughly to ensure proper use and to maximize your gaming and typing experience.

Figure 1: Newskill Suiko Ivory Mechanical Gaming Keyboard with Wrist Rest

The Newskill Suiko Ivory is a high-performance mechanical gaming keyboard featuring Kailh Red switches, full RGB backlighting, and a durable aluminum alloy construction. It is designed for both intense gaming sessions and comfortable daily use.

2. PACKAGE CONTENTS

- Newskill Suiko Ivory Mechanical Gaming Keyboard
- Detachable Padded Wrist Rest
- USB Cable
- User Manual (this document)

3. SETUP

3.1 Connecting the Keyboard

1. Unpack the keyboard and all accessories from the box.
2. Connect the USB cable to the USB port on the keyboard.
3. Plug the other end of the USB cable into an available USB port on your computer.
4. The keyboard will be automatically detected and installed by your operating system.

3.2 Attaching the Wrist Rest

The Newskill Suiko Ivory includes a detachable padded wrist rest for enhanced comfort during extended use.

1. Align the wrist rest with the front edge of the keyboard.
2. Gently push the wrist rest towards the keyboard until it securely attaches.

3.3 Software Installation (Optional)

For advanced customization of RGB lighting and macro settings, download the dedicated Newskill software from the official Newskill website. Follow the on-screen instructions for installation.

3.4 Compatibility

The Newskill Suiko Ivory keyboard is compatible with the following operating systems:

- Windows
- Mac OS
- Android
- Linux

4. OPERATING INSTRUCTIONS

4.1 Basic Functions

The keyboard functions as a standard QWERTY layout keyboard upon connection. All keys are active by default.

4.2 RGB Lighting Customization

The Newskill Suiko Ivory features dynamic RGB backlighting with multiple modes and customization options.

- **Preset Modes:** The keyboard offers 11 preset lighting modes. These can typically be cycled through using a dedicated function key combination (refer to the keyboard's keycap legends or software for specific combinations, often Fn + a specific key).
- **Software Customization:** Use the dedicated Newskill software to configure over 20 lighting modes, including cyclical, breathing, and interactive effects. The software allows for precise control over colors, patterns, and speed.

Figure 3: Dynamic RGB Lighting and Software Features

4.3 Macro Recording

The keyboard supports on-the-fly macro recording, allowing you to create custom key sequences for complex actions.

- **On-the-Fly Recording:** Refer to the dedicated software or keyboard's function key combinations for initiating

and saving macros.

- **Software Macro Editor:** The Newskill software provides a comprehensive macro editor for creating, editing, and assigning macros to specific keys.

4.4 Multimedia Keys

Dedicated multimedia keys provide quick access to media controls.

- Pause/Play
- Previous/Next Track
- Volume Up/Down/Mute

Figure 4: Gaming Features: Anti-Ghosting, Macro Recording, Multimedia Keys

4.5 Anti-Ghosting and N-Key Rollover

The Newskill Suiko Ivory features anti-ghosting with N-Key Rollover technology. This ensures that every key press is registered accurately, even when multiple keys are pressed simultaneously, preventing missed inputs during fast-paced gaming.

5. MAINTENANCE

5.1 Cleaning the Keyboard

To maintain optimal performance and appearance, clean your keyboard regularly.

- Disconnect the keyboard from your computer before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and surface.
- For dust and debris between keys, use compressed air.
- Avoid using harsh chemicals or abrasive materials, as these can damage the finish.

5.2 Wrist Rest Care

The padded wrist rest can be wiped clean with a damp cloth. Ensure it is dry before reattaching or using.

6. TROUBLESHOOTING

6.1 Keyboard Not Responding

- Ensure the USB cable is securely connected to both the keyboard and the computer.
- Try plugging the keyboard into a different USB port on your computer.
- Restart your computer.
- Test the keyboard on another computer to rule out a system-specific issue.

6.2 RGB Lighting Not Working

- Check if the lighting is turned off via a function key combination (e.g., Fn + Light key).
- Ensure the Newskill software is installed and updated to the latest version.
- Verify lighting settings within the software.

6.3 Macros Not Functioning

- Ensure macros are correctly recorded and assigned using the Newskill software.
- Check for any conflicting key bindings in other applications or games.
