Setup

The Hotop metal barrettes require no complex setup. They are ready for immediate use upon removal from their packaging.

Ensure the barrettes are clean and free from any debris before first use.

Operating Instructions

These barrettes are designed for simple and effective hair styling. Follow these steps for optimal use:

1. **Select Hair Section:** Gather the section of hair you wish to secure. The barrettes are suitable for various hair types, though they provide a firmer grip on medium to thick hair.
2. **Open the Barrette:** Gently press the two sides of the barrette together to open the clasp. The design allows for easy opening without excessive force.
3. **Position the Barrette:** Slide the open barrette over the selected hair section, ensuring the hair is evenly distributed within the clasp.
4. **Close the Barrette:** Release the pressure on the barrette. The clasp will snap shut, securely holding the hair in place. The smooth edges are designed to prevent hair damage.

Maintenance

To ensure the longevity and appearance of your Hotop metal barrettes, follow these maintenance guidelines:

- **Cleaning:** Wipe the barrettes with a soft, dry cloth after each use to remove hair product residue or oils. For a deeper clean, use a slightly damp cloth and dry immediately.
- **Storage:** Store barrettes in a dry place to prevent tarnishing or rust. Avoid humid environments.
- **Avoid Harsh Chemicals:** Do not expose barrettes to harsh chemicals, perfumes, or hairsprays directly, as this may damage the finish.
- **Handle with Care:** While durable, avoid excessive bending or forcing the barrettes, which could compromise their shape or clasp mechanism.

Troubleshooting

Problem	Possible Cause	Solution
Barrette does not hold hair securely.	Hair section is too thin or too thick for the barrette's capacity.	Adjust the amount of hair gathered. These barrettes are generally more effective with medium to thick hair.
Barrette feels stiff or difficult to open/close.	Minor manufacturing variation or accumulation of residue.	Gently work the clasp a few times to loosen it. Clean any visible residue. If issues persist, contact customer support.
Barrette shows signs of tarnishing or discoloration.	Exposure to moisture or harsh chemicals.	Ensure barrettes are stored in a dry environment. Avoid direct contact with water, hairsprays, or perfumes.
