5.4. Sleep Mode and Reconnection

If the remote is idle for approximately 30 seconds, it will enter sleep mode to conserve battery. To wake it up, simply press any button. The remote will automatically attempt to reconnect to the last paired device.

6. Maintenance

6.1. Battery Replacement

The remote uses one CR2025 Lithium Metal battery. When the remote's performance degrades or it fails to connect, it may be time to replace the battery. To replace the battery:

1. Carefully pry open the back cover of the remote.
2. Remove the old CR2025 battery.
3. Insert a new CR2025 battery with the positive (+) side facing up.
4. Snap the back cover securely into place.

Note: Some product images may incorrectly show a CR2016 battery. Please use a CR2025 battery as specified in the product features.

6.2. Cleaning

Wipe the remote with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the device.

7. Troubleshooting

- **Remote not connecting:**
  - Ensure Bluetooth is enabled on your smartphone/tablet.
  - Verify the remote is powered on (blue light flashing during pairing).
  - Check if the remote's battery needs replacement.
  - If the remote is in sleep mode, press any button to wake it up.
  - Try unpairing and re-pairing the device from your phone's Bluetooth settings.
- **Buttons not responding:**
  - Ensure the remote is actively connected to your device.
  - Check the battery level.
  - Restart your smartphone/tablet and try again.
- **Siri/Voice Assistant not activating on iOS X and above:**
  - This is a known compatibility limitation for some iOS versions. The remote may not be able to activate Siri on iOS X and newer versions.
