Setup and Assembly

Assembly is required for this multi-game table. Follow these steps carefully. It is recommended to have two adults for assembly.

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Refer to the "Package Contents" section to ensure all parts are present.
2. **Assemble the Legs:** Attach the four legs to the main table frame (the Pool Table base) using the provided hardware. Ensure the leg levelers are facing downwards. Tighten all bolts securely.

3. **Level the Table:** Once the legs are attached and the table is upright, adjust the leg levelers at the bottom of each leg to ensure the table is perfectly stable and level on your playing surface.
4. **Prepare Game Tops:** The Foosball and Air Hockey surfaces are integrated into a single reversible top. Identify the Foosball side and the Air Hockey side.
5. **Install Foosball Rods and Players (if not pre-assembled):**If your Foosball top requires it, slide the player figures onto the metal rods, ensuring they face the correct direction. Insert the rods through the designated holes on the Foosball table top and secure the handles.

Operating Instructions

Switching Between Games

The Sunil 3-in-1 table is designed for easy conversion between games.

1. **From Pool to Foosball/Air Hockey:** Place the Foosball/Air Hockey top onto the Pool table base. Ensure it is properly aligned and secured using any integrated locking mechanisms or clasps.
2. **From Foosball to Air Hockey:** Simply lift the Foosball top, flip it over to reveal the Air Hockey surface, and place it back onto the Pool table base.
3. **From Foosball/Air Hockey to Pool:** Carefully lift and remove the Foosball/Air Hockey top from the base. Store it safely to prevent damage. The Pool table is now ready for play.

Playing Foosball

The Foosball game simulates soccer. Players control rows of miniature players mounted on rods to kick a ball into the opponent's goal.

- **Setup:** Ensure the Foosball top is correctly placed and secured. Place one Foosball ball into the designated ball entry slot.
- **Gameplay:** Each player controls their set of rods by pushing, pulling, and rotating them to move their players and strike the ball. The objective is to score goals in the opponent's net.
- **Scoring:** Use the manual score trackers located on the side of the table to keep track of goals.

Playing Air Hockey

Air Hockey is a fast-paced game where players use hand-held pushers to strike a puck across a low-friction surface into the opponent's goal.

- **Setup:** Flip the Foosball top to reveal the Air Hockey surface. Place the two pushers and one puck on the table.
- **Gameplay:** Players stand at opposite ends of the table and use their pushers to hit the puck into the opponent's goal. The first player to reach a predetermined score (e.g., 7 or 10 goals) wins.
- **Note:** This table does not feature an electric air blower. The "Air Hockey" game is a glide hockey variant, relying on the smooth surface for puck movement.

Playing Pool (Billiards)

The Pool table offers a classic game of billiards.

- **Setup:** Ensure the Foosball/Air Hockey top is removed. Use the triangle rack to arrange the billiard balls at one end of the table.
- **Gameplay:** Use the cue sticks and chalk to strike the cue ball, aiming to pocket the other billiard balls according to standard pool rules (e.g., 8-ball, 9-ball).
- **Accessories:** Utilize the provided billiard cues, ball set, triangle, and chalk for an authentic playing experience.

Maintenance

- **Cleaning:**
  - For wooden and plastic surfaces, wipe with a soft, damp cloth. Avoid abrasive cleaners.
  - For the Pool table felt, use the provided brush to gently remove dust and debris. Do not use water or liquid cleaners on the felt.
  - For Air Hockey surface, wipe with a soft, dry cloth to maintain smoothness.
- **Storage:** When not in use, store the game tops in a dry place away from direct sunlight and extreme temperatures to prevent warping or damage.
- **Fasteners:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as necessary to maintain stability.
- **Rods (Foosball):** Keep the foosball rods clean. A small amount of silicone lubricant can be applied to the rods for smoother operation, but avoid oil-based lubricants.

Troubleshooting

Problem	Possible Cause	Solution
Table is wobbly or unstable.	Uneven floor or loose leg fasteners.	Adjust leg levelers until stable. Tighten all leg assembly bolts.
Foosball rods are stiff or sticky.	Dust/debris accumulation or lack of lubrication.	Clean rods and bearings. Apply a small amount of silicone lubricant to the rods.
Air Hockey puck does not glide smoothly.	Dirty surface or damaged puck.	Clean the Air Hockey surface with a soft, dry cloth. Replace puck if damaged.
Game tops do not sit flush on the base.	Improper alignment or obstruction.	Ensure the top is correctly oriented and aligned with the base. Check for any debris or objects preventing a flush fit.
