3. SETUP AND ASSEMBLY

Assembly of the TAMCO T3 Electric Motorcycle is required and should be performed by an adult. Follow the included instructions step-by-step.

Initial Steps:

1. Unpack all components from the box. The package includes the car body and charger.
2. Connect the battery: Locate the battery compartment, typically under the seat. Unscrew the seat and connect the battery terminals as instructed.
3. Attach the training wheels, handlebars, and any other accessories according to the assembly guide.
4. Perform an initial charge of the battery before first use.

4. CHARGING INSTRUCTIONS

Proper charging ensures optimal performance and battery longevity.

- **Charging Time:** 8-12 hours for a full charge. The intelligent charging system automatically controls the charging process.
- **Usage Time:** Approximately one hour per charge, depending on riding speed and child's weight.
- Use only the provided 12V charger.
- Monitor the battery level indicator on the dashboard. Recharge when the numerical value is less than 5, or ideally when less than 10 for best practice.

6. MAINTENANCE

Regular maintenance helps prolong the life of your electric motorcycle.

- Keep the motorcycle clean by wiping it with a damp cloth. Avoid using harsh chemicals.
- Store the motorcycle in a dry, covered area away from direct sunlight and moisture.
- Check all screws and fasteners periodically to ensure they are tight.
- Inspect the wheels and training wheels for wear and tear.
- Ensure the battery is fully charged before storing for extended periods to prevent damage.

7. TROUBLESHOOTING

If you encounter issues, refer to the following common troubleshooting steps:

- **Motorcycle does not start:**
 - Check if the battery is fully charged.
 - Ensure the battery connectors are securely attached.
 - Verify the power button is pressed.
- **Motorcycle runs slowly:**
 - The battery may be low; recharge it.
 - Ensure the riding surface is smooth and flat.
 - Check if the load exceeds the maximum weight capacity (66 LB).

- **Lights or music not working:**
 - Check battery level.
 - Ensure connections to the MP3 player are secure.
