## BINIZE Binize

# BINIZE Android 13 Car Stereo Head Unit (Model: Binize) - Instruction Manual

## INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your BINIZE Android 13 Car Stereo Head Unit. Equipped with an Android system, 4-Core processor, 2GB RAM + 32GB ROM, this 10-inch single DIN car stereo offers smooth operation and fast response. It features a 10-inch IPS touch screen for an enhanced visual experience and supports eye protection mode to mitigate visual fatigue.

## PRODUCT OVERVIEW

### Key Features

- **Android 13 System:** 4-Core processor, 2GB RAM + 32GB ROM for smooth performance.
- **10-inch IPS Touch Screen:** Enhanced color effect and eye protection mode.
- **Wireless CarPlay/Android Auto/Mirror Link:** Seamless smartphone integration for calls, messages, music, and navigation.
- **Bluetooth & FM Radio:** Hands-free calling, phonebook download, audio streaming, and AM/FM/RDS/Aux support.
- **GPS Navigation:** Built-in Wi-Fi receiver for online navigation and support for offline maps.
- **Audio Receiver & DSP:** EQ settings with preset/user-defined modes, sound delay time setting, 6 speaker outputs (subwoofer, mid-bass).
- **Dual USB:** Support for multiple USB inputs.
- **Backup Camera Support:** Includes a backup camera for enhanced safety.

- Mounting Brackets & Screws

*This video provides an unboxing and overview of the Binize 10-inch single DIN Android car stereo, showcasing the main unit, included harnesses, GPS antenna, microphone, and backup camera.*

(Some cars need to purchase extra dash kit or frame to achieve perfect fit.)

- ① Power Cable
- ② RCA Line
- ③ 4P USB / 6P USB
- ④ GPS Cable
- ⑤ Reversing Line
- ⑥ Radio Adapter Cable

A detailed view of the back of the head unit, indicating various connection points such as power cable, RCA lines, USB ports, GPS cable, reversing line, and radio adapter cable.

## SETUP AND INSTALLATION

### Wiring Diagram

This image provides a detailed diagram of the wire harness connections, labeling each wire for proper installation.

## Installation Process

Before installation, ensure your vehicle's power is off. Carefully remove your existing car stereo. Connect the provided wiring harnesses to the corresponding ports on the Binize head unit and your vehicle's wiring system. Secure the head unit using the mounting brackets and screws. Ensure all connections are firm before reassembling your dashboard.

*This video provides a general installation guide for a similar Haudio car stereo model, demonstrating the process of removing an old head unit, wiring the new harness, and mounting the display. This video serves as a general reference for installation steps.*

## OPERATING INSTRUCTIONS

### Wireless CarPlay & Android Auto

Connect your smartphone wirelessly to access CarPlay or Android Auto. This allows for hands-free calls, messaging, music playback, and navigation directly from the stereo's display.

*This image displays the user interface of the Binize car stereo when connected to Wireless CarPlay and Wireless Android Auto, showing common app icons and phone integration.*

### Mirror Link

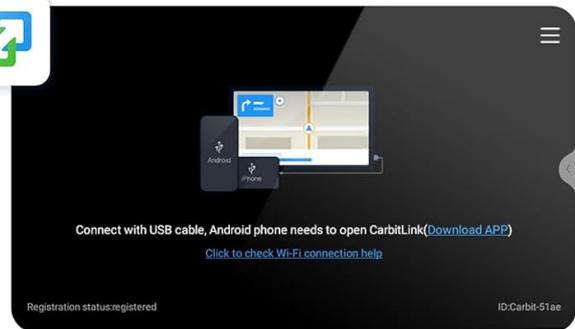

Utilize the wireless Mirror Link feature to project your phone's screen onto the car stereo. This is compatible with both Android and iPhone devices.

# Screen Mirroring

both iPhones and Android Phones

Supports wireless Mirror Link via Carbitlink APP.

Zlink and Mirrorlink can not use at the same time.  
Switch Steps:  
Setting-Car Setting-Switch between Carbitlink  
(Mirror Link) and ZLINK5(CarPlay/Android Auto).

*The image illustrates the wireless Mirror Link feature, allowing users to project their smartphone screen onto the car stereo display. It shows a phone mirroring a video onto the head unit.*

## GPS Navigation

The head unit includes a built-in GPS module and supports an external GPS antenna for accurate navigation. You can use online navigation via Wi-Fi or download offline maps for use without an internet connection.

# GPS Navigation

Built-in GPS module and an external GPS antenna for online map navigation.

*This image shows the built-in GPS navigation system in action, displaying a map on the 10-inch screen, highlighting its capability for online and offline navigation.*

## Bluetooth & FM Radio

Connect your phone via Bluetooth for hands-free calling, phonebook access, and audio streaming. The built-in FM/AM/RDS/Aux tuner allows you to listen to your favorite radio stations and programs.

## DSP & Sound Settings

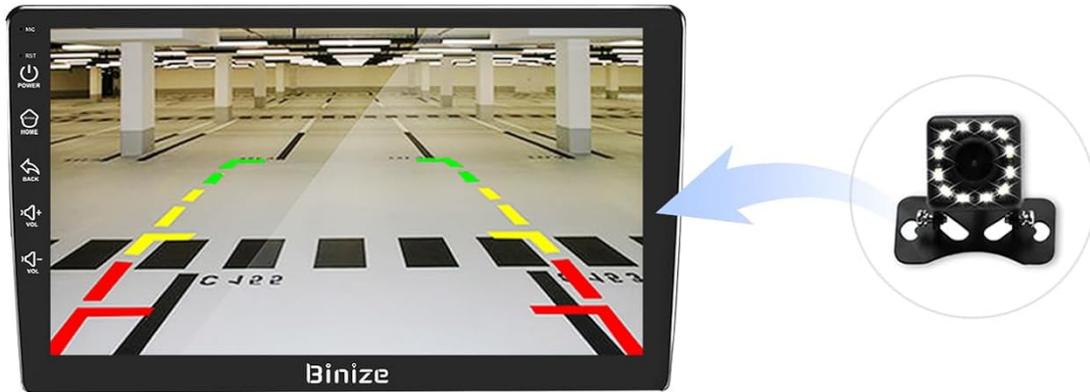

Adjust your audio experience with the Digital Sound Processor (DSP). The unit supports EQ settings with preset sound modes and a user-defined mode. You can also set sound delay times for speakers, including subwoofer and mid-bass, to achieve a true stereo surround sound effect.

## Steering Wheel Control

Control essential functions of the stereo directly from your steering wheel, providing a safer and more convenient driving experience.

# Supports rear view camera input

720P AHD Backup Camera : Waterproof, Night Vision, Wide Angle, Easy Setup and Safety Assist.  
Auto display rearview image when on reverse gear.

# Steering Wheel Control

Through it you can control the functions you need by steering wheel, more convenient.

*This image demonstrates the rear view camera input with parking guidelines on the screen and the interface for configuring steering wheel controls for convenient operation.*

*This video offers a comprehensive overview of the Binize Android car stereo's user interface, demonstrating features like GPS navigation, Wi-Fi connectivity, Bluetooth, and various settings.*

## WARRANTY AND SUPPORT
