EXIT Toys 15 Foot Round Pool Dome Enclosure Instruction Manual

Model: 30.80.15.00 | Brand: EXIT Toys

INTRODUCTION

This manual provides essential information for the safe and effective use of your EXIT Toys 15 Foot Round Pool Dome Enclosure. Please read all instructions carefully before assembly and operation. Retain this manual for future reference.

SAFETY INFORMATION

Your safety is paramount. Adhere to all warnings and instructions to prevent injury or damage.

- **Proper Fit:** Ensure the pool dome is correctly installed and secured to prevent accidental dislodgement, which could pose a drowning hazard.
- **Storage:** When not in use, store the dome in a dry location to prevent material degradation.
- **Sharp Objects:** Avoid contact with sharp objects that could puncture or tear the PVC material.
- **Wind Conditions:** In strong wind conditions, it is recommended to secure the dome further or temporarily remove it to prevent damage to the dome or pool structure.
- **Supervision:** Always supervise children around the pool, even when the dome is in place. The dome is not a substitute for adult supervision.

PRODUCT OVERVIEW

The EXIT Toys Pool Dome Enclosure is designed to enhance your swimming experience by providing protection and warmth. It features a transparent PVC construction that allows sunlight to naturally heat the pool water while shielding it from debris and adverse weather conditions.

Image 1: The EXIT Toys 15 Foot Round Pool Dome Enclosure installed over an above-ground pool.

Key Features:

- **Compatibility:** Designed for above-ground pools with a round top rail (max 1.97 inches thick), round legs (max 1.57 inches diameter), and an even number of legs. Fits round pools with a diameter of 15 feet (173.5 to 181 inches).
- **Thermal Efficiency:** Transparent PVC material utilizes solar energy to naturally warm pool water.
- **Debris Protection:** Shields the pool from dirt, leaves, and other external elements.
- **Ease of Use:** Features secure straps and a hinge mechanism for simple opening and closing.
- **Durability:** Constructed from robust PVC material for lasting performance.

SETUP AND INSTALLATION

Proper installation is crucial for the dome's stability and functionality. It is recommended that at least two people assist with the installation process.

Compatibility Check:

Before beginning, verify your pool's dimensions against the following requirements:

- **Pool Type:** Above-ground, round frame pools.
- **Top Rail:** Round, maximum thickness of 1.97 inches (5 cm).
- **Legs:** Round, maximum diameter of 1.57 inches (4 cm).
- **Leg Count:** Even number of legs.
- **Pool Diameter:** 15 feet (173.5 to 181 inches).

Image 2: Diagram illustrating compatible pool dimensions for the dome enclosure.

General Installation Steps (Refer to included assembly guide for detailed diagrams):

1. Unpack all components and verify against the parts list.
2. Assemble the frame structure according to the provided diagrams, ensuring all connections are secure.
3. Carefully drape the PVC cover over the assembled frame.
4. Attach the dome to the pool's top rail using the secure straps and clamping mechanism. Ensure a snug fit around the entire perimeter of the pool.
5. Verify that the hinge mechanism operates smoothly for opening and closing the dome.

OPERATING INSTRUCTIONS

The pool dome is designed for simple operation to maximize your pool enjoyment.

Opening the Dome:

- Release the secure straps or latches holding the dome in its closed position.
- Gently push the dome sections along the hinge mechanism to open them. The dome can be partially or fully opened.
- Secure the opened sections to prevent them from closing unexpectedly, especially in windy conditions.

Image 3: A user demonstrating the opening mechanism of the pool dome.

Closing the Dome:

- Unsecure any opened sections.
- Gently pull the dome sections back into their closed position over the pool.
- Fasten all secure straps or latches to ensure the dome is fully closed and protected.

GO PLAY OUTSIDE!

When outside, children experience the best adventures. We at EXIT Toys are convinced that great outdoor toys means extra fun. The sturdier, smarter and more playful a toy is, the more fun they are for children to play with.

Image 4: The pool dome partially closed, illustrating its flexible design.

MAINTENANCE

Regular maintenance will extend the life of your pool dome and ensure its continued performance.

- **Cleaning:** Clean the PVC material with mild soap and water. Avoid abrasive cleaners or brushes that could scratch the surface. Rinse thoroughly with clean water.
- **Inspection:** Periodically inspect the dome for any signs of wear, tears, or damage to the PVC material or frame components. Check the integrity of straps and hinges.
- **Repairs:** Small punctures or tears in the PVC can often be repaired with a suitable PVC repair kit. Consult the manufacturer if significant damage occurs.
- **Storage:** During off-season or extended periods of non-use, disassemble the dome and store it in a clean, dry, and protected area away from direct sunlight and extreme temperatures. Ensure the material is completely dry before folding and storing to prevent mold or mildew.
- **Avoid Sharp Objects:** Always keep sharp objects away from the dome to prevent damage.

TROUBLESHOOTING

This section addresses common issues you might encounter with your pool dome.

- **Dome does not fit properly:**
 - Verify your pool's dimensions against the compatibility requirements listed in the "Setup and Installation" section. Ensure the top rail and legs meet the specified size and shape.
 - Check that the dome frame is assembled correctly and all components are securely fastened.
- **Difficulty opening or closing the dome:**
 - Ensure all straps and latches are fully released before attempting to open.
 - Inspect the hinge mechanism for any obstructions or damage. Clean any debris that may be hindering

movement.

- Lubricate moving parts of the hinge mechanism with a silicone-based lubricant if necessary.

- **Water pooling on top of the dome:**

- This can occur during heavy rain. Ensure the dome is properly tensioned and secured to maintain its curved shape, allowing water to run off.
- Periodically clear any accumulated water to prevent excessive weight on the structure.

- **Dome appears unstable in wind:**

- Confirm all attachment straps are tightly secured to the pool frame.
- In anticipation of strong winds, consider adding additional tie-downs or temporarily removing the dome.

SPECIFICATIONS

Model Number	30.80.15.00
Brand	EXIT Toys
Size	15 FT (185"L x 185"W)
Material	Polyvinyl Chloride (PVC)
Color	Transparent
Shape	Round
Closure Type	Straps
Installation Type	Manual (with secure straps)
Compatible Pool Top Rail	Round, max 1.97 inches (5 cm) thick
Compatible Pool Legs	Round, max 1.57 inches (4 cm) diameter, even number
