KEY FEATURES

- **1.39-inch AMOLED Touchscreen:** Provides vibrant colors and clear visibility.
- **Built-in GPS:** Accurate tracking for outdoor activities like running, cycling, and climbing.
- **Heart Rate Monitor:** Continuously tracks heart rate for health insights.
- **Sleep Monitoring:** Analyzes sleep patterns to help improve sleep quality.
- **Water Resistance:** Rated for 50 meters, suitable for swimming.
- **Long Battery Life:** Designed for extended use between charges.
- **Multiple Sport Modes:** Supports various activities including triathlon, running, walking, cycling, swimming, and climbing.
- **Durable Construction:** Features a ceramic case and silicone band.

SETUP

1. Unboxing and Initial Inspection

Carefully remove all components from the packaging. Verify that all items are present: the HUAWEI Watch GT, charging cable, and documentation.

3. Pairing with Your Smartphone

1. Download the HUAWEI Health app from your smartphone's app store (compatible with iOS and Android devices).
2. Open the app and follow the on-screen instructions to create an account or log in.
3. Ensure Bluetooth is enabled on your smartphone.
4. In the HUAWEI Health app, navigate to 'Devices' and select 'Add device'. Choose your HUAWEI Watch GT from the list of available devices.
5. Confirm the pairing request on both your watch and smartphone.

OPERATING INSTRUCTIONS

Basic Navigation

- **Swipe Up/Down:** Scroll through notifications and quick settings.
- **Swipe Left/Right:** Access different widgets like heart rate, weather, and activity data.
- **Tap:** Select an item or open an application.
- **Press Top Button:** Access the app list or return to the home screen.
- **Press Bottom Button:** Customizable shortcut, typically for workout modes.

MAINTENANCE

- **Cleaning:** Regularly clean the watch and band with a soft, damp cloth. Avoid harsh chemicals.
- **Water Resistance:** The watch is water resistant up to 50 meters. It is suitable for shallow-water activities like swimming in a pool or ocean. Do not use it for diving, hot showers, or saunas, as steam and hot water can compromise the seals.
- **Storage:** Store the watch in a cool, dry place when not in use.
- **Charging Contacts:** Keep the charging contacts on the back of the watch clean and dry to ensure proper charging.

TROUBLESHOOTING

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.
- **Cannot pair with smartphone:**
 - Ensure Bluetooth is enabled on your phone.
 - Make sure the HUAWEI Health app is updated to the latest version.
 - Restart both your watch and smartphone.
 - Try unpairing and re-pairing the device through the app.
- **Inaccurate heart rate/GPS data:** Ensure the watch is worn snugly on your wrist, not too loose or too tight. For GPS, ensure you are in an open area with a clear view of the sky.
- **Short battery life:** Check if features like always-on display or continuous heart rate monitoring are enabled, as these can consume more power. Adjust settings in the HUAWEI Health app to optimize battery life.
