## 4. ASSEMBLY INSTRUCTIONS

Assembly is straightforward and typically takes about 10 minutes with two people. Follow these steps carefully:

1. **Unpack and Identify Parts:** Carefully remove all components from the packaging. Lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided assembly diagram (not included in this digital manual, refer to physical instructions).
2. **Assemble the Frame:** Attach the horizontal stretcher bars to the vertical metal legs using the provided screws. Ensure all connections are secure but do not fully tighten screws yet.
3. **Attach the Tabletop:** Carefully place the tabletop onto the assembled metal frame. Align the pre-drilled holes on the tabletop with the holes on the frame. Insert and hand-tighten the screws to secure the tabletop to the frame.
4. **Tighten All Screws:** Once all parts are aligned and screws are in place, gradually tighten all screws using the included Allen key. Ensure the table is stable and level.
5. **Install Adjustable Feet:** Screw the adjustable feet into the bottom of each leg. These feet help stabilize the table on uneven floors. Adjust them as needed to eliminate any wobbling.
