Kircuit B0823P694P

Kircuit AC/DC Adapter Charger Instruction Manual

For Naztech XJ-500 Bluetooth Wireless Headphones

Model: B0823P694P

1. Introduction

This instruction manual provides essential information for the safe and effective use of your Kircuit AC/DC Adapter Charger. This adapter is specifically designed to provide power to compatible devices, such as the Naztech XJ-500 Bluetooth Wireless Headphones. Please read this manual thoroughly before using the product and retain it for future reference.

2. Safety Information

Observe the following safety precautions to prevent electric shock, fire, or damage to the product or connected devices:

- Use the adapter only with devices that match its specified voltage and current requirements.
- Do not expose the adapter to water, moisture, or extreme temperatures.
- Avoid dropping or subjecting the adapter to strong impacts.
- Do not disassemble or attempt to repair the adapter. Refer servicing to qualified personnel.
- Ensure the power outlet is easily accessible for quick disconnection if needed.
- Unplug the adapter from the power outlet when not in use for extended periods.

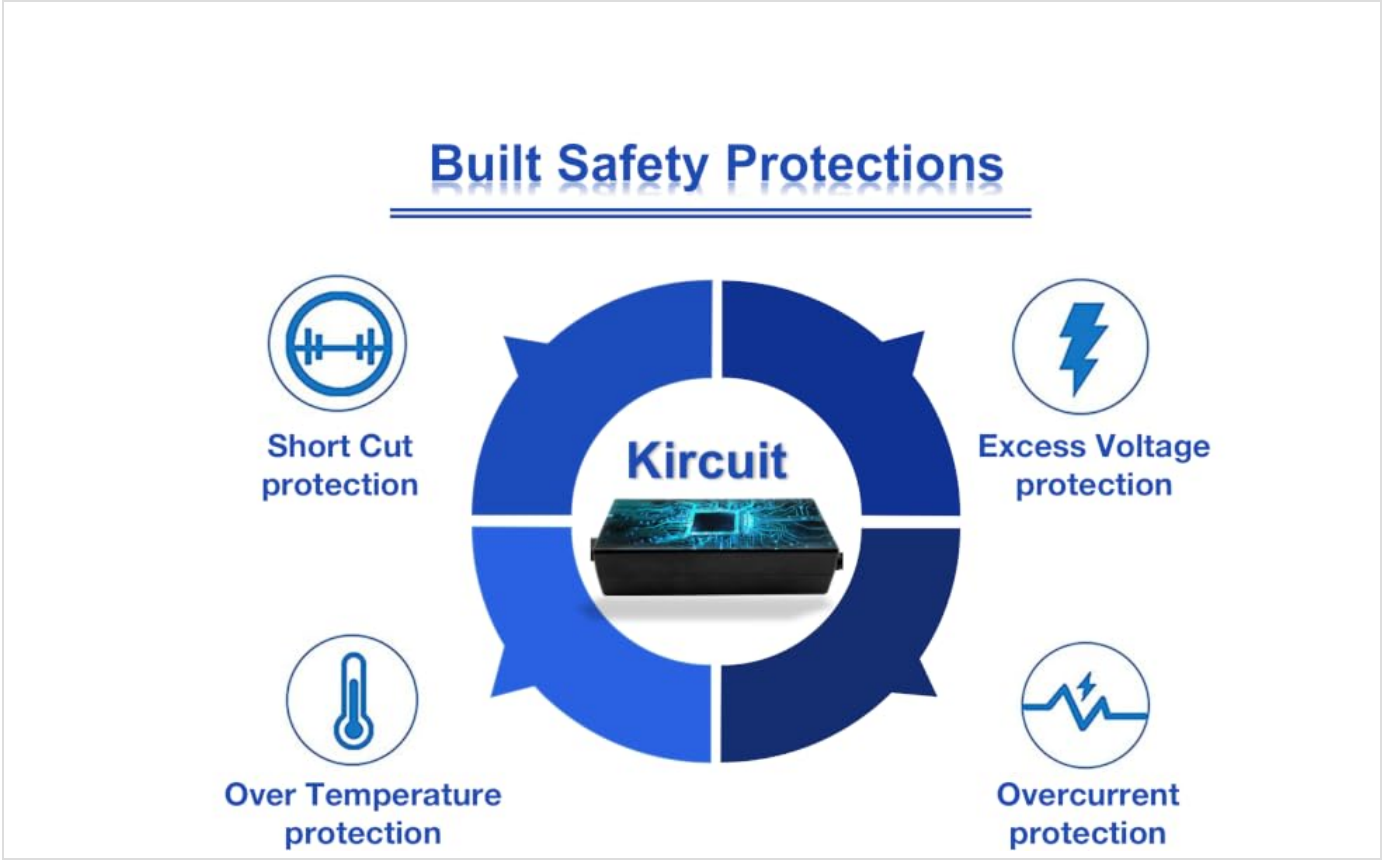

Figure 2.1: Built-in Safety Protections. This diagram illustrates the integrated safety features of the Kircuit adapter, including protection against short circuits, excess voltage, over temperature, and overcurrent conditions.

3. Product Overview

The Kircuit AC/DC Adapter Charger is designed for reliable power delivery. It features a compact design and a durable cable for everyday use.

3.1 Components

- Kircuit AC/DC Adapter Unit
- Integrated DC Output Cable with Connector

Figure 3.1: Kircuit AC/DC Adapter. This image shows the main adapter unit with its integrated power cord and DC output connector.

Figure 3.2: Adapter with Cord Length. The adapter is shown with its approximately 6.5 feet long power cord, providing ample reach for various setups.

3.2 Key Features

- **Input Voltage:** 100V-240V AC, suitable for various regions.
- **Safety Protections:** Built-in dynamic IC, charger IC, and power fuse for rapid charging and overcharge protection.
- **Quality Construction:** Tested units ensuring reliable performance.

4. Setup

Follow these steps to set up your Kircuit AC/DC Adapter Charger:

1. **Connect to Power Outlet:** Insert the adapter's AC plug into a standard 100V-240V AC wall outlet.
2. **Connect to Device:** Carefully insert the DC output connector of the adapter into the charging port of your Naztech XJ-500 Bluetooth Wireless Headphones. Ensure the connection is secure.

Figure 4.1: Adapter in Use. The adapter is shown connected to a power strip, demonstrating a typical setup for charging electronic devices.

5. Operating Instructions

Once connected, the adapter will begin supplying power to your device. For charging, ensure your device is powered off or in charging mode as per its own instruction manual.

- The adapter is designed for continuous power supply or charging.
- Monitor your device's charging indicator to determine charging status.
- Disconnect the adapter from the device once charging is complete to conserve energy.

6. Maintenance

Proper maintenance ensures the longevity and optimal performance of your adapter.

- **Cleaning:** Disconnect the adapter from all power sources before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.

- **Storage:** Store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. Avoid tightly winding the cable to prevent damage.
- **Cable Care:** Regularly inspect the cable for any signs of wear, cuts, or fraying. Do not use if the cable is damaged.

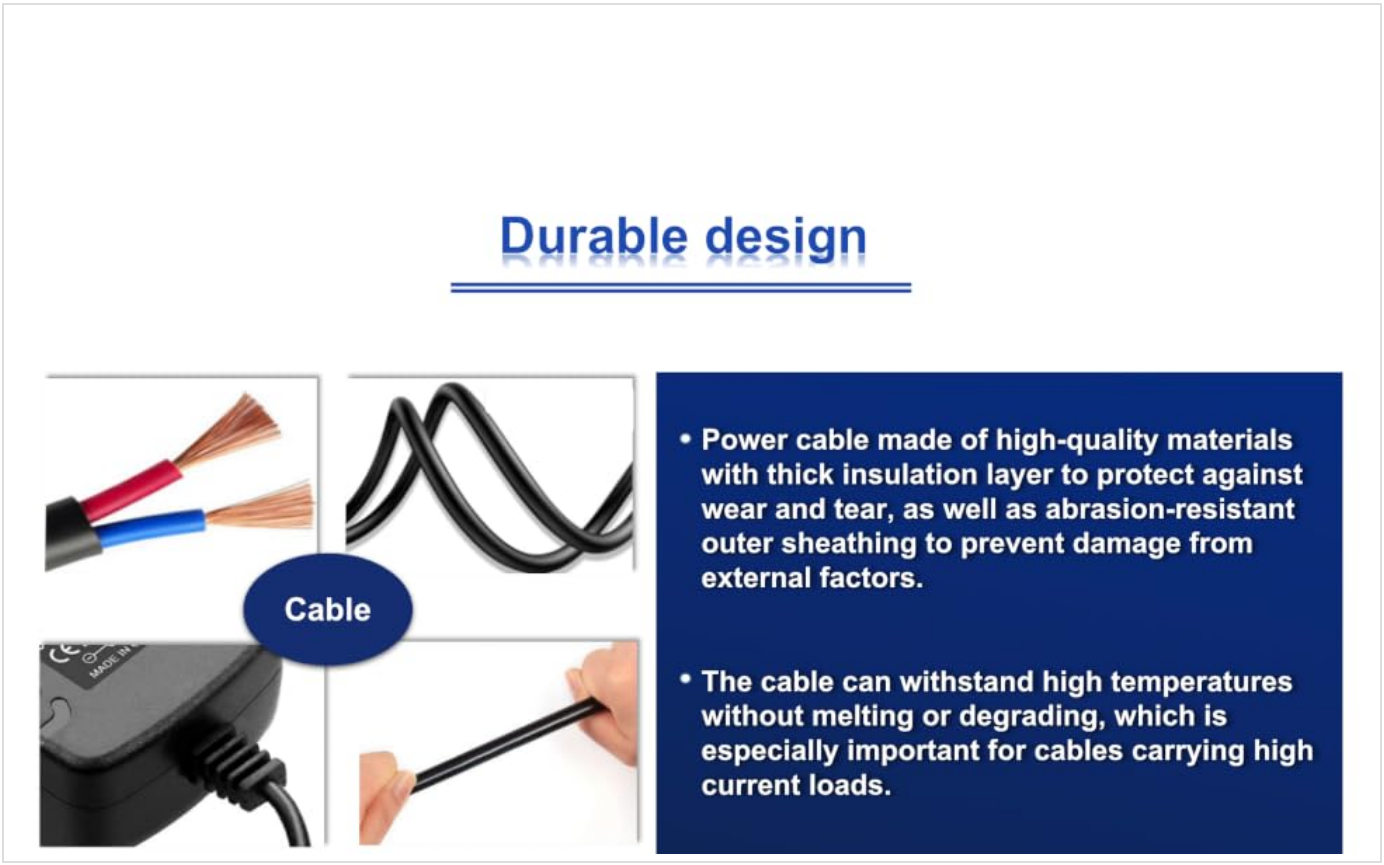

Figure 6.1: Durable Cable Design. The power cable is constructed with high-quality materials, featuring thick insulation and abrasion resistance to protect against wear and external factors. It is designed to withstand high temperatures without degradation.

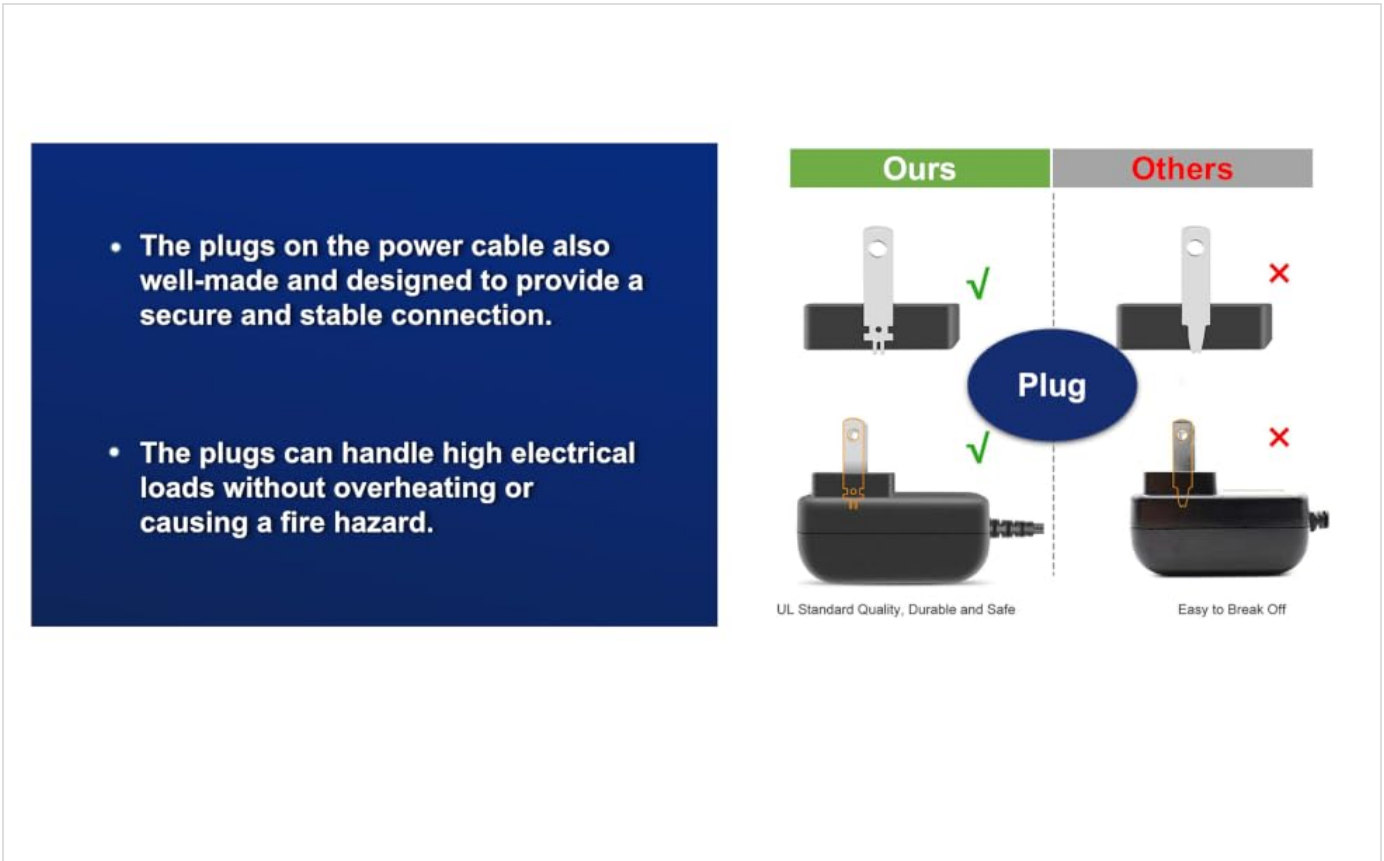

Figure 6.2: Plug Construction. The adapter features a well-made plug designed for a secure and stable connection, capable of handling electrical

loads without overheating, adhering to UL standard quality for durability and safety.

7. Troubleshooting

If you encounter issues with your Kircuit AC/DC Adapter Charger, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Device not charging/receiving power	• Adapter not properly plugged into outlet. • DC connector not fully inserted into device. • Power outlet is not active. • Device's charging port is faulty. • Adapter or cable is damaged.	• Ensure adapter is securely plugged into a working wall outlet. • Verify the DC connector is firmly seated in the device's charging port. • Test the power outlet with another device. • Consult your device's manual or manufacturer for charging port issues. • Inspect the adapter and cable for visible damage. If damaged, discontinue use.
Adapter feels warm during use	Normal operation.	A slight warmth is normal during operation. If the adapter becomes excessively hot, disconnect it immediately and contact support.

8. Specifications

Specification	Detail
Brand	Kircuit
Model	B0823P694P (ASIN)
Input	100V-240V AC, 50/60Hz, 0.3A
Output	0.3A (Voltage not specified in product data, designed for compatible devices like Naztech XJ-500)
Cord Length	Approximately 6.5 feet (2 meters)
Item Weight	8 ounces (approx. 227 grams)
Date First Available	November 28, 2019

9. Warranty and Support

For information regarding warranty coverage and customer support, please refer to the documentation provided with your purchase or contact the manufacturer directly. Keep your proof of purchase for warranty claims.
