## SETUP AND BATTERY INSTALLATION

---

Before using your new remote control, you will need to install batteries. This remote control operates using standard AAA batteries (not included).

1. **Open the Battery Compartment:** Locate the battery compartment cover on the back of the remote control. Slide the cover downwards or press the latch to open it.
2. **Insert Batteries:** Insert two (2) AAA batteries, ensuring the positive (+) and negative (-) ends align correctly with the markings inside the compartment. Incorrect battery orientation can prevent the remote from functioning.
3. **Close the Compartment:** Slide the battery compartment cover back into place until it clicks securely.
4. **Test the Remote:** Point the remote control towards your Sanyo Split Unit air conditioner and press the **ON/OFF** button to confirm functionality.

*Note: If the remote does not respond, check battery orientation or replace with fresh batteries.*
