PACKAGE CONTENTS

- Aula S500 Mechanical Gaming Keyboard
- User Manual (this document)

SETUP INSTRUCTIONS

Follow these steps to set up your Aula S500 keyboard:

1. **Unpack the Keyboard:** Carefully remove the keyboard from its packaging.
2. **Connect to Computer:** Locate the USB-A cable attached to the keyboard. Plug the USB-A connector into an available USB port on your desktop computer or laptop.
3. **Driver Installation:** The keyboard is plug-and-play. Your operating system (Windows or macOS) should automatically detect and install the necessary drivers. No additional software installation is typically required for basic functionality.
4. **Verify Connection:** Once connected, the keyboard's blue LED backlighting should illuminate, indicating a successful connection.

OPERATING INSTRUCTIONS

Key Features

- **Full-Size Layout:** 104 keys with a dedicated Numpad for maximum efficiency in gaming and office tasks.
- **Brown Mechanical Switches:** Offer a tactile bump without an audible click, providing a balanced experience for typing and gaming. Rated for 50 million keystrokes.
- **N-Key Rollover (NKRO) & Anti-Ghosting:** Ensures every keypress is registered accurately, even when multiple keys are pressed simultaneously, crucial for competitive gaming.
- **Wired Connectivity:** Stable USB-A connection with a 1000Hz polling rate for instant response without latency.
- **PBT Keycaps:** Durable, shine-through PBT keycaps resist wear and provide clear backlighting.
- **Ergonomic Design:** Angled design reduces hand and wrist fatigue during extended use.

Ergonomik Tasarım

Eđimli tasarımı, dođal el duruşu sađlayarak hem iş hem oyun için üstün konfor sunar.

Backlighting Control (Ice Blue LED)

The Aula S500 features vibrant ice blue backlighting with multiple modes. Use the **Fn** key in combination with other keys to adjust lighting effects:

- **Switch Lighting Modes:** Press **Fn + 9** or **Fn + 0** to cycle through 20 different lighting effects.
- **Game-Specific Lighting Modes:** Press **Fn + 1** through **Fn + 8** to activate 8 pre-set game lighting modes.
- **Adjust Brightness:** Use **Fn + ↑** (Up Arrow) to increase brightness and **Fn + ↓** (Down Arrow) to decrease brightness.
- **Adjust Speed:** Use **Fn + ←** (Left Arrow) to decrease effect speed and **Fn + →** (Right Arrow) to increase effect speed.

Macro Functionality

The Aula S500 supports macro recording for enhanced gaming and productivity. Refer to the official Aula software (if available for your region) for advanced macro programming and customization. Basic macro functions might be accessible via **Fn** key combinations, which are typically detailed in the software interface.

MAINTENANCE

To ensure the longevity and optimal performance of your Aula S500 keyboard, follow these maintenance guidelines:

- **Cleaning:**
 - Disconnect the keyboard from your computer before cleaning.

- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the keycaps and chassis.
- For dust and debris between keys, use compressed air.
- Avoid using harsh chemicals, abrasives, or solvents, as these can damage the keyboard's finish and keycap legends.
- **Storage:** Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the keyboard or exposing it to excessive force, which can damage internal components or mechanical switches.

TROUBLESHOOTING

If you encounter issues with your Aula S500 keyboard, refer to the following common solutions:

- **Keyboard Not Responding:**
 - Ensure the USB-A cable is securely plugged into both the keyboard and the computer.
 - Try plugging the keyboard into a different USB port on your computer.
 - Restart your computer.
 - Test the keyboard on another computer to determine if the issue is with the keyboard or your system.
- **Backlighting Not Working or Incorrect:**
 - Check if the brightness is set to maximum using **Fn + ↑**.
 - Cycle through different lighting modes using **Fn + 9** or **Fn + 0**.
 - Ensure no software is overriding the keyboard's lighting settings.
- **Keys Not Registering or Double-Typing:**
 - Clean the affected key(s) with compressed air to remove any debris.
 - If the issue persists, it might indicate a switch malfunction. Contact customer support for assistance.

SPECIFICATIONS
