Introduction

This user manual provides detailed instructions for the ALLIMITY RMED062 RM-ED062 Replacement Remote Control. This remote is designed as a direct replacement for various Sony Bravia TV models, offering seamless functionality without complex setup. It operates using infrared (IR) technology and requires no programming.
Compatible with a wide range of Sony Bravia TV models, including but not limited to: KDL-48R55XC, KDL-48R555C, KDL-40R553C, KDL-40R550C, KDL-40R450A, KDL-40R353C, KDL-32R433B, KDL-32R430B, KDL-32R400A, KD-49XE7077, and many others listed in the product specifications.

Setup

The ALLIMITY RMED062 RM-ED062 remote control is designed for immediate use. No programming or pairing is required.

Battery Installation

1. Locate the battery compartment on the back of the remote control.
2. Slide the battery compartment cover downwards or press the latch to open it.
3. Insert two AAA batteries (not included), ensuring the positive (+) and negative (-) terminals align correctly with the markings inside the compartment.
4. Close the battery compartment cover by sliding it back into place until it clicks securely.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the remote control. Do not use liquid cleaners or abrasive materials, as they may damage the surface or internal components.
- **Battery Replacement:** Replace batteries when the remote's response becomes sluggish or stops working. Always replace both batteries at the same time with new ones of the same type (AAA).
- **Storage:** If the remote control will not be used for an extended period, remove the batteries to prevent leakage and potential damage. Store in a cool, dry place.
- **Avoid Exposure:** Do not expose the remote control to direct sunlight, high temperatures, humidity, or extreme cold. Avoid dropping the remote or subjecting it to strong impacts.

Troubleshooting

Problem	Possible Cause / Solution
Remote control is not working.	• Check if the batteries are inserted correctly with the correct polarity (+/-). • Replace old or depleted batteries with new AAA batteries. • Ensure there are no obstructions between the remote control and the TV's infrared sensor. • Make sure you are pointing the remote directly at the TV's IR sensor.
Remote control works intermittently.	• Batteries may be low; replace them. • Ensure the remote is within the effective operating range (up to 10 meters). • Check for strong light sources (e.g., direct sunlight, fluorescent lights) that might interfere with the IR signal.
Certain buttons do not respond.	• This remote is a direct replacement and does not require programming. If a button specific to your original remote's advanced functions is not working, it might not be supported by this replacement model. • Ensure the button is not physically stuck or damaged.
